

# BRILLIANT SCENE DURING SERVICE AT THE VATICAN.

## Pope Leo Takes Part in the Public Consistory—Men High in Church Appear in Robes of Office.

ROME, June 25.—The public consistory postponed from June 18th was held today with much pomp and additional interest and reverence, for, in spite of the reassuring news concerning the Pope's health, many believe that this would be the last consistory under Leo XIII.

The assemblage gazed at the venerable Pontiff with intense curiosity and there was redoubled enthusiasm in the cries of "Long live Leo!" He looked a little more wax-like, a little more bowed, his voice was somewhat thinner and it was evident that his attendants were anxious.

**MANY STRANGERS.**

There were many strangers among the crowds gathered in the corridors of the Sala Regia and Sala Ducale to witness the passage of the cortege. The Pontiff was borne in the sedia gestatoria by eight bearers, clad in red brocade. They were flanked by the bearers of the famous flabelli, or feather fans.

The Pope smiled while he blessed the crowds as he passed. In fact, at times, he tried to rise, so as to better impart his benediction, and it was only when he descended from the sedia gestatoria that his extreme weakness was apparent.

**GORGEOUS PROCESSION.**

Following the Pontiff came a gorgeous line of scarlet-clad cardinals, friars in various habits, priests and members of the Papal Court, wearing velvet knee breeches and white ruffles. The church dignitaries were escorted by the noble Swiss and Palatine Guards, which, with the Sistine choir, chanting solemnly, formed an emotional picture.

Special tribunes were erected on both sides of the Papal throne for the accommodation of the members of the diplomatic corps, the King of Malta, the Roman aristocracy, the families of the Pope and relatives of the newly created cardinals. Among the Americans present were: Monsignor Kennedy, rector of the American College; Monsignor Farrelli, secretary of the American College and

# RULERS IN FANCY DRESS.

THE TSAR AND TSARINA.  
The Tsar and Tsarina recently appeared in fancy dress at the Seventeenth Century Fancy Dress Ball given at the Winter Palace at St. Petersburg. The above photograph was made by Livitsky, St. Petersburg, and was reproduced in the London Black and White.

# "THREE CHEERS FOR HIS MAJESTY THE EMPEROR."

## Seven Hundred American Officers and Men Cheer the Ruler of Germany in Royal Style.

KIEL, June 25.—Emperor William boarded the Kearsarge today and was received by Admiral Cotton and staff. The Emperor asked to be shown the ship.

Emperor William entered one of the double turrets and scrutinized the mechanism. Lieutenant Mustin, of the Kearsarge, showed the Emperor the speed and smoothness with which the turret could be turned.

The Emperor recalled some of the recent French experiments with double turrets in which sheep in one turret were killed by the shock of the gunfire in the other.

"That," said the Captain, "was due to the shortness of the guns which the French experimenters use. The long guns of the Kearsarge change the hold of the highest concussion."

In calling the attention of one of the members of his suite to Captain Hemphill's services on the Monitor, when she first went into action and to some other fierce naval combats of the Civil War, the Emperor added:

"These men are gods to us."

His Majesty also said the coming tower was the most roomy he had ever been in. With the telephonic and signal apparatus in every part of the ship, the Emperor was naturally familiar and he pointed out one or two good new things. The German constructors have been to some trouble with electrical connections and the Emperor was especially

interested in them.

At present the Kearsarge's general electrical system is invisible. When His Majesty's inspection of the Kearsarge was finished the party went to the Admiral's cabin and the Emperor, seeing a large rocking chair, exclaimed:

"What is this for?"

"For Emperors," replied Admiral Cotton.

"Then I will take it," said Emperor William.

Some bottles of champagne were then opened.

After a quarter of an hour's general talk, the Emperor left the battleship and Admiral Cotton assembled the entire ship's company and addressed them as follows:

"The Emperor has inspected the ship quickly, but very thoroughly. His Majesty is a judge of all technical naval matters. He expressed himself as greatly pleased with what he saw. I thank the officers and crew of the Kearsarge for the condition of the ship. I hope every man here will remember that he is a representative of the United States and that he will conduct himself in such a manner as to bring credit upon his country and his flag. We are here by orders of the President. It is our duty to do all in our power to preserve the feeling of friendship and cordiality between the United States and Germany. The cheers for His Majesty, the Emperor."

The 700 officers and men of the Kearsarge thereupon gave three hearty cheers for Emperor William.

# CREWS OUT FOR PRACTICE.

## SETTLED PROGRAM FOR THE RACES TOMORROW AFTERNOON.

POUGHKEEPSIE, N. Y., June 25.—All the crews except the Wisconsin Varsity were out this morning for a short time, but the practice was hardly more than a paddy, the coaches believing that all that can be done for their respective crews is accomplished. Cornell's four crews rowed down the two mile stretch to Blue Point and then returned. The Columbia crews rowed about the same distance south of their boat house, while Syracuse and Georgetown practiced starts.

The settled program for the races tomorrow afternoon is as follows:

Four o'clock, four-oared race, two miles—Cornell, Columbia, Pennsylvania and Wisconsin.

4:45 o'clock, Freshmen eight-oared race, two miles—Cornell, Columbia, Wisconsin, Pennsylvania and Syracuse.

Six o'clock, Varsity eight-oared race, four miles—Cornell, Columbia, Pennsylvania, Georgetown, Syracuse and Wisconsin.

Officials—Referee, John E. Eustis of

# FREIGHT STRIKE CLOSED INCIDENT.

CHICAGO, June 25.—The strike of freight handlers in the houses of the Chicago and Alton Railroad Company, as regarded by the officials of that road, is a closed incident. Work was resumed today and the vacancies caused by the walk-out of sixty-five per cent of the men have been filled.

# WERE TREATED WITH COURTESY.

WASHINGTON, June 25.—Secretary Moody has received a cablegram from Rear Admiral Cotton, telling of the reception of the European squadron at Kiel by Emperor William and saying that it exceeded in cordiality the expectations of all the officers.

DEUTSCHLAND REPORTED.

NEW YORK, June 25.—The steamer Deutschland from Hamburg, was reported off Nantucket lights at 5:40 this morning.

# MERCHANTS PROTECT THEMSELVES.

SACRAMENTO, June 25.—An announcement is made in the Bee tonight of the perfection of a secret organization known as the Merchants' Protective Alliance, formed along the lines of similar organizations in the larger Western cities. The alliance is made up of a large number of the business men of the city and it is proposed to include all employers of labor. The al-

# SABIN WILL NOT CONCEDE THE POINT.

## TELEPHONE PRESIDENT REFUSES TO EMPLOY NONE BUT UNION MEN.

There is no change in the linemen's strike in this city. The strikers are orderly and are awaiting developments.

IN SAN FRANCISCO.

SAN FRANCISCO, June 25.—The telephone linemen's strike shows no change today.

F. A. Holden, acting secretary of the executive board of the Western conference, said today that the union linemen were standing firm.

"At a meeting of linemen's union, Local No. 151, last night," said he, "thirty-five new members were initiated and thirty-five applications for membership were received."

John I. Sabin, president of the telephone company, says that everything is moving along as usual on the lines of the corporation's system.

President Sabin says that the demand that only union linemen be employed is a point that cannot be conceded.

ALL OUT AT SPOKANE.

SPOKANE, Wash., June 25.—The union linemen and trouble men of the Pacific States Telephone Company in this city, who did not quit work with those of other cities on Tuesday are all out today. They claim that not a single linemen, union or non-union, is now working for the company in Spokane. The demand is substantially the same as in other cities, \$3.50 per day for linemen and recognition of the union.

# ONE HUNDRED MEN ARE RAIGNED FOR MISDEMEANOR.

## REDDING, Cal., June 25.—Maxie Brown, 2-year-old son of A. H. Brown, who is en route from San Francisco to Seattle, with a magic lantern show, disliked the set of pajamas in which his mother attired him last evening at Bella Vista, in this county, so he threw off the garment and quietly left the camp of his parents. An alarm was soon sounded for the lost child and 100 men and boys unhesitatingly searched the woods all night for the youngster. He was found this morning, naked, standing on a lumber pile a mile and a half from his starting point, dipping up water with his hands to drink. He had slept under a bush all night and said he was not afraid. A LONGER SESSION. TOPEKA, Kans., June 25.—It was discovered late this afternoon that the constitution of Kansas declares that the Legislature cannot adjourn until all bills are engrossed on the journal and signed by the Governor. This means at least a three-days' session. CONFIRMS MINISTRY. BELGRADE, June 25.—King Peter this afternoon confirmed the appointments of the existing ministry.

# TWO YEAR OLD BABY DISLIKES PAJAMAS AND IS FOUND NAKED.

REDDING, Cal., June 25.—Maxie Brown, 2-year-old son of A. H. Brown, who is en route from San Francisco to Seattle, with a magic lantern show, disliked the set of pajamas in which his mother attired him last evening at Bella Vista, in this county, so he threw off the garment and quietly left the camp of his parents.

An alarm was soon sounded for the lost child and 100 men and boys unhesitatingly searched the woods all night for the youngster. He was found this morning, naked, standing on a lumber pile a mile and a half from his starting point, dipping up water with his hands to drink.

He had slept under a bush all night and said he was not afraid.

A LONGER SESSION.

TOPEKA, Kans., June 25.—It was discovered late this afternoon that the constitution of Kansas declares that the Legislature cannot adjourn until all bills are engrossed on the journal and signed by the Governor. This means at least a three-days' session.

CONFIRMS MINISTRY.

BELGRADE, June 25.—King Peter this afternoon confirmed the appointments of the existing ministry.

# NO MORE TROUBLE. MARTIAL LAW MAY BE DECLARED BECAUSE OF STREET CAR STRIKE.

RICHMOND, June 25.—No further trouble growing out of the street railway strike is reported today. The regiments ordered to reinforce the military here have already arrived and heavy detachments have been placed at all danger points. The company commenced running cars on three lines this afternoon. There is talk of having martial law declared.

# LIPTON ARRIVES. HE IS IN WASHINGTON AND LUNCHES WITH PRESIDENT TOMORROW.

WASHINGTON, June 25.—Sir Thomas Lipton will arrive in Washington this evening. He comes at the special invitation of President Roosevelt and will take luncheon with him tomorrow.

During his sojourn in Washington, Sir Thomas will be the guest of General Corbin.

CONSULTS WITH HAY.

WASHINGTON, June 25.—Updell learning that the Government of the United States had decided to forward the Jewish petition to the Russian Government, Count Cassini went to the State Department and consulted with Secretary Hay.

# PROTEST OF JEWISH CITIZENS WILL BE SENT TO RUSSIA.

WASHINGTON, June 25.—The President has decided to transmit to the Russian Government the petition presented to him by the executive council of the B'nai B'rith regarding the treatment of Jews in Russia. This action has been taken after mature consideration. It was at first decided that the petition should not be presented because it might be resented by the Russian Government and lead to a response that would cause a break in the relations of the two countries. However, the matter was whether the President the petition will go forward. What the result will be is problematical. As indicated in the following note from Secretary Hay to Simon Wolf, the presentation will probably be made to the Russian Government through the United States Charge at St. Petersburg. The note reads:

"Department of State, Washington, June 24, 1903.

"Dear Sir:—The President has concluded to transmit to the Russian Government the petition of which you presented him a draft on the 15th of this month. The matter, which he has to consider most seriously, was whether or not such a proceeding would be to the advantage of your persecuted and outraged co-religionists in Russia. On this point he has decided to accept your opinion and that of the numerous and intelligent groups of American citizens of the Jewish faith whom you represented. He requests that you will send him the petition in due form at your earliest convenience. Of course, you will understand that the President cannot tell you what reception your petition will meet with at the hands of the Russian Government. I am, sir, faithfully yours,

"JOHN HAY.

"Hon. Simon Wolf, Washington, D. C."

The petition which will be transmitted to the Russian Government is the one which the executive council of B'nai B'rith handed to the President as a tentative document to be signed by leading citizens of the United States outside of Federal office holders. It is expected that it will take about two weeks to secure these signatures, work along that line already being in progress.

# TERRY HOME AT SACRAMENTO IS LIKELY TO BE PURCHASED.

SACRAMENTO, June 25.—It is probable the Terry residence at Thirtieth and N streets in this city will be chosen as a Governor's mansion by the commission charged with the duty of providing an official residence for the Chief Executive of the State.

The Legislature in 1901 appropriated \$50,000 for the purpose and of this amount \$48,000 remains.

The members of the commission are of the opinion that the amount of money available may not be sufficient for the purchase of a suitable site and the construction of a building that it will be safer to take some place already built. The Terry home is directly opposite the capitol grounds and is one of the finest in Sacramento.

# HE IS NOT LIKED. COUNT HODERVARY RETIRES AFTER TWENTY YEARS' UNPOPULAR RULE.

VIENNA, June 25.—Count Hodervary's formal acceptance today of Emperor Francis Joseph's invitation to form a new Hungarian Cabinet entails his resignation as Ban of Croatia, and much satisfaction is expressed by the Croats at his retirement after twenty years of unpopular rule.

The Viennese press unanimously condemns Count Hodervary's surrender to the demands of the opposition in the Diet, characterizing it as the first step towards the dissolution of the present Liberal majority and consequently as being perilously near the breaking up of the dual system of government of Hungary and Austria.

# FOUND DEAD. PROMINENT OKLAHOMA MAN IS THOUGHT TO HAVE BEEN MURDERED.

HOBART, Oklahoma, June 25.—Leonard Lamb, a prominent Oklahoma man was found dead on the railroad track at Wichita Junction early today, terribly mangled by the cars. It is asserted that he was murdered and his body placed on the track. Five persons have been arrested on suspicion. In the Government land lottery at El Reno two years ago, Lamb drew one of the most valuable tracts in the territory.

# REGULAR SERVICE OVER MOUNTAINS.

DENVER, June 25.—Commencing July 1 from Chicago and July 3 from Denver and Colorado Springs, the regular service of the "Rocky Mountain Limited" train will be resumed between Colorado and Chicago. The eastbound train will leave Denver at 12:30 p. m. and Colorado Springs at 12:45 p. m. arriving at Chicago at 6:30 p. m. the following day. Westbound the train will leave Chicago at 6:45 p. m. and arrive at Denver at 8:45 a. m. and at Colorado Springs at 8:30 p. m. the following day.

# GROCERY AUCTION.

On Friday, June 26, at 11 a. m. at the grocery store of F. Johns, northwest corner of Fifth and Castro streets, on account of retiring from business, staple and fancy groceries, flour, teas, coffees, sugar, cigars, Schilling's extracts, spices, also scales, show cases, coffee mill, oil tank, Deavers and ladies' attire as all goods are first-class. Sale absolute.

MEYSEL & MEYSEL, Auctioneers, Office 405 8th st., phone Cedar 621.

MERRY TIMES BEHIND THE WICKETS.

George Beck of Livermore at Head of Druids—Notes About the Local Lodges.

Pacific Lodge No. 7, A. O. U. W., meets this evening in Fraternal Hall, 1165 Washington street.

Last Thursday evening there was a large gathering in the hall, the occasion being the smoker, under the auspices of Oakland Lodge No. 3, Pacific Lodge No. 7, Oak Leaf Lodge No. 33, Keystone Lodge No. 64, and Fremont Lodge No. 297. Dr. R. R. Tait presided, and in his opening remarks called attention to the fact that the A. O. U. W. would have a booth at the Street Fair, which all members of the Order were invited to visit. The speakers of the evening were: District Deputy, Deputies Hall and O'Toole, and Range of Harward Lodge No. 18, L. M. Prince, a charter member of Pacific No. 7, but now of Arizona. W. M. Cogan of Oak Leaf, and George Hoffman, who, though not a member of this Order, gave an excellent talk on the benefits to humanity and society rendered by the fraternities. The rest of the program was as follows: Organ and Solo, by title of Pacific Lodge and Prof. W. J. Russell of Oak Leaf Lodge; vocal solo, by George A. Hale of Pacific Lodge and W. J. Oakes of Oak Leaf Lodge; violin solo, by J. S. Fox and R. N. Hall of Pacific Lodge; while George A. Scott of Pacific Lodge entertained with his talk, "Fishing." The hall was well filled and all enjoyed the evening very much.

Arrangements are being made to hold memorial services by Pacific Lodge No. 7, in honor of the memory of the late S. J. Pennington, who was a Past Master of that lodge and a leader for a number of years. The exercises will take place in Fraternal Hall, 1165 Washington street, on the evening of July 16.

**MODERN WOODMEN.**

The Modern Woodmen of America have their regular meeting in Macrae's Temple, corner Clay and Eleventh streets, tonight. Several candidates will be initiated, and Neighbor Tom Thornton will be back from Head Camp Convention. All who can are earnestly requested to be present. The exercises will take place in the hall, a pleasant place to make your headquarters while at the fair, as it is easy and convenient, being just east of Alice street, on the north side of Eleventh street.

**NATIVE DAUGHTERS.**

Piedmont Parlor No. 87, N. D. G. O., has elected the following members to fill the chairs for the ensuing term: Past President, Mrs. S. Marden; President, Miss M. D. Pacheco; First Vice President, Miss A. Book; Second Vice President, Miss C. Hickies; Recording Secretary, Mrs. A. McDonald; Financial Secretary, Mrs. G. Biber; Marshal, Mrs. J. Jordan; Inside Sentinel, Mrs. J. P. Lera; Outside Sentinel, Mrs. M. Mason; Treasurer, Miss L. Hammerly; Trustees, Mrs. E. Swaney, Mrs. T. Marshall, Miss A. Hammerly; Organist, Mrs. J. E. Brown.

Piedmont Parlor is in a very prosperous condition at present and adding new members to its list at each meeting.

**IMPROVED RED MEN.**

Toumash and Uncas Tribes will have a joint raising-up of officers in Forest-street Hall Wednesday evening, July 1. After the installation a collation will be served.

Narra-Mattan Council No. 35, D. O. P., will give a social this Thursday evening in E. of P. Hall, Twelfth and Franklin streets. Members and their friends are all cordially invited. Plenty of fun for all.

**PRIDE OF THE FOREST.**

Pride of the Forest Circle, No. 122, C. O. F., held its meeting last Tuesday evening, with quite a large attendance. Two new candidates were initiated into the order. Tuesday evening, July 7, will be installation of officers. All members are requested to be present as a good time is anticipated.

**OAKLAND COUNCIL MEETING.**

The regular meeting of Oakland Council was held last Tuesday evening. Favorable action was taken upon seven applications for membership. This was the starter for the large number of candidates, who will be initiated on Tuesday evening, July 7. That Oakland Council will be assisted by a team composed of San Francisco members, and a most enjoyable time has been planned, closing with a banquet. The council has in preparation another bowling tournament for members.

**I. O. O. F., NO. 253.**

Harbor Lodge, No. 253, I. O. O. F., held its regular session last Wednesday evening, June 24th. The third degree of Odd Fellowship was conferred upon a brother. Two applications were received. One application was acted upon to be admitted by card. A committee was appointed to arrange for the point public installation of Sunset and Harbor Lodges. The Committee on Entertainment made a full report. Degree work will be given at

**G. A. R. ENCAMPMENT.**

Preparations are to begin soon by representatives of the various posts of the G. and Army of the Republic, appointed at the suggestion of Mayor Olney in connection with other citizens, for an "Oakland Day" during the visit of the representatives to the national encampment and accompanying visitors to California in the fall. It is expected that as soon as the appointments have been made by the posts and the names have been sent to Mayor Olney, he will call a meeting.

**KNIGHTS OF HONOR.**

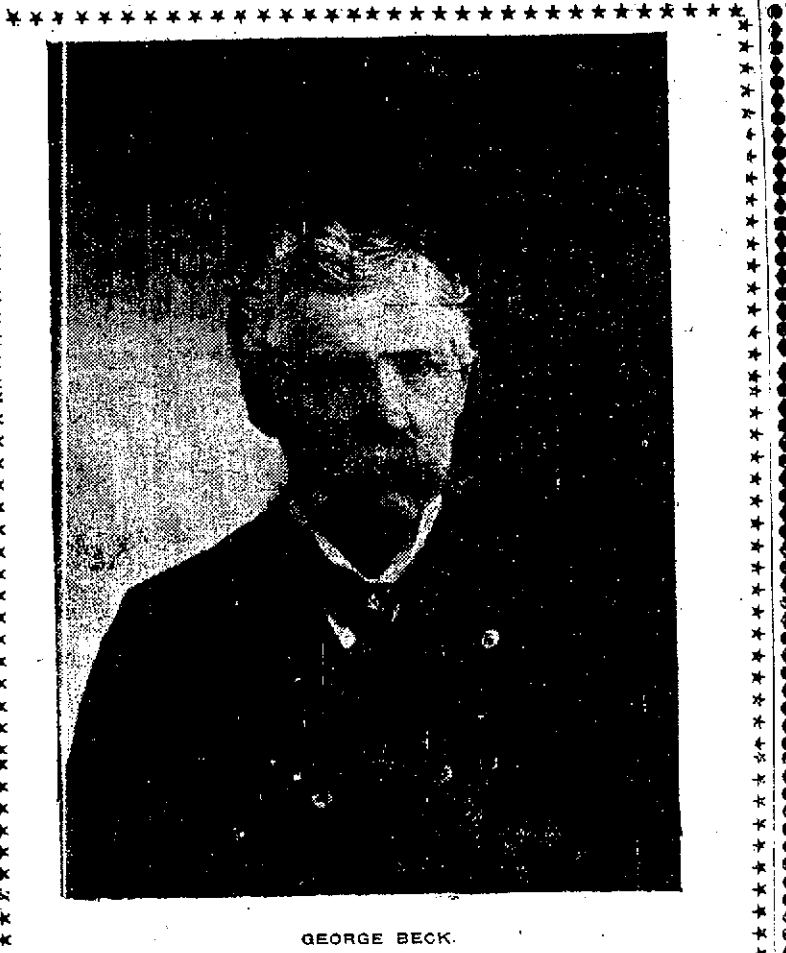

The local lodge of the Knights and Ladies of Honor has initiated several candidates during the present term and is preparing to initiate a class about the first of August. This order, which claims to be the "Queen of the Benevolent Orders," is forging ahead in the Eastern States. Grand Protector, Wolfe of California, who is a member of Oakland Lodge, has been authorized by the Supreme Protector to place organizers in the field and expects large results before the next meeting of the Grand Lodge in April, 1934.

**LYON POST, NO. 8.**

Lyon Post, No. 8, admitted three new members at its meeting on last Tuesday evening and referred seven applications for membership to committees for investigation. It is hoped to increase the membership to 200 before the meeting of the national encampment in San Francisco.

**REBEKAHS MEET.**

A District Rebekah Assembly was called by Mrs. Blanche Whitman of Berkeley, Deputy Grand President. The Rebekah Lodges of Berkeley, Oakland and Alameda assembled in the I. O. O. F. Hall of Berkeley and were presided over by Mrs. Blanche Whitman, Miss Ella Gore, acting as Secretary.

GEORGE BECK. GEORGE BECK OF LIVERMORE, WHO WAS ELECTED GRAND NOBLE ARCH OF THE ANCIENT ORDER OF UNITED DRUIDS AT THE RECENT STATE MEETING, HELD AT SACRAMENTO.

**PERSONAL AND SOCIAL.**

**AN INFORMAL CARD PARTY GIVEN BY MISS CHRISSIE TAFT.**

An informal card party was given Tuesday evening by Miss Chrissie Taft, the guests, numbering about 35, having been invited over the telephone only a day or two previous. A most enjoyable evening was spent in playing five-handed euchre, prizes being won by Miss Edith Gaskill, Miss Jane Crollin, Miss Edith Gaskill, Miss Anita Lohse, Miss Pauline Fere, Miss Edith Valentine, Miss Elsie Narwood, Miss Thelma Sanborn, Miss Maude Edith Pope, Miss Beatrice Trocman, Miss Elma Parham, Miss Minnie Ray Wilson, Mr. and Mrs. Maxwell Taft and Kay Crawford, Whipple Hall, Will Olney, Tom Olney, Duncan McDuffie, O. W. Widemeyer, Clay Gooding, Prentiss Selby, John Sanborn, Harold Havens, Bernard F. Miller, Stanley Moore, Philip Wadsworth, Sylvanus Farham, Clifton Kroll, Ravel Blanchard and Thomas Knowles.

**HOME WEDDING.**

A pretty home wedding at Linda Vista Terrace last night was the marriage of Miss Anna M. McQuarrie of Washington to W. E. Dean of this city. Rev. Father McDeweney officiated and only relatives of the contracting party were present. Miss Lillian McQuarrie acted as bridesmaid and Mr. Beach Dean as best man.

Mr. Dean is well known in this city, and has for some years been connected with the Dean Law and Collection Agency.

The couple will spend their honeymoon in Lake County, after which they will locate in this city.

**BACK FROM HONEYMOON.**

Mr. and Mrs. Henry A. Dodge, nee Dorothy, have returned home after an extended honeymoon. They enjoyed a two weeks' visit to the Yosemite, and for the past fortnight have been touring Southern California, visiting Los Angeles, Pasadena, Catalina, Coronado, Santa Barbara and other points of interest.

**WING-WYNIS.**

Miss Genevieve Wynis of 772 Eleventh street was married to W. R. Wing, a young mining man of Oregon, at 5 o'clock this afternoon by the Rev. Father King, pastor of St. Mary's Church of the Immaculate Conception.

The bride is the daughter of Mr. and Mrs. J. H. Wynis. After a wedding journey, Mr. and Mrs. Wing will be at home in Gold Hill, Oregon.

**GONE FOR OUTING.**

A party composed of people prominent in Oakland's social circles last evening for a few weeks' outing in the Sierras. They have planned to visit Tallac, Glen Alpine and Brockway before their return. In the party are: Mr. and Mrs. George Lowell and daughter, Miss Grace Gibson, Miss Ethel Gray, Miss Laura Kirkness, Miss Florence Vale, Miss Fannie Cooper, Miss Alice Kelley, Miss Eva Doane, Miss A. Webster, Miss Beattie Hooke, Miss Sadie Cannon, Miss Annie Cannon, Miss Clara Pierce, Miss Mary Pierce, Miss Eva Margerson, Miss Annie McCracken, Miss Van Latta, Miss Mary Rust, Mr. and Mrs. W. H. Hayes, Mrs. S. H. Wade, Miss Higgins, Mr. and Mrs. J. B. Carson, Mrs. C. E. Goodrich and daughter, Miss Marguerite Walker, Mrs. F. Preble and son, Mrs. A. M. Bruce, Mrs. Wilbur Walker, Mrs. A. L. Hagman, F. H. Beaver and family, George Inness and Joseph Rosborough.

**PERSONALS.**

Mrs. J. H. Nicholson has returned from a short visit to San Mateo, where she has been the guest of Mrs. Christian Reis. Miss Viva Nicholson is still at San Mateo, returning tomorrow and leaving late in the week to spend some time with Mr. and Mrs. Victor Metcalf at their summer home.

Dr. and Mrs. J. Loran Pease, nee Miss Mabel Gage, have returned from their honeymoon trip and are at their home on Harrison street. The trip included a visit to all the interesting parts of South-

**ern California, and the young people were away about three weeks.**

Mrs. E. S. Denton, Miss Denton and Miss Sloper will leave Sunday evening for Whittman, Washington. They will visit Mr. and Mrs. Richard B. Jyer for several weeks.

**His Last Hope Realized.**

(From the Sentinel, Galesburg, Mo.)

In the first opening of Oklahoma to settlers in 1889, the editor of this paper was among the many seekers after fortune who made the big race one day in April. During his traveling about and afterwards his camping upon his claim, he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea, which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was lying about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure and he cannot help but feel grateful. The season for bowel disorders being at hand suggests this item. For sale by Osgood Brothers, 7th and Broadway.

**One Bottle Cures RHEUMATISM.**

McBain's KIDNEY AND BLADDER CURE

is caused by uric acid in the blood, and only by removing this uric acid can rheumatism and neuralgic troubles be cured. Uric acid finds its way into the blood, and the kidneys are weakened and do not throw it off from the system. Restore the kidneys and you restore the power that will cure the uric acid. McBain's Kidney and Bladder Cure does this. It drives the deadly uric acid from the blood, it sustains the organs that sustain life and the forces that make blood. McBain's Kidney and Bladder Cure is sold by all druggists. Write for a booklet with a sworn statement of cures. W. J. McBain, Sole Mfr., 418 S. Spring St., Los Angeles.

**Wink and Blink**

Will you wink and blink your life and nervous energy away rather than wear glasses?

Will you force your eyes to overwork, neglect them when they CRY for help, and then after years of wear, until at middle life you are compelled to seek aid, perhaps to find your vision impaired beyond entire repair? A little aid at the proper time may save you a world of trouble and preserve your vision for old age, when you begin to rely more and more on book or newspaper for companionship.

**Figurine Cereal**

Looks like coffee

Tastes like coffee

But—there is not a grain of tea coffee in it. Figurine consists wholly of choice California figs and prunes, and sound, well ripened grain, roasted and blended by our special process. Costs as few cents as groceries.

Boil 5 to 10 minutes.

Figurine Cereal Co., San Jose, Cal.

# MISS TOBIN IS BRIDE OF A. J. WELCH.

SAN FRANCISCO, June 24.—A beautiful and impressive wedding was that of Miss Ethel Tobin and Aloysius James Welch, which was celebrated with the most elaborate ritual of the Roman Catholic service at St. Ignace Church at half past 10 this morning.

The church was artistically decorated, roses being used in the greatest profusion in every variety of pink from the deep-hued American Beauties to the faintest blush.

Tall branches of bamboo and potted palms furnished the background, and festoons of asparagus ferns and pink roses were hung among the myriads of twinkling candles.

The altar was banked with St. Joseph lilies and pink roses.

**GOWNED IN WHITE SATIN.**  
Miss Tobin is a beautiful girl, and was an exceptionally handsome bride in an exquisite gown of white Liberty satin.

The shirred skirt had a deep yoke of Duchesse lace and a long train, which was finished with ruchings of tulle and knots of orange blossoms.

The waist, which was shirred, also had a border of Duchesse lace, and was adorned with ruchings of tulle. Her long veil was secured with orange blossoms.

The flowers she carried were pink and white orchids and ferns.

The maid of honor, Miss Alice Deming, who is a distinguished looking girl, wore a shirred gown of pink crepe de chine, trimmed with chiffon of the same shade. Her hat was of pink chiffon, trimmed with pink feathers and roses, and she carried a shower bouquet of pink and white carnations.

**FLOWER GIRLS.**  
The two tiny flower girls, Marie Russell, daughter of Mrs. Eugene Lent, and a niece of the groom, and Gertrude O'Brien, were dressed alike in white acorn-embroidered shifts over pink silk, trimmed with knots of pink baby's hair.

The ring girls were adorned with these roses, and the pink-ribboned staffs they carried were crowned with a bunch of the same tiny roses.

Andrew Welch was the best man, and the ushers were Eugene Lent, William F. Humphreys, A. Buckley and C. Meserovich.

The bride entered on the arm of her brother, Alfred Tobin.

The marriage service was read by Father Kenna of Santa Clara, and the nuptial mass which followed was celebrated by Father Lally.

**BIG RECEPTION.**  
A reception was held at the home of the bride's mother on O'Farrell street to which about a hundred guests were invited. Miss Welch is the daughter of Mrs. Richard Tobin and a charming girl, who is exceedingly popular. She is a graduate of the Sacred Heart convent, and has but recently returned from Paris, where her education was completed.

Mr. Welch is a member of the well-known Welch family here, and graduated not long since from Columbia law college in New York, which profession he is now practicing here.

**JOHN T. GREANY  
IS DEAD.**

ASSISTANT DISTRICT ATTORNEY  
PASSES AWAY ACROSS  
THE BAY.

SAN FRANCISCO, June 24.—After an illness of five weeks' duration, John T. Greany, a past grand president of the Order of Native Sons and Assistant District Attorney of San Francisco for years, died at his residence in this city today.

The deceased was born in this city on June 17, 1860, and lived here all of his life.

**MARTIN WALSH IS  
SERIOUSLY ILL.**

Many residents of this city will be pained to learn that Martin Walsh, who formerly dealt in liquors in this city in the Long Branch, which was situated on Ninth street, between Broadway and Washington streets, is seriously ill at his home, 550 Mission street, San Francisco. For several years past, Mr. Walsh has been a resident of San Francisco. Some weeks ago he underwent a surgical operation and had a tumor removed from one of his shoulders. Yesterday blood poisoning set in and the surgeons in attendance are exercising all their skill to avert serious consequences. Mr. Walsh was a member of the Exemplary Firemen's Association of this city and had a large circle of acquaintances and friends.

**TRAIN IN  
A BAD WRECK.**

CHERRYVALE, Wis., June 24.—St. Louis & San Francisco train No. 3, a fast express running between St. Louis and Wichita, via Monett, Mo., crashed into two loaded coal cars near here early today while running at full speed. The engine and two baggage cars were telescoped together. John McKean, a killed fireman, and several passengers were seriously hurt, and several passengers were killed. The coaches remained on the track.

at your grocer's; housekeeping is easy enough, so far as they go.

# ADVANCE IN THE COST OF LIVING.

SAN FRANCISCO, June 24.—Attorney Moore opened the proceedings of the Arbitration Commission this morning by suggesting that in the future the family retail market report be accepted as evidence in lieu of the oral testimony which has already been introduced.

Mr. Livernash replied that he would not submit to such a proposition.

The market reports are published in only one paper in San Francisco. They are entirely untrustworthy, and the members of the Carman's Union will not abide by them. Consider the offer to have been made in bad faith.

Mr. Moore replied that he would make no reply to the charge of bad faith.

"It takes no difference whether you reply or not," retorted Livernash. Charles Eisenstein, a conductor living at 218 Eighth street was the first witness called. He testified that he is married and the father of a child. During the past year his rent has been raised twice. Originally he paid \$12. Now it is \$15.

**PROVISIONS HAVE GONE UP.**  
"Do you notice any difference in the cost of bread and provisions?"

"I certainly do. Bread has gone up from seven loaves for a quarter to six cents tonight. Meat has also greatly advanced. A roast of lamb that a year ago I could have purchased for 75 cents now costs \$1.25. Milk has doubled in price and the ordinary expenses of life have become so heavy that for the past six months I have not saved a cent."

"Have you expensive habits?"

"No, sir; I am not a drinking man. Occasionally I smoke a 5-cent cigar, but very seldom, as I think the money is needed at home."

"How about the price of clothing?"

"I know little about that, as I cannot afford to purchase any."

Eisenstein was asked concerning his expenses. He says he had at various times accumulated money. At one time he had as much as \$250. That had gone to pay bills accruing from sickness in the family. Before he went to street railroading the witness stated that he had worked as a city drummer in New York City. He left that employment on account of illness. He came to California in order to avail himself of the fine climate. He arrived here about six years ago.

"What wages do you get?" asked Mr. Moore.

The witness replied that his pay amounted to \$2.55 per day. He has lost no time except through illness. During the past year he has worked steadily. He knew little concerning the increased cost of living outside of what his wife had informed him.

**MORE RECEIPTS INTRODUCED.**  
Eisenstein was excused and Mr. Livernash introduced next receipts showing that B. McElroy's rent for the premises at 1215 Twentieth street had within the past year been raised from \$10 to \$15 a month.

A notice of a raise of rent of the premises at 1564 Mission street from \$7 to \$15 a month after the expiration July 15th, was introduced.

**TOASTED EMPEROR.**  
WILLIAM PLEASANT WITH THE  
PROGRESS OF YACHTS-  
MEN.

BERLIN, June 24.—Emperor William was entertained at a banquet on board the Hamburg-American liner Moltke at Cuxhaven yesterday evening by the directors of the Hamburg-American line. The burgomaster of Cuxhaven, Dr. Meenckering, presided.

The Emperor and in so doing, alluded to the organized yachting society which is to make a specialty of building and racing large sized yachts entered by German crews. The burgomaster thanked the Emperor for giving an impulse to his innovation.

The Emperor, in response, expressed his gratification at again spending a day in company with yachtsmen at the Elbe delta and thanked the burgomaster for naming the new harbor after him.

"It is an imposing, splendid establishment," he added, "and what has pleased me most is to hear that it is already too small. May it be ever thus in Hamburg."

**WAS KILLED  
BY THE TRAIN.**

SAN JOSE, June 24.—Rossotti Innocenti, an Italian about 30 years of age, working with a section gang on the Southern Pacific track near Sunnyvale, was killed early this morning by the northbound road gauge train from Los Gatos. He is said to have a brother living in this country somewhere, but was not married. It is stated that he in some way failed to get off the track, though clearly seeing the train. All the other hands stepped aside. He had been from Italy only a few months. The coroner will hold an inquest.

**COSTS MORE  
FOR LIVING.**

SAN FRANCISCO, June 24.—The taking of testimony regarding the increased cost of living was continued today before the carmen's arbitration commission. The testimony of many conductors and motormen was to the effect that it required more money to support a family now than formerly.

**WILL START THE  
TOWN OF EDISON.**

DARTMOUTH, June 24.—Surveyors are at work surveying and laying out a town here at Edison. The site was formerly known as Wade, a small obscure watering station on the line of the Southern Pacific, about seven miles from Kern City.

Upon the advent, however, of the Edison Power Development Company in the canyon, about ten miles from Edison, the place suddenly came into prominence, as the company found it a con-

# THEY ALL SAY SO

NOT ONLY IN OAKLAND, BUT IN EVERY CITY AND TOWN IN THE UNION.

If the reader took the time and trouble to ask his fellow residents of Oakland the simple question given below, he would obtain the one answer. If he would read the statements now being published in Oakland, which refer to this answer, it would surprise him to note that they number so many. As many more could be and may be published, but in the meantime ask the first person you meet what cures backache? The answer will be Doan's Kidney Pills. Here is a citizen who endorses our claim.

C. T. Warren, house painter, paper hanger, etc., of 2008 Eighth street, Berkeley, says: "Like the majority of men who follow my calling I have been annoyed with my back and kidneys for years. I think if the primary cause of backache in painters is not the fumes of the ingredients they use they certainly aggravate such annoyance when they exist. The painter requires a good round back and when it aches and pains he is often in misery. Other complications of the stomach existed when I went to a drug store for Doan's Kidney Pills and I scarcely expected the remedy would help my back. Much to my surprise and more to my gratification after I had taken two boxes the backache ceased."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

venient location for establishing its warehouse, which was used for storing machinery and supplies.

About forty acres of land belonging to the A. N. Towne estate and lying principally on the north side of the track, is being subdivided and laid out into streets and will soon be placed upon the market.

**SIR THOMAS HERE.**  
LIPTON AND J. P. MORGAN ARRIVE FROM ENGLAND.

NEW YORK, June 24.—The White Star liner Oceanic, from Liverpool, was reported at 1:30 a. m., from Nantucket. Aboard are Sir Thomas Lipton and J. P. Morgan. The vessel is expected at her dock at 6 o'clock today.

When the Oceanic was reported, Sir Thomas' steam yacht Ebn, conveyed by the ocean tug Cruiser, which was sent across with the Shamrock, started down the bay. Ex-Commodore Smith's yacht, the Privateer, which has been the regatta committee's boat at all the races of the 90-footers thus far, held under the New Yacht Club auspices, also started out to greet Sir Thomas.

On the Privateer was Adjutant General Corbin, who will welcome Sir Thomas on behalf of President Roosevelt. General Corbin bears an invitation to Sir Thomas to take luncheon at the White House Friday.

**MEAN ACT OF  
AN ENEMY.**

STOCKTON, June 24.—An extraordinary piece of vandalism was perpetrated last night in the lathery of Lewis and Johnson of this city. A pair of shares scorpions cut great gashes in between 20 and 40 suits of clothes and much cloth laid out for suits. The damage amounts to about \$1000. Suspicion is directed against a tailor who got into trouble with the firm last week by drawing money for a piece of work and then disposing of it to another tailor for a similar sum. Revenge for threatened prosecution is regarded as the motive.

**RUSSIAN ANARCHISTS.**

PARIS, June 24.—Two Russian anarchists, Prince Victor Nakachidse and his wife, whose expulsion from France had been decreed, were arrested today at Thon-On-Les-Bains-Hauts-Savoie. They will be escorted to the frontier.

# PLEASANTON GIRL MARRIES

MRS. C. SVANE OF PLEASANTON.

PLEASANTON, June 25.—Miss Lena Rasmussen of Pleasanton and C. Svane of San Francisco were married at noon yesterday, at the residence of the bride's parents. Mrs. Svane was born in this valley and is a prominent member of Verona Parlor, N. D. G. W. of his place. Miss Ella Rasmussen, a sister of the bride, was maid of honor, and Sam Miller of San Francisco acted as best man. The young couple will reside in San Francisco, after a short honeymoon trip through the Southern part of the State.

# WILLIAM GIVES RICHARD HOTALING WILL SPIEL IN HAND. CAUSE OF CHARITY

HE IS SHOWN OVER THE AMERICAN SHIP KEAR- SARGE.

KIEL, June 25.—"I shall telegraph the President today, says, telling him in what perfect condition I have found your ships," said Emperor William, in parting with Admiral Cotton on board the Kearsarge today, after he had spent an hour and a half looking over the battleship as thoroughly as any naval inspector could have done, working the turrets, examining the quarters of the men, looking at the food in the galley and talking familiarly with some of the able seamen.

The Emperor came alongside the starboard quarter of the Kearsarge, steering his own barge and attended by Captain Von Gumm, while up the port gangway came Admiralty Secretary Von Tirpitz, Admiral Von Senden-Brian, General Von Plessen and Count Von Eulenburg. Admiral Cotton and his staff, Captain Hemphill, all the other American commanders and all the officers of the ship, except the midshipmen, who were at quarters, received the Emperor on the quarter deck.

"I am happy to welcome your Majesty on an American ship," said Admiral Cotton, "and I wish that I were receiving you on American soil."

"I am very happy to be here," the Emperor replied.

He then shook hands with all the captains whom he met yesterday, calling them by name, and with all the juniors, who were presented in turn.

"Now, Captain," the Emperor said to Captain Hemphill, "I want to see your ship."

Captain Hemphill thereupon led the way with the Emperor, Admiral Cotton following, accompanying the members of his Majesty's suite.

RICHARD M. HOTALING.

## DAMAGE SUIT NEARING END.

The trial of the case of Rosie James against the Oakland Transit Consolidated for \$50,000 damages is still in progress before Judge Melvin and a jury. A large number of witnesses have been examined in regard to the occurrences that led up to the accident, and it is expected that tomorrow will see the end of the trial. On behalf of the plaintiff it has been attempted to show that the girl was thrown from the front platform through the sudden jolting of the car, owing to its high rate of speed and an irregularity in the track. The defense has endeavored to show that the fault of the accident was with the girl herself. Her face is terribly scarred, besides which she suffered other injuries.

This evening will be a royal night at the Social Settlement Booth at the Oakland Street Fair and Carnival. Richard M. Hotaling, club man, Bohemian, will, one of the jolliest fellows in all the State, will be the spicer. The Royal Italian Marionettes, which are giving performances in the booth, will be the attraction. There will be no end of fun. Mr. Hotaling will do the stunt in a unique and stunning costume, which he has prepared for the occasion.

Mr. Hotaling is one of San Francisco's rich young men and he is always doing for charity, but tonight he promises to outdo himself. Hundreds of his friends are going to line up at the booth to hear him spiel, while attired in his gorgeous clothes of many colors.

The Social Settlement Booth tonight is to be in charge of Mrs. Lucie May Hayes. It was through her efforts that Mr. Hotaling's services as spicer were secured for the show this evening. Mrs. Hayes will be assisted at the booth by Miss Ethel Moore, Miss Jacqueline Moore, Miss Emma Weisman, Miss Annie Seashans and Miss Viola Piercy.

The Royal Marionettes will be the thing to go and see this evening. The Social Settlement is a worthy charity and every dime invested there will be well spent.

(Thursday, June 25, 1903.)

## Garments for Wilting Weather Prices for Wilted Purse

WE have garments which will make these wilting days comfortable; waists and skirts and frocks cool and refreshing to the eye, cool and refreshing to the wearer. And the prices are of the kind to make the heart glad and give a prosperous look to the purse, no matter how flattened and wilted.

### Wilting Weather Waists

Waist of white lawn with embroidered front and cluster tucked back—has turn-over collar and cuffs of embroidery—a very pretty garment.

Worth \$1.75—price \$1.40

A dressy waist comes in white lawn, the front, cuffs, and shoulders of which are trimmed with wide bands of fine apple embroidery. The back and yoke is cluster tucked and the stock is elaborate.

Reduced from \$2.75 to \$2.00

One of the fashion-favored India silk waists has also been put out. Its back is cluster tucked, the front and cuffs embroidered in black silk and the stock hemstitched.

Reduced from \$6.00 to \$4.50

Here, too, is a blouse of white butcher's linen. Its cuffs and collar are hemstitched and its front tucked and hemstitched. The yoke is of fine Mexican drawn work. This waist has been

Reduced from \$7.50 to \$5.00

### Wilting Weather Suits

Linen batiste is the material used in a cool shirt-waist suit. The sailor blouse has collar and shield of tucked white lawn, which may be taken out. The sailor collar and the skirt are trimmed with white lawn bands, three of which outline the flounce.

It's price is \$4.00

Then there is a frock of white pique. The blouse tucked from yoke to waist, and the front, collar and cuffs trimmed with bands and straps of embroidery. The five-gored skirt is skirted and elaborately trimmed with embroidered bands.

The price is only \$4.00

### Wilting Weather Skirts

Five-gored skirt of white pique—has lapped seams and two stitched bands, which form flounce.

Specially priced at \$1.25

A very smartly cut skirt is to be had in dotted white duck. It has five gores. Its bias folds form a yoke and its outline the deep flounce.

The price is but \$2.25

A very novel and pleasing effect is produced in a linen crash skirt by tucking it all over from waist to hem. This flounce is headed with a bias fold. The price of this style-giving skirt is

Only \$2.75

### Wilting Weather Kimonos

Dainty and cool-looking is this short kimono of flowered lawn, trimmed with bands of the same material.

The price—60 cents

A long kimono of the same material, trimmed in the same manner

Sells for \$1.00

### Wilting Weather Frock

(Ages 6-14)

The yoke of this little white lawn frock is tucked and feather-stitched, and edged with a deep ruffle. Its belt is tucked, a cluster of tucks top the skirt's hem. The sleeve is full and cuff dainty.

It's a \$3.00 value for \$2.00

\$1.00 each

## HE WORKS TO MAKE THE FAIR WATER BILLS TO BE CONSIDERED A SUCCESS.

JUDGE A. F. ST. SURE.

Judge A. F. St. Sure of Alameda is one of the earnest workers for the Oakland Street Fair and Carnival, and has done much as a member of the press committee. Judge St. Sure was formerly a newspaper man, though he is now a practicing attorney, and his reign in journalism, together with his many friends in the profession of gathering news, made him particularly well fitted for working upon this committee. Judge St. Sure is a member of Oakland Lodge of Elks, and has taken a prominent part in the work of that organization. Though Judge St. Sure is practicing law in San Francisco, he still lives in Alameda, where he is one of the leaders in politics.

## APPOINT BISHOPS THE HOUSE KILLS FOR AMERICA, BILL.

EPISCOPAL ANNOUNCEMENTS ARE SENT OUT FROM ROME.

ROME, June 25.—The Episcopal announcements for America were: Right Rev. George Montgomery, Bishop of Los Angeles, to assume the position of Coadjutor Archbishop of San Francisco; Most Rev. John M. Farley, as Archbishop of New York; Most Rev. James E. Quigley, as Archbishop of Chicago; Right Rev. Henry Moeller, Bishop of Columbus, O.; Coadjutor Archbishop of Cincinnati; Rev. Bertrand Orth, Bishop of Victoria, B. C., as Archbishop of Vancouver; Right Rev. Thomas J. Conaty, as Bishop of Monterey, Cal.; Right Rev. P. J. Rucker, as Bishop of Jarrow, Philippines Islands; Right Rev. Dennis J. Dougherty, as Bishop of Neuva Segovia, Philippines Islands; Right Rev. Charles H. Colton, as Bishop of Buffalo, N. Y.; Right Rev. James Kean, as Bishop of Leids, S. D.; Right Rev. C. J. O'Reilly, as Bishop of Baker City, Ore.; Right Rev. F. Regis Canavin, as Coadjutor Bishop of Pittsburgh; and Right Rev. John J. Glennon, as Coadjutor Archbishop of St. Louis, Mo.

SPARMAN IS ARRIGHIED. Art Sparman, the assailant of Charles Brennan, a reporter, was in the Police Court this morning for arraignment on a charge of an assault with a deadly weapon. His examination was set for July 2.

MEASURE TO APPROPRIATE MONEY TO REPAIR BRIDGES IS DEFEATED.

TOPEKA, Kan., June 25.—The House today killed a bill by Representative Waggoner appropriating one million dollars out of the State treasury to repair and construct the bridges along the Kaw river damaged or destroyed by the recent flood. Mr. Waggoner, in support of his bill, said that by putting the burden of re-construction upon the State the several counties could afford to provide for the poor families made homeless by the flood. Better this, he said than to have it go out over the country that Kansas refuses to take care of her sufferers. He said that the State's credit and moral standing would be impaired and the character of her people lowered if they continued to beg alms from abroad.

At 2 o'clock no bill had been passed for the relief of the flood sufferers and none seemed in sight. Special bridge legislation alone has been the work of the day, scores of such bills being introduced in both houses. It now seems that the members will pass a bill allowing themselves pay and mileage for the term.

## CITY AUDITOR AND BOARD OF WORKS WILL MEET THIS AFTERNOON.

Mayor Warren Olney has returned to his duties after a vacation in Mendocino County and his first official act today was to call a special meeting of the Board of Public Works and the Board of Police and Fire Commissioners for this afternoon at 5 o'clock for the purpose of taking action relative to the claims of the Contra Costa Water Company against the city which have been judged fair by the Supreme Court.

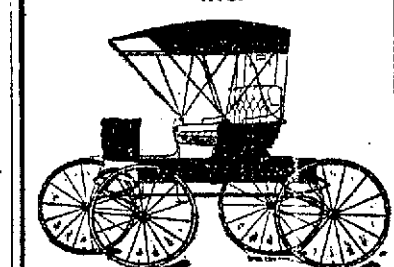

City Auditor Breed will also be present at the meetings of the board. Pending the settlement of the Water Company, the Board of Public Works passed the water bills and the same were always held up by the Auditor and then returned to the board, so that it remains for the boards to pass the bills again before Auditor Breed can draw the warrants on the city treasury.

CLOUDBURST AT TOPEKA. TOPEKA, Kan., June 25.—A rain so tremendous in volume that it was practically a cloudburst fell over Topeka about midnight last night. A number of residents in South Topeka were compelled to leave their homes and flee to higher ground, while a few of the smaller houses were washed from their foundations. Solder creek, which was such a factor in destroying North Topeka recently, came up with a rush and is today flowing over Kansas avenue bridge. The Kaw is also rising.

## WITNESS IS MISSING.

Thomas White, who is charged by H. G. Walker with battery, was on trial in the Police Court this morning, but before the examination had proceeded far H. Johnson, a witness, failed to answer to his name when called and the trial was continued until June 30, and an attachment issued for the missing witness.

## Kiel & Evans COMPANY INC.

High Grade Vehicles

Harness, Whips Robes, Blankets

PRICES ALWAYS RIGHT

224-26-28 San Pablo Ave. OAKLAND

## ANOTHER LARGE MANUFACTURING PLANT FOR OAKLAND

If you will consult your best interests you will heed what we say: it will be a lifetime SOURCE OF WEALTH to you and yours. LARGE DIVIDENDS will surely be earned and paid in the near future.

BECAUSE THE FREDERICK IMPROVED PAINT AND PAVEMENT CO.

Is organized and will soon be ready for business as contractors for paving city streets, under its new patented process, with the best pavement ever laid—the most durable, hence the cheapest, and the most satisfactory in every possible way. The people will rejoice to see us at work, which will happen without much delay.

We have successfully demonstrated our claims to having the best pavement on earth by the sample we have put down of 1000 square feet on San Pablo avenue, opposite the City Hall. Go see it and be convinced. We will have our own MOUNTAIN OF BITUMINOUS ROCK, RICH IN ASPHALT, close to railroad and to deep water wharf; cheap transportation will be in our favor. The governmental special reports say it is the largest and best deposit in the United States. Marsden Manson in his report says there is not much doubt but that that tract contains immense quantities of oil. How easy to pipe it to a vessel only four miles away! But the paving material is good enough of itself.

AND NOW, FOR GOODNESS SAKE, SEE HERE! SEE HERE!

We are also the sole proprietors of the justly celebrated FREDERICK WATER PROOF AND RUST PROOF PAINT. We can very soon manufacture it cheaper than any other so-called good paint, and it will show none of the defects of all other makes. It has all the good points of the best of all the others. It is the best for all purposes to which paint is adapted, from a car or coach to the hull of a steamship—the best house and roof paint in the world. It is a secret preparation; it has been used for years; much of its work is to be seen in Oakland and San Francisco, and speaks for itself; enthusiastic and unqualified testimonials in abundance are in our possession, and we will show them to you.

DON'T FORGET, BUT REMEMBER, that this paint, THE FREDERICK PAINT, which we own and will manufacture in immense quantities, will command a WORLD'S PATRONAGE.

AND WHY? BECAUSE it is elastic; it will not blister, it will not crack, scale, curl, chalk or be guilty of any inferior quality. But most of all, it is the ONLY PAINT THAT SUCCESSFULLY RESISTS THE RAVAGES OF THE TERREDO WORM, which eats its way under salt water almost worthless in a short time. Experiments lasting months have proved our claim.

It is not only water and rust-proof when applied to the hulls of all sorts of ocean vessels, but it is thoroughly proven that NO BARNACLES WILL ATTACH THEMSELVES AND ADHERE TO EITHER IRON OR WOODEN HULLS that have been painted with FREDERICK PAINT. IT IS THE ONLY PAINT THAT WILL ACCOMPLISH SUCH A DESIRABLE RESULT.

NOW, YOU PRACTICAL INVESTORS, we are going to ask you to USE YOUR COMMON SENSE, and invest your money in any sum to suit you. This company is GOING TO—we said IS GOING TO—raise \$200,000, to \$5,000 in the next two to five days. We will not fail to do so, because "our cause is just and conquer we must." We have got a special use for it, and it will be invested in good realty that we must and will have for the use of the company. For this purpose only we will let you in on the "ground-floor" and for a short time only we will sell the company's stock at the very low rate of 25 cents per share.

ONLY 25 CENTS PER SHARE. Our success will be so assured that IT WILL BE ADVANCED TO PROBABLY 50 CENTS, or thereabouts, by August 1, if not before. Within twelve months the stock will be worth \$1.00 or more per share by reason of our great volume of business and the large dividends that will be earned. The stock will eventually go far above par. BUY IN TIME. We will withdraw it from the market when we get fairly started. Buy at once. "We do this quickly we WANT GOOD SALES AGENTS."

The following are a few of the principal parties in this company, viz: G. L. Curtis, Oakland; Rev. Thomas S. Wallis, San Francisco; C. F. Marshall, East Oakland; W. R. Frederick, San Francisco; A. H. Bush, San Francisco; Geo. H. Griffith, Oakland; C. G. Hardy, books, etc., Oakland; A. J. Kim, Oakland. Office at 10, 1220 Thirteenth avenue, East Oakland, Cal.

## An Opportunity Rarely Afforded

WHY NOT TAKE ADVANTAGE OF THESE LOW RATES

To Visit the East

JUNE 24TH TO 30TH \$93.50 to Boston and Return

JUNE 24TH TO 30TH \$96.50 to Boston and Return

via New York City, with long stop-over privilege.

Liberal return limit—stop-overs also at Niagara Falls and Chautauqua Lake.

The Erie Railroad offers you the very best of service at the very low cost. The most picturesque route in the East—a delightful panorama of river and mountain. Even the joy of the train from Chicago to New York protected by the safety block signal system.

For full information, apply to A. C. HILTON, Pacific Coast Passenger Agent, Erie Railroad, 330 MARKET ST., SAN FRANCISCO.

# CALIFORNIA CO-OP. MEDICAL CO.

In Their New and Elegant Quarters at 906 BROADWAY, OAKLAND, CAL.

DR. JOHN L. KELLETT,  
President, Founder, and General Manager.

## IMPORTANT!

The California Co-Op. Medical Co. is no **get-rich quick** concern, but is just the opposite. This Company is opposed to a few favored persons getting rich to the injury of the many. You could not get rich in the California Co-Op. Medical Company if you wanted to. But the Company does pay you on an average of ten per cent per month on every dollar you invest in it, more than other institutions pay you in two years. Also furnish you and your family medical treatment and all medicines absolutely free of any cost as long as you live. Business man, laboring man it will pay you to investigate our plan.

Take Elevator

## If God is Love, Why Not Have More of It on Earth

### The California Co-Operative Medical Co.

Will spare neither time nor money in teaching the people at large the great, inestimable benefits which come to each and every member of its System, which is based on the fundamental principles laid down in the Declaration of Independence and the Constitution of the United States of America which constitute in fact the By-Laws of the Company, and are protected by the Stars and Stripes, the Flag of the Brave, and will be the cause of the reform of the Government, and force it to adopt the real principle of equal rights to all, and special privileges to none. All members derive at the office, (Sanitariums, or Hospitals, as their benefits in the way of medicines for themselves and little ones, also they are entitled to their dividends as long as they live, and the profits arising from any other business in which the capital stock may be from time to time invested.

The CALIFORNIA CO-OPERATIVE MEDICAL COMPANY was organized at Eureka, Cal., on January 4th, 1902, with nine (9) charter members, and to make it self sustaining, Dr. JOHN L. KELLETT placed the value of his Trademarks and formulas, of the two great and wonderful remedies, "OIL of EDEN," and "SWEET SPIRITS of EDEN," at \$1,000,000, divided into 50,000 shares, of \$20 each. All treasury stock is to be used to build up the Company's business, until the last share is sold.

One person can own but one share in his or her own name. They may take out one share for each and every one of their children, even if there are two dozen children in the family. Parents may draw dividends on their children's share, so long as the latter are under age. But if a child takes out a share, independent of the parent then the dividend can only be drawn at the child's request. All persons of age, or children male or female, who have purchased a share of their own, and want their dividends paid to other persons, must each month renew their order, or as often as they may want their dividends drawn. This we do, to know if our members are still living, as all shares expire when life expires, and merge thereafter into the Company to strengthen it. However, if any dividends are due members at the time of their death, their surviving relatives and loved ones may draw same, if they have a regular legal notice, properly made out, to the effect, that said member or members are dead.

Money invested in this Company is as safe, if not safer than in Government bonds of the United States of America. Why is this so? Because the class of graduated knaves who worship the god of money, which is created by the evil spirit of man, can not control it, while it abides by the divine laws of our universe.

#### THE CALIFORNIA CO-OPERATIVE MEDICAL COMPANY

has over one thousand members who are of the progressive, thinking, and labor producing people, who fight for life's constant source. When the Company was organized, the shares sold for twenty dollars each, and when the Divine and Progressive Spirit of the members gradually became known, the price of shares advanced to twenty-five dollars, on July 1st, 1902, and by January the first, 1903, they had over 500 members, and shares jumped to \$30 each. Now they have more than one thousand members, and what will the increase of shares be next? Do not complain if you have to pay more than \$30 after July the first, 1903.

The following dividends have been declared in the last seventeen months: 1902—Jan. \$2; Feb. \$2.50; March \$2.50; April \$3.25; May \$3.40; June, \$3.50; July, \$3.60; August \$3.75; Sept. \$3.80; Oct. \$3.90; Nov. \$4.00; December \$3.00; 1903—Jan. \$2.75; Mar. \$3.00; April \$3.10; May \$3.00.

Now you ask the question, "How can the company afford to pay such enormous dividends?" We answer: "Suppose we sell one bottle of our Remedies to each of one million stores in the United States, then the monthly dividend to each member, even if we had 50,000 members, would be \$20. Then why can't we pay a monthly dividend of \$3.00 now, when our Remedies are being sold throughout the entire Western States?"

These dividends are paid out of the fast increasing income gained from the sale of KELLETT'S "OIL of EDEN," and "SWEET SPIRITS of EDEN," which have proven their marvelous virtue as being the most wonderful, effective, and valuable compounds known, for the cure of Rheumatism, Kidney, Stomach and Nervous Troubles. OIL of EDEN relaxes and opens the pores of the skin, dissolves and removes all corrupt and impure matter from which disease and pain of the external system are created. SWEET SPIRITS of EDEN acts on the Liver, Kidneys, Stomach, and Bowels, by strengthening the nerves through the circulation of the blood, which governs the whole system. Besides this, the Company employs the best of Eminent Physicians, who do not have to practice and experiment on a person in order to effect a cure, and you are not charged for examination and consultation.

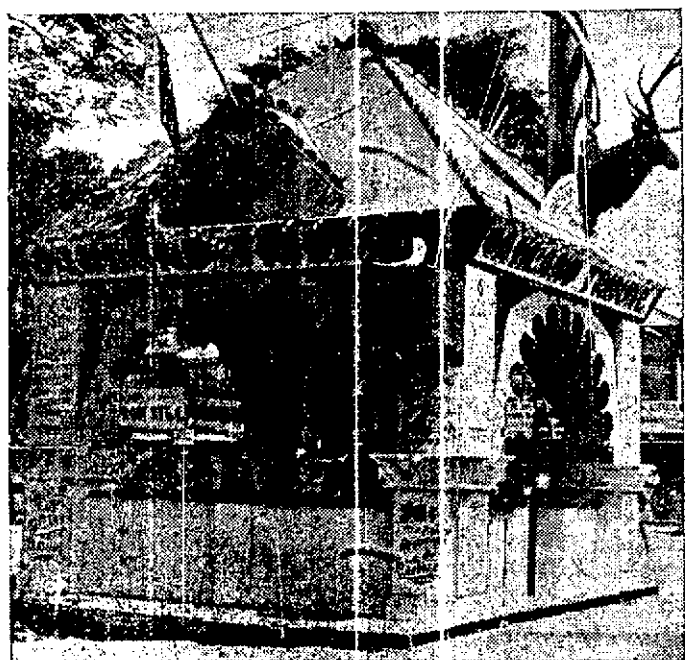

All diseases are curable, or CHRIST'S doctrines and the Bible are false. There is more real agony caused by diseases of the last six inches of the bowels, known as the rectum, than in any other part of the body, and by sympathy and reflex action they cause pain and suffering in other organs, such as the kidneys, bladder, womb, liver, etc., and these diseases, can only be cured by removing the cause, which is in the rectum. You can get valuable information, by calling on, or sending your address to the California Co-Operative Medical Co.'s offices.

906 BROADWAY, Corner Eighth Street, OAKLAND, CAL., or 227 E Street, Eureka, Cal.

## THEIR METHOD

Is purely Co-Operative. They do not hoard up money to serve as a corruption fund, but pay it to members in the way of monthly dividends and expenses. In case any five members of the Company desire to have any law of the Company changed, or should wish to investigate the books and affairs of the Company, they have the right to appeal to the members of the Company, and by decision of a majority of its members, get their wish. In other words, the Company practices the principle of the Initiative and Referendum, pure and simple. It takes the majority to rule with this Company.

## TRIBUNE'S HANDSOME BOOTH AT THE FAIR.

THE TRIBUNE'S BOOTH.

One of the most popular and up-to-date booths in the great Oakland Street Fair and Carnival is that of THE OAKLAND TRIBUNE, which is situated immediately east of the plaza and in the immediate vicinity of the Country Store, the unique exhibit of the Oakland Gas, Light and Heat Company and the abode in which the wireless telegraph instruments of the Marconi and Edison are located. The headquarters is in the very heart of the fair and share with all the other leading features, the attention and appreciation of the multitude. In design and

## Woman's Nature

Is to love children, and no home can be completely happy without them, yet the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread.

Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free. THE BRADFIELD REGULATOR CO., Atlanta, Ga.

## Mother's Friend

execution, the booth is elaborate and artistic. It is opened on four sides, each opening being surmounted by a Gothic arch which rises from clustered and fluted columns at each corner. Each column being surmounted with a fluted capital of plaster. On all sides, in large letters, the word "TRIBUNE" blazes forth in letters formed by large electric bulbs.

The panels and arches are blazoned with legends setting forth the great news and circulation feature of THE TRIBUNE among them being the fact of the unrivaled manner in which this paper covers all the happenings of the city of Oakland, of all the incorporated and unincorporated towns of Alameda county, as also the news of the world, the latter through the exclusive agency, in this county, of the Associated Press, an agency which can be employed only by first-class papers throughout the country. THE TRIBUNE is the only newspaper in Alameda county which enjoys this service, a fact which is well known to the readers of the county who want to be able to read at evening, sixteen and sometimes twenty-four hours ahead of time, all the news of the day that has closed.

In the booth are exhibited metallic plates from which the great editions of THE TRIBUNE are printed. The manner in which these plates are made, how they are utilized on the press and the marvelous accomplishment of the press itself are told by the courteous attendants.

There are besides, displays of immense volumes of heavily and artistically-bound books, such as are used in public offices, banks, commercial houses and other places in which there is a great volume of business transacted. These are the product of THE OAKLAND TRIBUNE'S book bindery. They are marvels of the highest grade of workmanship and attract the attention of hundreds of passersby.

### CHANCE FOR YOUNG UNMARRIED CO-EDS.

BERKELEY, June 25.—The President and Faculty of Wellesley College announce that the Trustees of Wellesley College have lately received the sum of \$35,000 to endow the Alice Freeman Palmer Fellowship.

The holder of the Fellowship must be a graduate of Wellesley or some other American college of approved standing, a young woman of good health, not more than twenty years of age at the time of appointment, unmarried throughout the whole of her tenure, and as free as possible from other responsibilities. The same person will not be eligible to the Fellowship for more than two years. The Fellowship may be used for study abroad, for study at any American college or university, or privately for independent research. But several times during the period of tenure evidence must be furnished that the Fellowship is being used for the purposes of serious study and not for general culture.

In accordance with these provisions, the President and Faculty of Wellesley College request nominations for this Fellowship not later than February 1, 1904. Further details as to application for the Fellowship may be obtained of the President of Wellesley College, at Wellesley, Massachusetts, after October 1, 1903.

DIES IN FOREIGN LAND. ST. PETERSBURG, June 25.—Joseph Petersen, an engineer of Milwaukee, died here today of smallpox.

## LAW BEGINS ITS DEDICATION OF COURSE. STATUE.

WITH WALKIREZ IN ITS GRASP IT CARRIES HIM TOWARD THE GALLOWS.

Murderer Walkirez was formally charged this morning by the District Attorney with the murder of aged Mrs. Leroy, and the following information was filed against him:

"In the Superior Court of the County of Alameda, State of California, the 5th day of June, A. D. 1903: Victor E. L. Walkirez, alias Victor Walkirez, is accused by the District Attorney of the County of Alameda, by this information of the crime of murder committed as follows: "The said Victor E. L. Walkirez, alias Victor Walkirez, on the 5th day of May, A. D. 1903, and prior to the time of the filing of this information at the said County of Alameda, State of California, did unlawfully, feloniously, wilfully and of his malice aforethought, kill and murder one Elizabeth Leroy, a human being. "And all of the acts of the said Victor E. L. Walkirez, alias Victor Walkirez, in the premises were and are contrary to the form, force and effect of the statute in such case made and provided and against the peace and dignity of the people of the State of California."

Walkirez will be arraigned tomorrow morning and will probably enter the plea of "not guilty," as he has employed a lawyer to defend him in an effort to save his neck from the noose. While admitting that he is guilty, he has an objection to being hanged. A whole life in a prison cell is preferable he says to that ghastly break at the end of the rope, and all that he imagines may be done for him, and he is willing that that day should be put off as far as possible.

### SPIDER WILL GO WITH MORNING GLORY.

BERKELEY, June 25.—A scheme to kill off the red spider that has proved such a serious loss to the hop raisers of Sutter and Glen Counties has been hit upon by E. B. Volck, a student assistant in the department of agriculture of the University of California. Volck returned this morning from Sutter City and Wheatland where he has been studying the pest. He has found that the red spider makes his winter quarters on the morning glory vine, and an effort will be made to exterminate all such vines next winter and with them the spider. Simple as the scheme is, it will probably prove effective, which will mean a saving of many thousands of dollars to the farmers of that part of the State.

CO-OPERATIVE HOME. Mrs. E. S. Stone will be the principal speaker at the Co-Operative Home, 622 East Twelfth street, this evening. Mr. Johnson will also be present and will make a few remarks demonstrating his theory that "Who Talks May Sing."

EQUESTRIAN MONUMENT OF GEN. JOSEPH HOOKER UNVEILED AT BOSTON.

BOSTON, June 25.—The equestrian statue of General Joseph Hooker, erected on the State grounds, was dedicated today. Preceding the unveiling, a great parade was held, in which scores of the most distinguished military men of America participated, together with regular army, cavalry and infantry, marines and bluejackets from the coast division of the North Atlantic squadron, State militia, veterans who served with Hooker, members of the Massachusetts Department, G. A. R., veterans of the Spanish War and the Boston School Regiment.

Governor Bates occupied his place as commander of the military forces of the State, while in the line were Lieutenant General Miles, General Wesley Merritt, General John R. Brooke, General O. O. Howard, General Daniel Sickles, General Alexander S. Webb, U. S. A., and General Joshua L. Chamberlain.

The State and city departments suspended business, many firms closing their stores, and the day was a general holiday. The unveiling ceremonies were brief, opening with a benediction by Rev. Dr. Arthur W. Little of Dorchester, who was a chaplain in the Union army. Lieutenant Governor Guild, in behalf of the committee of the executive council, turned over the memorial to the State.

Master Joseph Hooker Wood, grand nephew of General Hooker, pulled the cord which released the veil and as the curtain fell, Battery A., stationed on the common, fired a Major General's salute of thirteen guns. Governor Bates accepted the custody of the statue for the commonwealth. The formal dedicatory exercises will be held this evening.

### PUBLIC INVITED TO INSPECT THEM

MENTAL KINKS OF CRIMINALS

The kinks in the moral nature of criminals are often accompanied by a reasoning equally faulty. This is illustrated by their propensity to take the view that they are wholly or in part exculpated of a crime if they can prove or make the public believe others are as guilty as themselves. Another idiosyncrasy of criminals is the theory that if one participant in a crime manages to evade punishment the others caught also to escape penalties. Many people who are not criminals are addicted to this vicious sophistry, which all prosecutors understand to be one of the greatest stumbling blocks to justice. The characteristic weakness of criminals is shown by the readiness with which they fall into the habit of self-pity. An abandoned wretch who has violated every commandment in the Decalogue weeps over his wretched fate when punishment for his crimes becomes threateningly imminent, and he finds many excuses to give in extenuation of what he has done; he tries to lay the blame on others, or claims that he was persuaded or tempted by his own vices.

This mental peculiarity of criminals has caused many alienists to diagnose crime as a disease. It is only a moral infection, however. Some crimes are committed by strong natures who are morally dwarfed or malformed, but the great majority of criminals are weak natures who satisfy the desires of the moment by the quickest means at hand. These are usually criminals. One desires to get hold of the money of another person and criminals commit murder to obtain it. Although the murderer swallows up the villainy of theft, the murderer reasons that the killing was a mere incident of stealing, and if the amount realized be small, he argues that the punishment should be light because the theft was only petit larceny.

Thus the criminal reasons that his crime is divided as often as he can get accomplices to share it with him, and is measured in turpitude by the profit reaped from it. Oddly enough attorneys take up this form of reasoning in appeals to juries. When more than one person is implicated in a crime, it is artfully represented that the one not on trial seduced the criminal at bar to commit the deed, and the more savage and wanton a murder is that fact will be a pretext for urging that the perpetrator is of unsound mind, it being assumed that a sane person would not commit so hideous and ghastly a deed. Whether the criminal lawyer borrows this mental method from his client or the criminal borrows it from his attorney, the fact is both reason along certain lines that invest every principle of law and logic as well as the doctrine of moral responsibility.

NATIONAL CONVENTIONS AT PRIVATE EXPENSE.

San Francisco has an ambition to be a convention city.

The passenger agents of the transcontinental railroads attend the national convention or convocation of social, fraternal or religious societies for the purpose of persuading them to hold their next or the year after next convention, convocation, conference or camp in the City of San Francisco. In this work of persuasion, they are equipped with pictures of the big trees and more especially that historical "chestnut" tree with a coach and six horses driving through it.

A resolution having been duly passed by the national convocation, association, convention, or conference to hold the next "camp fire" in San Francisco, the passenger agents return home at once and secure the appointment of a "Finance Committee" and begin a canvass for the purpose of raising money "to maintain California's reputation for hospitality."

Then the same old grind begins. The merchant's feeling toward the Committee, announced in his anteroom, is akin to that which would accompany the announcement of burglars in the same quarter, except that the merchant receives the announcement more in disgust than fear.

The threadbare apologies for withholding subscriptions are employed, but the "Finance Committee," under the direction of an "efficient chairman" prods the Committee on, browbeats and bullies everybody who refuses to subscribe and finally wrings from the clenched fists of the community, some thirty or forty thousand dollars, with which to make a showing of hospitality on behalf of the City and at the same time enjoy a triumph of personal vanity and self-satisfied egotism on the part of the Committees in charge. The question as to whether the street railroads, the hotels, the restaurants and the theatres have contributed their fair share to the cost of the entertainment is thrashed over, and the net result is that a few public-spirited, liberal individuals, corporations and institutions put up all the money, and the selfish and miserly individuals, corporations and institutions reap the benefit of this expenditure on the part of their more liberal neighbors, and find heightened enjoyment in the re-

section that their share of the profit came to them without the investment of a dollar.

If San Francisco or any other city has an ambition to become a convention city, the subscription method to raise funds to meet the necessary expenditures will have to be abandoned either wholly or in part. The holding of a great convention in a city confers a general benefit upon all the people residing there. It brings money to the municipality and re-enforces its available capital. It confers more benefit on some classes than others, but if the restaurants, hotels, etc., make money, the presence of that money in the community gives every individual an opportunity of eventually obtaining some of it. The expenditure necessary to attract conventions is as distinctly public in its nature as the construction of a City Hall and the maintenance of parks and public squares, or any other legitimate municipal expenditure and the expense should be borne out of a common treasury.

It is within the bounds of reasonable probability that during the coming annual encampment of the Grand Army of the Republic, the United Railroads of San Francisco will earn at least one hundred thousand dollars in excess of the normal income of the railroad; if 5000 veterans of the Grand Army attend the transcontinental railroads will receive anywhere from five to seven millions of dollars for train fare, sleeping accommodations and dining car service; the city restaurants, cigar stands, hotels and theatres will all reap a harvest, and yet the United Railroads will not contribute two percent of their additional earnings to sustain the hospitalities of the occasion. Generosity becomes discouraged when it is altogether too apparent that it is feeding the selfishness and ingratitude of its neighbors.

If a municipality is ambitious to become a convention city, it ought to go into the business in a business-like way and force all property owners to contribute by appropriating public funds, and in this way reach the shirkers by the process of taxation.

WHERE THE BLAME LIES.

The shocking calamity on the North Shore road is lamentable in more aspects than one. Grief for the killed and sympathy for the injured are the natural consequences of such melancholy catastrophes, which are frequently accompanied by feelings of indignation against the railroad company. When an accident of this kind occurs, people instinctively blame the managers of the road, often without making very diligent inquiry into the facts; and it is too frequent the case that the railway officials are blame-worthy for negligence or for trying to economize too closely.

But in this instance the North Shore company seems entitled to sympathy. The disaster will be an expensive one to the corporation, and is something for which it can hardly be held morally responsible. The present owners of the North Shore came into possession of the road when it was a mere ghost of a railway. It had been permitted to run down till it was nothing but a thing of shreds and patches—everything was in a state of decay and disrepair. Ties, bridges and culverts were rapidly rotting away; the rails were mere streaks of rust and the equipment obsolete patchwork. How the road ran so long in this condition without a serious accident is a mystery.

When the present management took possession, vigorous efforts were immediately instituted to renovate and improve the road; new and heavier rails were laid down and new ties, new bridges built, new engines ordered, the grades cut down and the roadbed improved. This work has been steadily going on for two years or more, but it is yet far from complete, although the expenditures have been exceedingly large. It takes time to completely reconstruct a railroad entirely, but the North Shore people were prosecuting the work of reconstruction with diligence and thoroughness. It is their misfortune that this calamity should have occurred while they were straining every effort to place the road in perfect condition. They will have to foot the bill of course, for the law takes no heed of the moral responsibility of the individual stockowner, but the present management of the North Shore is more deserving of sympathy than blame for the Point Reyes wreck if judgment be given on the facts.

They seem to have peculiar ideas of judicial propriety in Montana. The scribe that does not own the judge assumes as a matter of course that he belongs to the other fellow. The only kicks heard against this sure-thing system of jurisprudence comes from the losers. The inherent iniquity of it does not seem to have occurred to the Montana mind.

Mayor Schmitz has appointed a friend and a member of the Board of Supervisors, vice George R. Sanderson, deceased. A whitewash artist would more nearly meet the requirements of the Mayor's administration.

WHAT TO ADVERTISE.

The San Francisco Promotion Committee needs a few lessons in advertising. Much of value can be learned from studying the methods of the Southern Californians, who are versed of striking the fancy. They instinctively know what to feature in their advertising, and thus have made the most of their opportunities.

All the world has been told of the wonderful marine garden at Santa Catalina, but probably half the people of San Francisco never heard of the equally wonderful marine garden at Monterey. People go to Monterey and come away without even learning that there is a marine garden in the vicinity. It is not properly advertised. The grounds of the Hotel Del Monte are widely advertised, but the natural wonder close by is comparatively unknown.

When a stranger goes to Los Angeles every person he meets tells him he must go to Santa Catalina. On every side he will have the beauties and attractions of that resort dinned in his ears. Nobody will let him off until he has heard of the marine garden, which is advertised by pictures and descriptive literature in all the hotels and public places. Even the cabmen and bootblacks talk about it, and about everything in that section worth seeing.

How different it is in this section of the State. Strangers are not told of the marine garden at Monterey, Mt. Tamapais in Marin county, the Geysers, the petrified forest and the pearl of lakes, Tahoe. Every print and advertising circular in Southern California would rave if Tahoe were south of Tehachapi. The people of San Francisco do not realize what a marvel of beauty this wonderful sheet of water, set in the bosom of the Sierra Nevada, is. Americans go to Europe to see the Swiss and Italian lakes, yet Tahoe can take precedence of them all. Fancy a body of fresh water at an altitude of 6200 feet, 2000 feet deep and covering 2500 square miles of surface, surrounded by vast forests and lofty, snow-capped mountain peaks, reached directly by rail in a few hours from San Francisco. Now surround this great lake with forty smaller ones, all draining into it, and realize that all the lakes and the many rushing mountain streams are alive with the gamiest trout that ever swam. Add to these attractions the driest, purest, balmy summer atmosphere to be found on the continent, and only a faint idea is given of the wondrous charm of this silver sea of the mountains.

Why do not the railroads, the Boards of Trade and other organizations interested in advertising Central and Northern California grasp the fact, Lake Tahoe is the greatest popular attraction on the Pacific Coast. It is not a Titanic marvel as Yosemite, but it is a resort which Yosemite is not. It is easy and cheap of access, which Yosemite is not. It is a place at which to linger long, and to come again; and yet again, which Yosemite is not. One never tires of riding the flashing waters, or gazing on the panorama of rugged mountains, with their deep gorges and dark forests, or of basking in the mellow sunshine or breathing an air stimulated by the odors of pines and firs.

It is a shame that the natural beauties within the region immediately tributary to San Francisco are so imperfectly advertised as to be comparatively strange to the dwellers of that city itself. San Franciscans know more of Santa Catalina than they do of Tahoe, and far more of Coronado Beach than the Geysers and the petrified forest. Lake county is nature's sanitarium. No equal area on God's footstool has as great a variety of cold and hot mineral springs of medicinal efficacy as Lake county, yet that incomparable region is only locally advertised. Its landscape beauties and the virtues of its myriad springs are not told to the Eastern people. We leave them to find out. Were Lake county in Southern California, its glories would be sung in all languages and in every railway station and hotel in America.

Our advertising organizations go on in the old beaten path telling the world what can be grown in the Sacramento and San Joaquin valleys. The story is an old one, and not calculated to catch the imaginations. If you want to thrill the outside world, tell about the delightful climate of this section, the infinite variety of natural wonders, and the splendors of the scenery—something we have here that is unmatched on the planet. This whole northern region, outside the hot, dry and dusty valleys, is covered with a halo of romance. All we have got to do is to let the world know about it. The realms of pure delight lie in the Coast Range and the Sierra Nevada. Would that the Promotion Committee could only realize that if the Easterners can be induced to visit our mountains and lakes and places where nature has left marvels as testimonials to her handiwork, the visitors will find out for themselves what fertile soil lies in our valleys and what bounteous crops repay the husbandman's toil. Fat lands and groaning harvests are not the things that fascinate and inspire longing. The golden sunshine, the picturesque scenery, the health-

giving atmosphere and the sparkling waters are what men are seeking—not places to flow.

giving atmosphere and the sparkling waters are what men are seeking—not places to flow.

SHOULD BE DECLINE.

Walter P. Andrews, president of a company publishing a paper called the "News" of Atlanta, Georgia, has petitioned the Yosemite Commissioners to permit the christening of one of the big trees in the Mariposa Grove by the name of Henry W. Grady, and states in his petition that "such an act would greatly honor the memory of one of the greatest and most beloved men the South ever produced."

Recently, the State of Nebraska caused to be made a bronze tablet to the memory of J. Sterling Morton, which was sent to the Mayor of Santa Cruz with the request that it be placed upon one of the sempervirens growing in the neighborhood of Santa Cruz. As the trees were private property, the Mayor of Santa Cruz addressed the Redwood Park Commission for permission to place the tablet upon one of the great trees in the Sempervirens Park. The request was declined on the ground that the proceeding would establish a bad precedent and that the Commissioners would be constantly importuned to place tablets upon the trees in memory of obscure as well as justly distinguished dead. If this practice of attaching the names of men to trees, and thus converting them into ready-made monuments, is permitted, the sequoia groves of California will be converted into cemeteries, and the Commissioners in charge of them will be called upon, sooner or later, to sit as a trial jury upon the character of the dead. Visitors to the State Park, seeing the names of a large number of people upon the trees, would be fired with an ambition to swell the list with local celebrities, and persons in no way entitled to such distinction.

California would be glad to honor the memory of Henry W. Grady who was truly a very distinguished citizen of this country. But the grove of the sequoia gigantea and the State Park of Redwoods ought not to be converted into Westminster Abbey, an instead of adding names to the great trees in Mariposa Grove, the appellations that have been attached to the trees should be abolished.

If California desires to honor the memory of Henry W. Grady, the only dignified way to accomplish that and would be to erect a monument to his memory, by the authority of the Legislature, as representing the people of the State.

When the Commissioners in charge of the Yosemite Valley or the State Redwood Park are to be final arbiters as to whose names are to be placed upon the great trees, they will be vested with a function not contemplated by the law creating them. Christening one of the trees in Mariposa Grove with the name of Henry W. Grady, by the authority of the Yosemite Valley Commission, would fall short of a real tribute to the memory of Mr. Grady. If it is done at all, it should be done by the Legislature. Such an act would be a real tribute to the memory of a truly great American.

The burning of a negro at the stake within a hundred miles of the national capital is likely to bring the subject of mob burnings of suspected criminals sharply to the attention of Congress at the next session. While Congress has no power to directly legislate on this subject a thorough discussion of the national disgrace will exert a wholesome influence on public opinion, and will operate as a spur to lax and indifferent State authorities. This burning business must be stopped in some way. The federal government has no authority under the constitution to meddle with the punishment of crime in the States, but public sentiment will demand that it be given the power if mobs continue to roast human beings at the stake. The constitution gave the federal government no authority to interfere with slavery where it existed in the States, but the moral sentiment of the nation finally broke down the barrier in the organic law and wiped out the twin relics. It may be aroused to do the same thing again to stop negro burning.

**Pears'**  
Pretty boxes and odors are used to sell such soaps, as no one would touch if he saw them undisguised. Beware of a soap that depends on something outside of it. Pears', the fines: soap in the world is scented or not, as you wish; and the money is in the merchandise, not in the box.

# The Face House

THE H. C. CAPWELL CO.  
Cor. 12th and Washington Streets, Oakland.

## The Babies' Rest

At the Street Fair is conducted by us for the benefit of mothers who want to leave their infants in the best of keeping while they enjoy the many sights and scenes. You are invited to take advantage of it—we want the little ones for our guests. It costs you nothing.

## Thirteenth Special Friday Sale

One department has suggested that we skip "13" and call this sale by some other name—said "13" is unlucky. We intend to demonstrate that we are superior to superstition and have compiled a list of specials for this Friday's Sales that will make our Thirteenth Bargain Day the luckiest of the lot.

### SHIRT WAIST SUITS—\$1.65

Made of fancy black or blue striped and figured lawns, on light grounds; skirt trimmed with bias bands; waist has plaited effect, and is trimmed with large pearl buttons; regular price \$2.50; for the Carnival, Fourth of July and picnics these Shirt Waist Suits are just what you need.

### DRESS GOODS—6 Specials

In going through the Dress Goods, several pieces were found containing but one or two suits; there are too many pieces of some fabrics, and a few lines we want to close out entirely. For these reasons, we offer the following specials till they are all gone—the selling of them beginning Friday.

- (1) Fancy Mixed woolens, not more than two suits in any one piece; regular 50c value. **25c yd**
- (2) Flaked Etamines 42 inches wide, several good shades; reg. \$1.25 and \$1.50 values. **75c yd**
- (3) Flaked Etamines 42 inches wide; reg. 75c and 85c values. **50c yd**
- (4) A number of patterns in fancy silk and wool mixed suitings; reg. \$1.10 value. **55c yd**
- (5) All-wool Home-spuns, 36 inches wide, dark and light grays and tan; regular 50c value. **35c yd**
- (6) Black and white wool-mixed shepherd's checks; 42 inches wide; reg. 60c value. **35c yd**

### LADIES' TAILORED SUITS—\$7.50

For Friday's Special Selling we have taken about fifteen Suits in broken sizes, that are worth from \$12.50 to \$17.50. They are good suits, will stand all criticism and are made of dark mixture. This gives you a timely opportunity in the purchase of a tailored gown that will last you till Christmas.

### SILK WAISTS

#### REDUCED

Every Silk Waist in the Department has been liberally reduced. There are too many styles and prices to give details, but the reduced prices will prevail till all are gone.

### SILK PETTICOATS

#### Samples

Friday sees the beginning of the selling of an excellent sample line of Silk Petticoats, all new patterns, but no two alike. Prices are from 25 to 35 per cent less than usual and will prevail till all are gone.

### WASHABLE DRESS GOODS—3 Stars

- (1) "Leno"—A beautiful figured fancy lawn with lace stripes and open work; flowers, vines, etc., worth 20c. **12 1/2c yd**
- (2) Brocaded corded Madras; white ground with printed figures and stripes; regular 25c value. **15c yd**
- (3) Percales, 32 inches wide; white ground, fancy figures and stripes; regular 10c value. **6c yd**

### FANCY TAFFETA—35c yd

Several patterns of fancy silk taffeta, white and red figures; brown, black and blue grounds with fine, white hair stripes; also plain white; regular 50c value.

### WASHABLE PETTICOATS 55c

- (1) Black and white combinations, deep flounce with two ruffles.
- (2) Fancy striped and plain Gingham Petticoats with flounce of two ruffles and bias bands; all 75c and 85c values.

### TENNIS UNDERSKIRTS 18c

Made of a good quality of tennis flannel in pink and blue stripes finished with deep ruffle; regular 25c value.

### LADIES' HANDKERCHIEFS

With hand embroidered initials, hemstitched border; Special. **5c**

Ladies all-linen, hemstitched handkerchiefs, with embroidered initial; regular 20c value; Special. **10c**

### HUCK TOWELS—10c

All linen Huck Towels, fancy border, 15x36 inches; regular 15c value.

### REMNANTS—

At each of our Friday sales you will always find some tables in the aisles loaded with most attractive remnants at about half-price.

### FINE LAWN KIMONAS—69c

Made with extra large bell sleeves; black and red figures; finished with broad band of solid colored lawn; regular \$1 value.

### RIBBON SPECIALS—10c

In the Ribbon Window is a variety of plain colored taffeta; also fancy silk ribbons; several widths; were 15c, 20c and 25c yard; until all are gone. **10c yd**

### SATEEN CUSHION TOPS 9c

Grounds are blue, green or red, with Oriental designs; regular 15c value. **9c**

### TABLE LINEN SPECIALS

## OPERATORS MEET.

OFFICERS OF MISSOURI AND KANSAS COAL MINES ARE NOW IN SESSION.

KANSAS CITY, June 25.—The Missouri and Kansas coal mine operators and officers of Districts 14, 21 and 25 of the United Mine Workers' Union, which includes branches in Missouri, Kansas, Arkansas, Texas and Oklahoma and the Indian Territory, met in separate conferences here today. John Mitchell, president of the United Mine Workers of America, is expected here during the day. Among the matters to be considered by the operators will be action on an invitation from the miners to attend their general conference at Pittsburg, Kan., on July 15 and means for avoiding a strike next fall. The miners today will, it is said, lay plans to secure a uniform wage scale to be laid before the Pittsburg convention.

DENTIST MAKES GROSS FIND. ALAMEDA, June 25.—Dr. Christensen, who has a dentistry office in the bank block on Park street, has in his possession a unique but rather gruesome souvenir. While drawing a glass of water yesterday from the faucet in the wash-basin, a peculiar substance came through the pipe into the chamber. There is an ounce or two of the matter and it resembles human flesh in a bad state of decomposition. The doctor examined the mass with a microscope and found that they contained pores very similar to those in the human body. He has preserved his find and is going to submit it to an expert for analysis.

SMALL GRASS BLAZE. ALAMEDA, June 25.—A telephone message at 7:20 o'clock last evening brought the Webb avenue chemical to the corner of Broadway and Central avenues, where there was a grass fire. No damage was done by the blaze, which was extinguished in a few minutes.

**WE HEREBY CONDEMN, repudiate and openly challenge as false and malicious, all statements to the effect that SOZODONT, the well-known dentifrice, is or ever was acid or contains any ingredient injurious to the teeth or mouth.** The origin of these statements has been traced to certain irresponsible and unprincipled persons desiring to benefit thereby. We, therefore, publicly state and stand ready to prove SOZODONT to be not only non-acid but an acid destroyer, for by its alkaline reaction it neutralizes all destructive mouth acids. This statement is corroborated in hundreds of letters from our most eminent dentists, **HALL & RUCKEL, New York.**

*We will mail complete analysis to your dentist upon receipt of his name.*

## SPEECH ON WAVES OF AIR.

## Wireless Messages at The Tribune Booth Nightly at the Fair.

The greatest scientific novel at the fair is the wireless telegraph system, which has been introduced for the pleasure and the enlightenment of those who wish to inquire into this, the latest of wonders which has been utilized for trade and commerce by the wizards, Marconi and Edison.

Everybody, in a general way, knows that the Marconi system transmits thought on the waves of the air without the intervention of a wire. Everybody has read of telegraphing to and receiving messages without wire from vessels hundreds of miles at sea, and has been told of the incalculable advantages which are to be derived from such a discovery, which is even able to send its messages across the sea.

At the booth of the Reuter-Marten Wireless Telegraph Company, this great Marconi discovery will be illustrated every evening of the fair by means of the delicate and expensive instruments designed by Marconi and secured by the local firm and for the purpose of showing how the phenomenon of communication between distant individuals and places may be accomplished.

These instruments comprise a sender and a receiver. The former consists of the apparatus usually employed in the sending of wire messages. The receiver is a delicate, complicated and peculiar piece of mechanism which seems to have the sentient characteristics of a human being. Similar instruments will be located in the TRIBUNE booth, 100 feet distant. The wireless telegraph system will also be an operator in THE TRIBUNE booth, who will receive the messages by means of a contrivance raised some distance above the point to which the wireless telegraph apparatus is attached. The cost for an inspection of the instruments of the Reuter-Marten Wireless Telegraph Company and testing them by the sending of a message will be only 10 cents.

People interested in the matter will find the wireless telegraph transmitter and receiver on the south side of THE TRIBUNE booth and there the messages will be automatically plucked out of the air and recorded just as if they had come by wire or by letter post. The firm of Reuter-Marten is composed of C. F. Reuter and W. B. Marten, who have been foremost in electrical advancement in this city, and who are known as experts in every branch of their business. The instruments used for this kind of work are proportioned in size to the distance which they have to cover. Those which are used by the company in question are powerful enough to establish communication with any government station around the bay. They have already been used with great success in transmitting messages between various points in the city of Oakland, and have been successful in the highest degree.

## THE CAUSE OF WRECK IS UNKNOWN.

PASSENGERS AND OFFICIALS DO NOT AGREE IN THEIR THEORIES.

SAN FRANCISCO, June 25.—The cause of yesterday's wreck on the North Shore road remains a mystery. Passengers on the train are insistent in their statement that too great a speed was maintained on the curves, but the railroad officials say that evidence that the train was going at a moderate rate is furnished by the facts that after jumping the track, both engine and tender slid about sixty feet before going over the bank, and ten stopped within a few feet of the top.

Robert Clark, the injured fireman, is being cared for at Dr. Taylor's sanitarium in this city, where it was stated this morning that his condition was not alarming and that he was very comfortable.

## BUILDING WRECKED. EXPLOSION OF AMMONIA GAS CAUSES GREAT DAMAGE IN BREWERY.

CHICAGO, June 25.—An explosion of ammonia gas in the Citizens' Brewery early today, wrecked the building and resulted in fatal injuries to Charles Brunk, the night brewer, and serious injury to Charles Howard, night engineer, and to Frank Fisher, night fireman. Several firemen were overcome by

the fumes of ammonia. The night engineer is said to have turned steam into the ammonia tank instead of into the boiler. The property damage is estimated at \$150,000.

A PLEASANT EVENING. A very pleasant evening was spent at the home of Mr. and Mrs. Rosewarne. Refreshments were served followed by musical solos. Among those present were Mr. and Mrs. Rosewarne, Mr. and Mrs. Roebke, Mr. and Mrs. Lang, Miss Montell, Mr. Carter, Mrs. Rowe, and Mr. Gay, Master Max Roebke and Loretta Roebke and Mr. Joe Osegeda.

## OVER THE FENCE.

Neighbor Says Something. The front yard fence is a famous council place on pleasant days. Maybe to chat with someone along the street, or for friendly gossip with next door neighbor. Sometimes it is only small talk but other times neighbor has something really good to offer. An old resident of Balld, Texas, got some mighty good advice this way once. "Drinking coffee had left me weary, Mr. and Mrs. Roebke, Mr. and Mrs. Lang, Miss Montell, Mr. Carter, Mrs. Rowe, and Mr. Gay, Master Max Roebke and Loretta Roebke and Mr. Joe Osegeda.

"One day I was chatting with one of my neighbors about my trouble and told her I believed coffee hurt me. Neighbor said she knew lots of people to whom coffee was a poison and she pleaded with me to quit it and give Postum a trial. I did not take her advice right away but tried a change of climate but it did not do me any good and then I dropped coffee and took up Postum.

"My improvement began immediately and I got better every day I used Postum.

"My bowels became regular and in two weeks all my pains were gone; now I am well and strong and can eat anything I want to without distress. All this is due to my having quit coffee and used Postum regularly.

"My son who was troubled with indigestion thought that if Postum helped me so it might help him. It did too and he is now well and strong again. We like the Postum as well as we ever liked coffee and use it altogether in my family in place of coffee and all keep well." Name given by Postum Co., Battie Creek, Mich.

## True and Unfailing Health for Suffering Women. PAINE'S CELERY COMPOUND

The World's Medicine for the Cure of Female Troubles.

A large share of the evils and sufferings which women are liable to, result from special female weakness and diseases. From the girl entering womanhood to the woman who arrives at the Grand Climacteric or "change of life," there are troubles, ailments and irregularities, often borne in silence—which undermine the health and result in disease. Where such conditions exist, Heaven help the poor sufferers to fully realize their peril and dangers.

It is well known that ordinary medical treatment too often fails to build up the delicate nervous system and give necessary tone and strength to the

## ENTER WITHOUT "EXES."

UNIVERSITY PUBLISHES THE LIST OF ACCREDITED HIGH SCHOOLS.

BERKELEY, June 25.—The University of California issued this morning a list of the accredited schools whose graduates may enter the University without taking the entrance examinations, as follows:

Alameda High School, Alhambra High School, Anaheim High School, Arcata Union High School, Auburn, Placer County High School, Azusa, Citrus Union High School, Bakersfield, Kern County High School, Belmont School, Benicelli High School, Berkeley, Boone's University School, Berkeley High School, Miss Head's Preparatory School, Bostonia, Cajon Valley Union High School, Campbell Union High School, Conventville Union High School, Cloverdale Union High School, Colusa High School, Pleasanton Union High School, Colusa District High School, Compton Union High School, Corona High School, Corona Union High School, Dixon High School, Easton Washington Union High School, Escondido High School, Espartero Union High School, Etna High School, Etna Union High School, Eureka High School, Fairview, Armijo Union High School, Fernando, San Fernando Union High School, Fresno High School, Fullerton Union High School, Fullerton High School, Grass Valley High School, Hanford Union High School, Hayward Union High School, Healdsburg High School, Hollister High School, Irvington High School, Juntura, Livermore Union High School, Lodi High School, Lompoc Union High School, Long Beach High School, Los Angeles High School, Los Gatos High School, Madras High School, Marysville High School, Mendocino High School, Merced, Merced County High School, Mills College, Seminary department; Modesto High School, Monrovia High School, Napa High School, National City High School, Nevada City High School, Oakdale Union High School, Oakland Academy of California, College, Oakland High School, Miss Morton School, Ontario High School, Orville Union High School, Pacific Grove High School, Pasadena High School, Pasadena, Throop Polytechnic Institute, Paso Robles High School, Petaluma High School, Pomona High School, Porterville High School, Red Bluff Union High School, Redding Shasta County High School, Redlands Union High School, Redwood City, Sequoia Union High School, Riverside High School, Santa Clara High School, Santa Cruz High School, Santa Maria High School, Santa Monica High School, Santa Paula Union High School, Santa Rosa High School, Selma Union High School, Stockton High School, Truckee, Meadow Lake Union High School, Tulare High School, Ukiah High School, Vacaville

BROTHER OF EX-TRUSTEE. ALAMEDA, June 25.—L. Achille Rea, who has been appointed by Mayor Schmitz of San Francisco to succeed the late Supervisor Sanderson, is a brother of E. F. Rea, once a member of the Board of City Trustees of Alameda.

THEIR BAIL FORFEITED. ALAMEDA, June 25.—Three plain drunks, J. Miller, John Doe and Richard Roe, were gathered in by the police last evening. Each put up \$5 cash bail, which was forfeited by their non-appearance in the Recorder's court this morning.

FOR AN EXTENDED TRIP. ALAMEDA, June 25.—Captain Jacob Jensen of Pacific Grove left this morning on an extended trip to Yellowstone National Park.

Bed Sofas. Couches and a good line of household furniture for sale. We will make terms if you want to buy on installments. H. Schellinas, 1. O. O. F. Building, corner store, Eleventh street.

SPORTING NEWS.

HOME HITS FROM OPEN HOUSE AT MAKE PLANS FOR DIAMOND, JIM'S PLACE. REGATTA.

PORTLAND VS. OAKLAND GAME WAS A WARM SESSION YESTERDAY.

The Portland people were able to telegraph up home yesterday that they had secured a victory from Pete Lohman's followers, but they also had to add that it took ten innings to get the game. Vigneaux and his men made four runs during the game, while Oakland got half as many.

The score in the Portland-Oakland game was even up to the tenth inning, when Vigneaux teased a pass out of Lee and then almost immediately went to second. Then Hurlbut hit safely and that put Vig. on third. Van Buren made a hit and Vig. came home, while later on Vigneaux's next over third brought in Nadeau.

Pete Lohman in the last inning started the crowd by striking out, he being forced to do so by Hogg, the man who deserted the Nationals.

Leahy and Spies had a little argument during the game at Sacramento yesterday and it required the members of both teams and several policemen to keep them apart. No damage was done to either and no fines were imposed.

It is said that Tommy Hess and Phil Nadeau are tired of their jobs on the Portland team and want other offers. Nadeau is reported to be going to New Orleans, but Hess' destination is not known.

William O'Hara, who was given his release from the Oakland team, received a communication yesterday from Toledo inviting him to play on that team. "Will he not?"

King, Oakland's new shortstop, may not be able to play the game when he gets here, for while doing duty for Torre Harte he received an injury that will make him a bit stiff.

Notwithstanding that Brashear's arm is so sore that he can scarcely raise it above his head, he is staying with the team, for he knows that Oakland needs him.

Waddell met with defeat yesterday. It was the second defeat that the ex-Loo Loo has received in thirteen games.

AMATEUR GAME.

JOAQUINS WILL PLAY THE IRON WORKERS ON SUNDAY.

The Joaquin baseball team will cross bats with the Union Iron Works baseball team at Fremont's Park next Sunday afternoon at 2:30 o'clock. This is the first game of the season to be played by the Joaquin team and a large crowd will be in attendance.

The following is the line-up of the team: Pitcher, Lloyd Hughes, catcher, Wm. Berwick, 1st base, Paulster, 2d base, George Swartz, 3d base, James Dale, short stop, Beach Dean, left field, George Blenheim, center field, Milt Kline, right field, McKee, extra, Lefty Beas, manager, Sam Mendelson.

A Great Discovery! An Electro-Magnetized and Ammonio-Camphorated CREAM LINIMENT, A MARVEL OF REMEDIAL EFFICACY AND A BOON TO BOTH MAN AND BEAST. The Outcome of 20th Century Advances in Electro-Chemical Science. POSSESSED OF MARVELOUS PROPERTIES. ELECTRO-MAGNETINE is believed to be the only preparation devised for curative purposes endowed with such peculiar properties that when applied to any part of the human body accompanied with brisk rubbing with the naked hands, it causes an active and energetic electro-magnetic action to be set up in the parts to which it is applied.

FITZ IS ACROSS THE BAY.

GRAND OLD MAN OF THE RING IS OUT FOR JEFFRIES.

Robert Fitzsimmons, the grand old man of the ring, arrived in San Francisco last night and registered at the Palace Hotel where he will remain until Monday and will then continue his journey to Harbin Springs, where he will train Champion Jeffries for his fight with Corbett.

Fitz makes no bones about expressing his contempt for Corbett's chances against the champion and he figures that a horse is an open and shut proposition. He does not give any reasons for his opinion.

As far as he himself is concerned, Fitzsimmons states that he has no plans in view but is willing to fight anyone in the world barring Jeffries, whom he freely admits that he cannot beat, and is willing to make the middleweight providing there is a sufficient inducement offered.

He made no denial of the reported engagement to Miss Julia Gifford but stated that they would not be married for at least two years. In speaking of the affair, he said:

"I was surprised at myself when I became so much attached to the little lady, but I do not think it a disrespect to the memory of my late wife. I believe she would rather have me married to a good woman who will be and I am sure she would be, but really, now, I was the most astonished man in the world when I found that I wanted to be with Miss Gifford all the time. I bought a ring for the lady after we had talked it all over and unless one of the changes in my mind occurs, I will read Mrs. Robert Fitzsimmons some day."

IS PROSPERING.

NATIVE SONS PARLOR AT HAYWARDS IS IN FLOURISHING CONDITION.

Eden Parlor, No. 113, N. S. G. W., of Haywards is once more on its road to prosperity, after struggling for the past sixteen years through trials and tribulations.

On August 13, 1887, a few native Californians banded together for the purpose of organizing a Parlor of Native Sons. After being organized but a few years, meeting with growing success, they took upon themselves the task of erecting the first Native Son Hall in California at a cost of \$25,000, which today is a landmark in the early history of Native Sons and a credit to any community.

Several years rolled along and they began to see the necessity, with such a load upon their shoulders, and last year they decided to hold a country estate fair, and with the aid of other fraternal societies in Alameda County made it the grandest success of any kind of a fair ever held in the magnificent sum of \$3,105 which went toward paying off the mortgage that hung over their heads.

About a month ago the Parlor undertook to work up a class initiation and a number of five consisting of John E. Henry, Wm. Zambresky, A. Oakes, M. B. Templeton and Geo. Meiringer were appointed for such purpose, and with the aid of the members of the Parlor succeeded in securing a class of fourteen initiates.

The members of the Parlor were: John E. Henry, Wm. Zambresky, A. Oakes, M. B. Templeton and Geo. Meiringer were appointed for such purpose, and with the aid of the members of the Parlor succeeded in securing a class of fourteen initiates.

Immediately after the initiation ceremonies all adjourned to the banquet room where a sumptuous repast was served. President Harte presided and Joseph Soars acted as toastmaster of the evening in a most impressive manner. Eloquent remarks were made upon the traditions of California from its infancy to the present time by Doctors A. J. Powell and G. E. Reynolds, John E. Henry, Geo. A. Oakes, John McCoy, Wm. Zambresky, E. J. Strobridge, Geo. W. Clark, Wm. Munch, Otto Best and many others.

Eden Parlor's steady growth is an assured fact and is today one of the most financial organizations in Alameda County.

INDEPENDENT ORDER FORESTERS.

Thirty-seven members of Court Oakland, No. 1227, Independent Order Foresters, accepted the invitation of Chief Ranger Jamieson and Court Physician Leagut and took in the sights of the Oakland Street Fair last evening.

After an enjoyable time spent in visiting the various concessions the evening's entertainment was concluded by an oyster supper at one of the down town restaurants.

On Saturday night, July 11, a party of some thirty Foresters will take a moonlight trip up Mount Tamalpais, leaving San Francisco on the last boat. They will camp on the mountain side and in the morning witness the sun rise from the summit. Several of the members will bring banjoes and mandolins with them, while to others has been assigned the task of setting the fireman is refreshed after the laborious climb. An enjoyable time will undoubtedly be experienced.

HE WAS AN EXILE.

NEW YORK, June 25.—Elek Ludvig, one of the leaders of the Hungarian revolution, a compatriot of Kosuth, and later a member of the staff of Major-General Julius Stahl, U. S. A. in the Civil War, is dead at his home here from heart disease. He became an exile from his native land in 1848.

THE CHAIR WILL BE BUSY.

ALBANY, N. Y., June 25.—There are now seventeen murderers awaiting execution in this State. Five are set for the week of July 6. Eleven are assigned for dates extending over several weeks, and one is held up on appeal—that of Mrs. Taylor, convicted of killing her husband.

LOST THREE FINGERS.

Manuel Fernandes, a boy if years of age, whose home is at San Leandro, caught his finger in a buzz plier at a mill at First and Center streets during the week of July 6. Eleven are assigned for dates extending over several weeks, and one is held up on appeal—that of Mrs. Taylor, convicted of killing her husband.

ADVERTISEMENTS.

# THE OFFICIAL PAPER OF THE DRUG TRUST SAYS:

(Page 1, "The Druggist," June number.)

"The druggists of San Francisco have an organization now such as they never had before. Some people call it Trust. Well, a Trust is a pretty good name for it after all. We'll call it a Trust; a Trust to uphold the dignity of the profession; a Trust to advance the science of pharmacy; a Trust to control the Black Sheep."

They could just as well have added the real purpose and said: "A Trust to raise prices and clinch the sick and poor," for that is what "dignity of the profession," "science of pharmacy," etc., means in plain words.

But now they admit the existence of a Drug Trust, and they'll admit its real purpose before they get through with the Owl.

As long as The Owl is in business the people of Oakland, Alameda, Berkeley and all of Alameda County, will not have to pay the high prices for drugs and medicines that the Trust is striving to demand.

The Drug Trust have done their best to take away our clerks; they have made the wholesale druggists refuse to sell us goods, they have issued thousands of circulars defaming us, and calling us "unfair," they have done their worst, and still we are doing the biggest drug business in Oakland and still we are cutting prices.

## OAKLAND FAIR ATTRACTS THOUSANDS.

Matchless Beauty of the Grounds  
and Excellence of Exhibits  
and Mid-Way Features.

Last night, about 10 o'clock in front of the Chronicle office on Market street San Francisco, there stood a lot of people looking at the heavens. Their attention was directed to a brilliant circle of light, more brilliant even than the stars, and the wonder grew as to what the constellation was that had so suddenly blossomed into being.

Some of the spectators declared it was the newly discovered comet with the dual appendage and others claimed that it was one of the stars which had recently been discovered by the comet-chasers at Mount Hamilton.

At length, a jolly party of young men who got off the car noticed the star-gazers and one of them hearing the speculation indulged in, said:

"That is no star. It isn't a comet either. It's just a balloon, with 200 electric lights around it, sailing 600 feet in air, over the grounds of the Oakland Street Fair and Carnival."

"You don't say so," exclaimed one of the star-gazers. "It seems to me," he continued that Oakland is getting up in the world."

"I should say so," remarked the man who had explained the constellation. "She's got the greatest fair on earth. We're just come from there. It's a daisy. There's no doubt about it."

SEEN FOR MILES.

And this is the progress of the fair made known to thousands of people distant from the scene, because the illuminated balloon referred to is visible not only to the people of Oakland but also of San Francisco and to those along the country road as far as Hayward.

This is the first illuminated balloon of this kind which has ever made its ascent on the Pacific Coast and, in itself, is a thing of interest and beauty.

PRODUCE EXCHANGE.

It is, however, only one of the many attractions of the fair.

Although not a part of the fair proper, the great produce structure which occupies the block on which the tabernacle formerly stood, becomes nightly into a glistening structure of light. The eaves, gables, windows, pediments and ridge poles are outlined with electric lights and the effect intensifies that of the patri-colored illumination on the Eleventh and Twelfth street sides of the structure which has hitherto been described in these columns.

ENTRANCE.

The entrance to the fair grounds is in itself a spectacle which will bear close inspection at night. The structure is of frame. It comprises gracefully formed columns from which spring a series of concentric arches, thickly studded with glistening incandescent lights. The shafts and arches of the pale light of the bulbs they assume the richness of cararra marble. Similar columns extend around the fair grounds and suggest a royal esplanade in some foreign principality.

CONVENIENCES.

The exhibits, industrial and otherwise, are arranged along the curbs of the fourteen blocks of streets which have been laid out for the fair, leaving in front ample space to enable the spectators to view the wares and workmanship on sale upon the best of terms and incongruities and other things which may be seen on the midway. Ample though the room is, it was severely taxed last night because the throng kept filing through the gates and the industry and the versatility of the "speilers" succeeded in attracting thousands of people to their section of the inclosure.

THE PARK.

When people are tired they have close at hand, the inviting, cool, green sward to throw themselves upon and gaze up at the canopy of light which overhangs them or listen to the concert music which is rendered by Callaghan's band in an artistic manner.

If a person wishes to listen to other sounds, he will experience no difficulty in discovering them because they are close at hand. The most insistent of these are the hoarse of the "speilers" whose utterances are in every key of inharmonious imagination. There is also the boom of the distant bass drum, the click of the castanets, the subdued roar of the young cannon, the shrill piping of the fife, the neighing of horses, the bark of dogs, the puffing of engines and the whir of machinery.

Besides, the invitation of the sward, there are also large and substantial seats which extend welcome arms to

the weary and speculative.

INDUSTRIAL FEATURES.

While amusements seem to draw the crowds, the manufacturers and industrial features find favor with thousands. People watch, with keenest interest the dexterity displayed by the young women who turn out night and other undergarments with a rapidity which is really amazing.

The hand-brake who kneads a piece of clay like a housewife kneads her dough, who moistens and tempers it until it assumes a lighter hue and gradually and almost imperceptibly evolves from a sudden piece of earth into a household jar for the utility or decorative use, is the wonder of young and old.

The rapidity with which a ter a little buzzing, a wire spring mattress comes into being, causes surprise and hundreds watch the transformation for hours at a time.

THE BLIND.

In the midst of all this life and gaiety there are some artisans who see nothing of the entrance canopy of light above them, for they have been bereft of the sense of sight, a deprivation, which, however, seems not to affect their spirits or to deprive them of their and many of the cunning necessary to enable them to do considerable toward earning their own living. In this cluster of unfortunate people may be seen women weaving summer hammocks, turning out finished garments and rapidly running sewing machines and wiring tiny beads and forming them into various designs of ornament and use and caning chairs, while men make brooms with seeming facility as much rapidly and skill as if they had never known what is meant by the deprivation of sight. From time to time, the tedium of the evening is relieved by music rendered by a trio of men who are also sightless. These workers show some of the utilities taught at the Adams Home for the Blind which is located in the northern part of the city.

GERMAN LADIES.

The booth of the German Ladies' Relief Society was liberally patronized last night but the ladies say they are prepared to attend to all who favor them with a call. The ladies in charge yesterday were Mrs. A. W. Rum, Mrs. J. C. Neppach, Mrs. L. Katz, C. H. Kramm, Mrs. John Tisch, Mrs. Barmann and Miss Wilkinson.

## C. S. PLAUT RETURNS FROM YOSEMITE.

Carl S. Plaut, the local manager and representative of the Fredericksburg, Wieland and United States Lager beers of San Francisco and the famous Lohegrin Eastern Lager beer, has returned from a two weeks' pleasure trip to the Yosemite, where he had a most enjoyable time.

Mr. Plaut has been an extensive traveler, and says the scenery of the Yosemite eclipses the noted country of Switzerland. Mr. Plaut has greatly advanced the business of the concerns he represents since his inception as the local head of the breweries in this city and his trade is steadily on the increase.

## MAKE PLANS TO IMPROVE.

On Friday last a meeting of the citizens and tax-payers of the First Ward met for the purpose of organizing an improvement club for the benefit of the Adeline district.

The club will meet again on Friday evening, June 26, at 8 o'clock in the Adams real estate office, at Adeline station.

## HOTEL ARRIVALS.

GURNETT'S ESTATE.

An appraisal of the estate of A. G. Gurnett, formerly president of the San Francisco Stock Exchange, was filed today. The property is valued at \$41,148 and consists of a stock farm at Sulphur Springs, near Walnut Creek, where real estate, mining and oil stocks and a seat in the San Francisco Stock Exchange valued at \$3000.

EXPERIMENT SUCCESSFUL.

DENVER, June 25.—A special to the Republican from Santa Fe, N. M., says:

Major Fred Muller has just concluded a series of successful experiments in raising silk worms from eggs furnished by the Department of Agriculture. The business men of Santa Fe are preparing to make extensive experiments in silk culture.

## KING PETER TAKES OATH.

MUCH ENTHUSIASM SHOWN BY  
PEASANTS—REVIEW OF  
TROOPS.

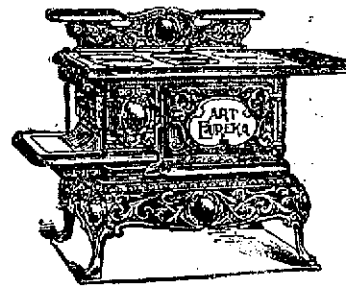

BELGRADE, June 25.—Amidst great enthusiasm, this morning, King Peter took the oath before the Skupstina. Subsequently he led a review of the troops. The oath taken by the King was in the following terms:

"I, Peter Karageorgievich, on ascending the throne of the kingdom of Serbia and assuming the royal prerogative, swear by Almighty God and by all that is holiest and dearest to me upon this earth, that I will protect the independence of Serbia and the unity of its Government, that I will maintain inviolate the constitution and the laws, and that in all undertakings and dealings I will keep the welfare of my people before my eyes. Taking this, my oath solemnly before God and the people, I call as witness the Lord God, to whom I shall give account at the judgment seat. So help me, God. Amen."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by P. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address F. J. CHENEY & CO., Toledo, O.  
Sold by druggists, 75c.  
Hall's Family Pills are the best.

## MINISTERS LEAVE SERVIA.

THIS STEP IS TAKEN TO IMPRESS  
POWERS' PROTEST AGAINST  
ASSASSINATIONS.

PARIS, June 25.—The French Minister to Serbia has reported the circumstances attending the departure of the ministers from Belgrade, as follows:

All the ministers received similar instructions to act together. Accordingly, an understanding was reached that they should depart, this step being regarded as the most emphatic method of impressing the powers' protest against the assassinations of King Alexander and Queen Draga. The Russian and Austrian representatives apparently shared in the principle of the protest, but did not withdraw, because Russia and Austria were apprehensive that a united withdrawal of the entire diplomatic representation at Belgrade would precipitate another revolution. The officials here say the entire of the ministers to Serbia now become an entente of the powers in expressing a protest. The duration of the absence of the ministers from Belgrade is indefinite and depends mainly on King Peter's course in the selection of his ministers and the terms of Serbia's notification to the powers of the inauguration of the new regime.

INSPECTS RESERVES.  
CALISTOGA, June 25.—Inspection of Company A, Veteran Reserves, N. G. C., by a regular army officer of Oak-

land, Colonel Thomas Wilhelm, inspector-general of rifle practice, N. G. C., and retired regular United States army officer, was appointed by the Adjutant-General to inspect the Veteran Military Company in camp here. He arrived at Calistoga last evening at guard mount. This morning he was on hand and expressed himself as being well pleased. The company appeared in marching order and were inspected after guard mount. Great praise was given the company for drilling, especially in extended order drill it was pronounced to be effective.

## SCHUMACHER ESTATE PAYS A BIG TAX.

The collateral inheritance tax on the estate of John Schumacher, deceased, whose hotel at Turk and Taylor streets, in San Francisco, was recently sold at public auction for \$87,750, amounts to \$7,110.84. His entire estate is appraised at \$135,474. Schumacher lived at Twelfth and Myrtle streets, in this city, and his property went to relatives, J. J. Burke, as Collateral Inheritance Tax Commissioner, submitted his final figures to the courts today.

ATTACHED HIS GOODS.

ST. LOUIS, June 25.—Deputy Sheriff of St. Louis county levied on the belongings of Bandmaster Innes last night at Suburban Garden, after garnishing his share of the bar receipts and confiscating his portion of the money taken in last night at the box office of the garden. The attachment was made to satisfy a judgment rendered in favor of William A. Xantler against Frederick X. Innes in the Circuit Court of St. Louis on March 15, 1897. The amount of the judgment, with interest, amounted to \$888.65. Bandmaster Innes says that judgment was settled several years ago.

Jim Dumps attended with elation  
His oldest daughter's graduation.  
Her essay was a great success  
On "Proper Food and Cheerfulness."  
She showed how "Force" gave mental trim  
And told the tale of "Sunny Jim."

The Ready-to-Serve Cereal

produces cheerfulness  
because proper.

"Force" for Bachelors' Hall.

"As one of four fellows who kept Bachelors' Hall at the Sign of the Glad Backs for the Summer, I would say that we need five or six boxes of 'Force' each week, and found it very satisfactory, not to mention the 'Sunny Jims' it has made of us."

69

YALE WON THE GREAT RACE HE WILL GO TO ST. LOUIS. ASSIGNMENT OF TEACHERS

Had no Trouble in Crossing the Line First in the Annual Rowing Contest.

NEW LONDON, Conn., June 25.—The hundreds of devotees of college boat racing, which gathered in this little old whaling town yesterday and last night in anticipation of the twenty-fifth annual regatta on the Thames, between oarsmen of Harvard and Yale, scheduled for today, awoke to find the conditions weatherwise anything but encouraging. Though the early morning brought with it a let-up in the rain a bleak wind blew in from the northeast and the atmosphere was raw and penetrating.

Of the twenty-four races which have been rowed on the Thames between the 'varsity eights from Cambridge and New Haven Universities, Yale has a record of sixteen victories. Harvard has won eight. The Yale men confidently expected to make it seventeen today, while the young men from Cambridge were not without encouragement that this was to be Harvard's day.

Before 9 o'clock this morning the chairman of the Regatta Committee and the referee, W. H. Meikleham of Columbia, went out on the river and over the course for a final inspection. They reported that everything was in readiness for the contests except the weather. Meanwhile the harbor presented an animated scene. Many yachts had arrived during the night and early in the day they left their anchorage in the lower harbor and steamed or were towed up to the waters about the 'varsity finishing line. Among these was the President's yacht, the Sylph, having on board Miss Alice Roosevelt. There appeared also in this fleet the two big cup yachts, Constitution and Columbia.

Excursion trains were run from Norwich and nearby towns, New Haven and Boston.

Despite the forbidding aspect of the weather it was announced at 8:30 that every effort would be made to start the regatta at 11 o'clock, the scheduled hour. The day's program called for the race between 'varsity fours from the start opposite Gales Ferry, down stream to the Navy Yard, a distance of two miles, to be followed promptly by the Freshmen race from the Navy Yard to the railroad bridge. It was planned to finish these two minor events before noon and to start the big sights down the river at 12:30 p. m.

As the day wore on the unfavorable conditions of the early morning changed and at 10 o'clock the river was almost smooth. The wind had shifted to the north and was very light.

Preparations for the contest were hurried forward. The Harvard Freshmen embarked and started down stream toward the Navy Yard preparatory to their race. It was announced that the four-oared race would not be started until after the Freshmen had arrived at the Navy Yard. The Harvard four-oared shell was launched and shortly after the arrival of the observation trains, the referee's boat and the Regatta Committee boat steamed up to Yale's quarters to notify them to prepare for the four-oared race.

A little later the Yale Freshmen crew was on its way to the Navy Yard.

**THE RACE.**

**GALES FERRY, June 25, 1:34 p. m.**—The 'varsity race has started. Both crews caught the water at the same time. In a moment Harvard had crept ahead by a quarter of a length. Harvard rowed a stroke of 36 to the minute, but Yale kept down to 33.

Both eights splashed a little on the way to the half mile, but both were rowing in excellent form. At the half Harvard increased her lead to half a length.

Both crews then shortened their stroke. Harvard rowing 34 and Yale 32.

Harvard covered the mile in 5:06 2-5; Yale, 5:07 4-5.

Coming down to the mile and a half mark, Yale spurred until she drew up even with Harvard and just before reaching that mark Yale drew ahead. The time at the mile and a half was:

Yale, 7:40.  
Harvard, 7:42.

Half way between the mile and a half and two mile stations, Yale was leading by more than a length, but when the two mile point was reached Harvard had cut down her lead to three-quarters of a length. The time at the two miles was:

Yale, 10:23.  
Harvard, 10:28.

Yale, however, spurred once more, and soon after leaving the two mile point had increased her lead to a little more than a length. At this time both crews seemed to be holding themselves well in hand for the finish, rowing very smoothly. Passing the two and a half mile point, the time was:

Yale, 12:26.  
Harvard, 12:33.

After leaving the two and a half mile mark, Harvard pulled up nearly even, but could not hold her gain. The time at the three mile post was:

Yale, 15:15.  
Harvard, 15:22.

As the contestants drew near the three and a half mile mark, Harvard began to close the gap, but Yale was rowing easily, the latter's time for the three and a half miles being 18:15; Harvard, 18:21.

Yale won by about four lengths. Official time:

Yale, 23:39.  
Harvard, 23:51.

**CHARGED WITH MANSLAUGHTER.**

Cheser Ratto, the driver who ran over a child, was booked at the City Prison today on a charge of manslaughter. He was released on \$1000 bonds furnished by Peter Perata and D. Zuenino.

**POLICE COURT CALENDAR.**

Police Court Calendar, June 25: James O'Neill, drunk, judgment suspended; W. G. Glinora, Edward Marks and George Opydke, drunk, \$8 or three days; George Opydke, petit larceny, continued to June 26 to file complaint; Roy Wright, violating bicycle ordinance, bail forfeited; Annie Ross, vagrancy, continued to July 13 for trial; Art Sparman, assault with a deadly weapon, continued to July 2 for examination; John Dunbar, violating ordinance, \$5 or 2 1/2 days; Joe Salosse, disturbing the peace, continued to July 1 for trial; Luther Davidson, battery, continued to July 24 for trial; Tom White, battery, continued to June 30 for trial; C. W. Messersmith, wilful neglect, dismissed; Geo. Num, selling lottery tickets, continued to July 8 for trial.

SUPERINTENDENT T. O. CRAWFORD.

T. O. Crawford, Superintendent of the County Schools, has been appointed to superintend the education display from this county to the St. Louis fair. He will get up an exhibit that will be a credit to the county. Mr. Crawford is one of the leading educators of the State and is just the man for the place.

MISS GRIMMER JAP DISAPPEARS IS A BRIDE SUDDENLY.

**POPULAR YOUNG LADY IS MARRIED IN ALAMEDA CHURCH.**

**ALAMEDA, June 25.**—At 2:30 o'clock this afternoon in Christ Episcopal Church, Alameda, Miss Della Grimmer became the bride of Dr. William Shepard. The wedding was very quiet and was witnessed only by the immediate relatives.

The bride looked very lovely in a charming gown of white silk. She carried a shower bouquet of lilies of the valley. She was attended by Miss Tiny Shepard, a sister of the groom.

Following the ceremony the young couple departed for a fortnight's honeymoon at the Geysers. Upon their return they will reside in a pretty home which is being fitted up for them in Alameda.

The bride is a native of San Jose, where she has hosts of friends. She has also many friends in Oakland, although she has resided here but little over a year.

The groom is a prominent young dentist of Alameda, and is well known in fraternal and social circles. His father is a member of the firm of Shepard Bros., wholesale plumbers of San Francisco, and is one of the pioneer residents of Alameda.

GETS JUICE FROM OAKLAND

**TRUSTEES OBJECT TO SOUTHERN PACIFIC GETTING CURRENT ELSEWHERE.**

**ALAMEDA, June 25.**—Some days ago the Southern Pacific Company notified Superintendent Wiese of the city electric department to remove the municipality's wires from the Narrow Gauge Mole, as hereafter the company would get its current from Oakland. A cable has been laid across the Estuary and the power is now being received from Oakland.

A question has arisen in the minds of some of the trustees as to whether the railroad has the right to discontinue the use of the city's current and purchase power from out of town. City Attorney Simpson has been consulted in regard to the matter and is now engaged in looking it up. He said the fact that the matter had been placed on the Oakland side of the Estuary, enabled the railroad company in a measure to evade the city's objection. The company has its own cable and so could prove the current was its own. The Oakland Electric Company would thus not be selling electricity in Alameda.

Some time ago, when the United Engineering Works at the Webster street bridge, wished to get a current from Oakland, it asked permission of the Board of Trustees.

It is believed by many that the Southern Pacific Company should have done the same before getting its current from Oakland.

**ALAMEDA, June 25.**—Superintendent of Schools Hughes this morning announced the assignment of teachers in the various schools for next year.

Principal John M. Young of the Haight School, will be at the head of the new Porter School. Fred T. Moore, principal of the Longfellow School, will succeed George Kierulff in the Mastick School. Principal Kierulff retiring. The new principals have been placed as follows: W. W. Kemp at the Longfellow, Duncan MacKinnon at the Haight and C. B. Miller at the Wilson. The latter succeeds O. E. Swain, whose retirement caused so much comment. Arthur Mock is retained as principal of the Everett School and Dr. A. W. Scott will remain at the High School.

A number of changes have also been made among the regular teachers. The re-occupancy of the Porter School caused a number of shifts in all the other schools to supply the vacancy.

The following is the assignment of teachers for the new Porter School: John W. Young, principal; Elizabeth Elliot, first grade; Mrs. J. Babson, second; Violet Turner, third; Lillian Clarkson, third; Anna Keegan, fourth; June G. Painter, B fourth; Helen Sullivan, fifth; Lillian Roden, Mabel Gallego, Maude Powell, Agnes Frisius, Alice Bailey, grammar grades.

**SURRENDERED BY HIS MOTHER.**

**ALAMEDA, June 25.**—Walter Burns, the boy who was arrested by Detective George Brown for stealing sacks from the stable of P. F. Kellog, and who afterwards escaped from the officer, was surrendered to the police yesterday by his mother. He was locked up in the city jail over night. This morning, his father, a well-known local expressman, had a talk with the prosecution and Judge Tappan. The result was that the complaint against the lad was withdrawn, and the proceedings staid, in order to give the lad an opportunity to mend his ways.

**BODY IS IDENTIFIED.**

**ALAMEDA, June 25.**—The nude body, which was found by four boys floating in the bay near Regent street Tuesday evening, has been identified by J. W. Dowling, a carpenter of Emeryville, as that of James Summers, who lost his life June 16, while trying to recover tools he had dropped off the Emeryville wharf. Summers was in the employ of the syndicate constructing the long wharf at Emeryville. He had dropped a track-gauge into the water and, fearing a reprimand if it were lost, dived after it and as a consequence lost his life. Deceased was about 40 years of age and was unmarried.

The coroner's jury held an inquest over the remains in the branch Morgue this morning. A verdict of accidental death by drowning was returned.

MATTERS BEFORE PROBATE COURT.

An order was made this morning appointing E. D. Judd, J. B. Lanktree and Chas. Ural as the appraisers of the estate of Maria Jans.

A petition was filed today by Frank McGowan, of San Francisco, to be appointed administrator of the estate of Alfred Schneider, deceased. The estate is estimated to be worth about \$4000. McGowan files his petition at the instance of Schneider's son and heir.

An order was made this morning by Judge Greene finally ending the trust fund in the matter of the estate of Chauncey Taylor, deceased, and allowing Mrs. J. Taylor leave to distribute all the property now held by her as heir of her husband. The heirs are William H. Taylor, Henry E. Taylor, Bertha Isabel Foote Jackson, Chauncey T. Foote, Henry S. Foote, W. W. Foote, Jr., and Enid Foote.

PRESS CLUB DAY AT THE CARNIVAL.

The Oakland Press Club will endeavor to make a distinctive day at the street fair and carnival and to this end Thursday, July 2d has been set apart by the directors as Press Club day. The young organization is anxious to show what it can do in this line and preparations are being made to pull all the strings in its power to make this one of the greatest days of the street fair and what it cannot do itself it believes it can get others to do for it and the aim is to have a unique exhibition that will please its visitors.

QUIET REIGNS.

**UNRULY ELEMENT IS APPEASED BY VERDICT OF CORONER'S JURY.**

**WILMINGTON, Del., June 25.**—The verdict of the coroner's jury in the case of George White, the negro who was burned at the stake, and the release of Arthur Corwell on bail seems to have appeased the unruly element here. For a time last night there appeared to be danger of a race riot, but when it became generally known that Corwell had been discharged, all disturbance ceased and all is quiet today. Corwell protests that he was not present at the lynching. Other arrests are not expected.

The authorities today are endeavoring to locate the leaders in last night's disturbances. William H. Wolfe, who was arrested for attempting to assault Chief of Police Black when the crowd was ordered away from the police station, was fined today and discharged.

**FOUGHT A DRAW.**

**SEATTLE, June 25.**—Indian Joe Gregg and Perry Queenan fought a nine-round draw at Georgetown, a suburb of Seattle, last night. The red man had to have the money in sight before he would go on but then he put up a good fight and in the end the spectators were pleased.

The difference between Bowman's drugstore and others

There is no substitution in any department at Bowman's. We give you exactly what you ask for no matter whether the article is sold at a profit or not. Other drug stores advertise at the same old prices that we do, but deliver the goods with great reluctance and only after they have exhausted every argument in favor of substitute preparations of their own put up under names of firms that never existed.

You get what you ask for  
You get it pleasantly  
It is fresh and genuine  
The price is the lowest  
If you get it at

1109 Broadway  
14th and Broadway  
13th Ave. and E. 14th St. Oakland

MILLIONS WILL BE EXPENDED.

**NEW ORLEANS IS GOING IN BIG FOR SANITARY PLANS.**

**NEW ORLEANS, La., June 25.**—With formal ceremony today in the presence of a large assemblage of citizens, Mayor Paul Capdeville turned the first spadeful of earth in the work of constructing the vast system of sewerage, water and drainage, which is to place New Orleans abreast of the best sanitary cities of the world, and which is to cost roughly estimated, \$18,000,000. The great undertaking is to be finally completed within five years.

The Governor, the United States Senators, members of Congress, State and city officials, municipal officers, the Supreme Court judges, the clergy, leading business men and the various committees which have been identified with the sewerage movement, occupied seats on the platform. A special guest of honor was former Secretary of the Treasury Charles S. Fairchild.

The movement which culminated in the final breaking of ground today followed the epidemic of fever in 1893. Though the disease was mild and the mortality comparatively insignificant, immense business losses were suffered through the institution of prohibitive quarantines and a great public demand was aroused for adequate sanitary reform.

For Sale. Moved to our store and must be sold, a lot of furniture, equal to new. H. Schellhaus, 1000 P. Building, corner store, Eleventh street.

Ramblers are Here. Ramblers have arrived. Our long delayed shipment has reached us. Call and see them. George A. Faulkner, 251 Twelfth street.

Why don't you get that Kodak?

We have a complete stock of them—every model made—from the kind that takes a picture 2 1/2 inches square and sells for \$1.00, up to one that takes a picture 8 x 7 carrying a Goerz lens and Volute shutter and worth about a hundred dollars. If you have a camera we would like to have you read what we have to say.

About Developing

When a customer entrusts films or plates to us for development, we realize at once that we have accepted a responsibility.

We realize that aside from the first cost of material, he has oftentimes been to great expense, perhaps accompanied by painstaking care and even personal hardship to secure his pictures; and we feel that he is entitled to have every detail brought out from each individual exposure. To this end we have spared no expense or thought in the perfection of our facilities and methods for handling this work. We have personally inspected the largest of the Eastern establishments where developing and printing are done. We keep in touch with the recognized authorities on development and avail ourselves of such new methods as are of established merit. The results are most gratifying. The work is nowhere handled any better, and our business grows and grows.

Pogue's run was named for this pioneer. He was killed by Indians on Blue river in 1822. The Indians had stolen his horses, and George Pogue went to recover them. He never came back. His gun was found and his dog returned home.

The scissiors made by the pioneer blacksmith are crude in comparison to the bright finished scissors one may buy at a department store today, and they have long blades, coarse teeth and a plain handle.

The scissiors have been passed down through the family for eighty years, Dr. Stoddard receiving them from his grandmother. He says that he has never used the scissiors, he will probably give them to the State museum.—Indianapolis News.

# New Things Strange & Curious

## GIANT PRESS IN COUNTERFEITERS' DEN.

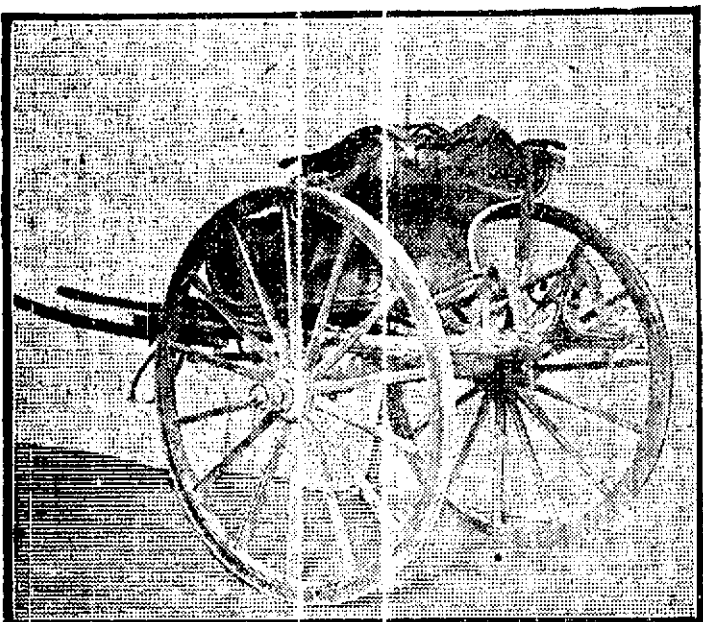

This is the inside of a room in Philadelphia in which counterfeiters practiced their trade in Philadelphia. The huge machine in the middle was used for minting silver pieces. The coins were good imitations, and it was some time before the government detectives ran down the gang engaged in manufacturing them. So ponderous was the apparatus em-

ployed that it required the muscular effort of two strong men to revolve the great horizontal bar which screwed down the massive iron block that served as a press.

The Bank of France can compel customers to accept one-fifth of withdrawals in gold coin.

## FINE OLD DUTCH COUNTRY CHAISE.

Nothing recently brought to this country from out the Old World treasures can quite eclipse in unique style the elegant "old Dutch country two-wheeled chaise" pictured here, and owned by a well-known society woman of New York. It was built about 1750 by the celebrated carriage builder Mulder, of Holland, and is the only sample of his splendid work in existence.

It is as strong in every part as on the day the builder turned it out. The body of the vehicle, a rich golden brown, has profuse hand carving. The Holland seasons are represented on the panels in softened tints; the wheels are green, with carved and gilded spokes; the curving springs at the back are curiously ornamental, and it is used for two horses, tandem.

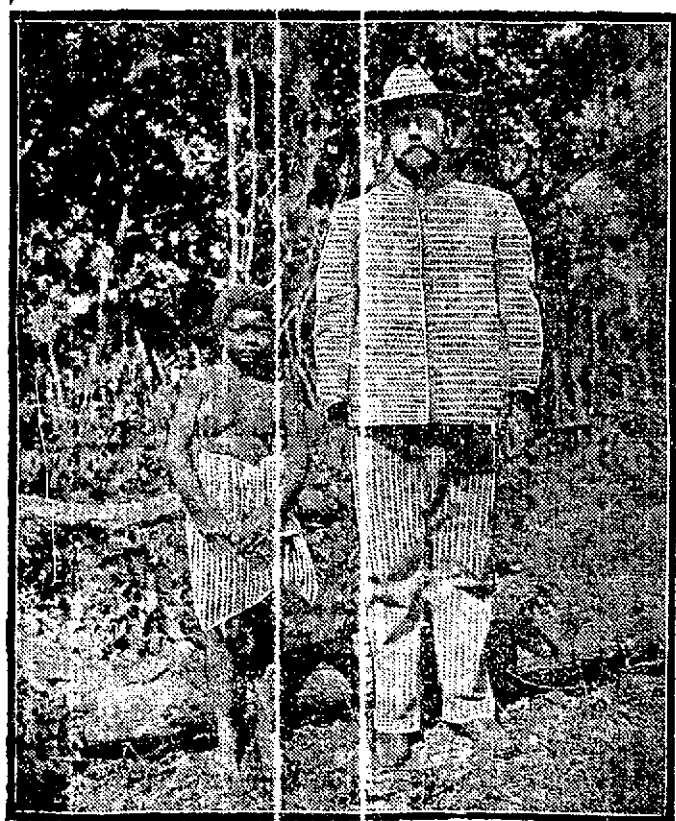

## CHARACTER TOLD BY SHOES.

Boatpolology is the name of a novel method of divination which is now attracting some attention in Europe. It was invented by a scientist of Basle, and it is based on the assumption that the character of any person can be told from his shoes.

Here are a few of the principal rules: "When a heel and sole are worn equally, meaning thereby when neither is in a worse condition than the other, one may be confident, if a man wears the shoe, that he is energetic and is endowed with excellent business ability, and if a woman, that she is loyal to her husband and a good housekeeper.

The outer edge of a sole, if much worn, is a sure token of a fantastic, wayward spirit; but, on the other hand, if the inner edge is worn, the wearer is timid and irresolute. "When the shoes are much worn along the outer edge and the leather around the toes begins to look shabby, the other parts of the shoes meanwhile being almost as good as new, one may be confident that the wearer is a rogue.

## WOMAN IN MINIATURE.

Much curiosity has been felt regarding the woolly headed black dwarf of our newly acquired archipelago in the Southern Pacific. The photo presented herewith shows what very little people they are, the woman being full grown and about 18 years of age. She

does not reach much above the elbow of the white man standing by her side. That she is of full Negro blood is shown by her hair. The 210,000 acres of British orchards yield nearly 85,000 tons of fruit.

## Ingenious New Hatpin.

Very different from the ordinary hatpin, which, it must be acknowledged, is decidedly primitive, is the new hatpin shown in the accompanying picture. It is composed of a needle, a head, a spring tongue, and an open sleeve or slide. The spring tongue is attached to the needle, and is designed to keep the latter in proper position, and on the sleeve are a stop-and-dodge grip, which are intended to prevent the needle from being inserted into the hat further than is necessary. Owing to this simple but effective mechanism, a pin of this kind, when put into a hat, cannot change its position.

As a weapon the ordinary hatpin has been

come rather notorious, but it is unlikely that much serious warfare will be waged with the new device, for, in the first place, the needle is encumbered with a spring, a tongue and a wide, and, consequently, cannot prove very harmful, and, in the second place, because when it is once in position it evidently requires a minute or two to remove it, and hence it is not so available as the old primitive hatpin.

The duty on paper imported into Germany is about \$22 a ton.

## Test For Children.

Hand a person two objects which are of exactly the same weight, but of different dimensions, and the chances are a pretty good one that he will pronounce the smaller to be the heavier of the two. The reason is evidently because it is natural, though a curious one, to suppose that the more compact body is the more heavy it is bound to be.

Dr. Demore, a well-known Belgian physiologist, recently tested several children on this point. He gave them two black bottles, each containing a similar quantity of heavy powder and one of which was much larger than the other, and of the 380 children whom he examined 370 said promptly that the smaller bottle was the heavier. Only 10 answered correctly, and Dr. Demore soon found out that they were idiots.

Prof. E. Manneke applied the same test to a class of backward children in Geneva and discovered that it was an admirable method for discovering the exact amount of intelligence possessed by each child. Four of his pupils invariably picked out the bottle which was really the heavier, and these four were the dullest and in all other respects the most unpromising in his entire class.

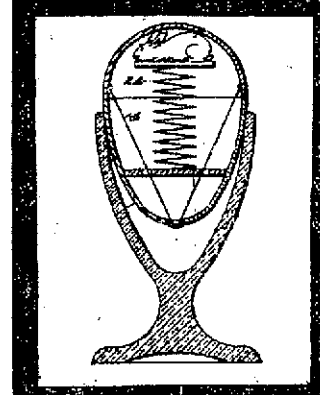

## The Smallest Watch.

There lives in Cincinnati the proud possessor of the smallest watch in the world. It measures less than one-quarter of an inch in diameter, and the face is about the size of the head of a large tick or nail. The case is made throughout of gold. The face is covered, the case being opened by resting the stem as is ordinarily done. The length of both hands, if placed end to end, would not be more than five-twenty-fourths of an inch. The second hand is one-sixteenth of an inch in length. The numerals are in Arabic and are engraved in red, to be more easily discernible. The works and hands are made of the finest tempered steel, and the works are set throughout in diamond chips.

## An Amusing Toy.

One of the most difficult things to invent is a toy which will amuse children, not for a day or two, but as long as they remain children, and those persons who are competent to speak with authority on the matter maintain that those toys which represent animals in motion, or of which animals are the principal parts, are more likely to become popular than any others.

If this be true, the toy shown in the accompanying picture ought to be hailed with delight by children, since an animal plays the most important role in it; indeed, without the animal it would be an uninteresting thing.

The toy is egg-shaped, and in the upper part is an animal, which can be covered if desired. The animal is held in position by a spring, and another spring comes into play when the cover is to be removed. It is evident, therefore, that the toy in its normal condition looks like an ordinary egg, and that the child who receives it as a gift does not realize what a treasure it has obtained until the cover slowly disappears and the cunning little animal shows itself.

## VASE RESTORED FROM 638 FRAGMENTS.

To the great delight of the art world, the famous Francois vase, the most important monument of the temples of Solon and Plistarchus, and the most precious example of Grecian art in the sixth century before Christ, has after years of toil been restored and again placed on exhibition in the Etruscan Archaeological Museum.

Consistors are of the opinion that this most valuable and noted antique ceramic piece is more to be admired than ever before, since the 638 pieces into which it was broken have been so ingeniously put together.

Student, artist and traveler, when visiting the museum, are always sure to enter the Palace of the Crocetta, tarrying long in the center of the gallery, where since 1882 until the time of the great catastrophe which befell it in 1900, and which it was feared was irremediable, stood the celebrated Francois

vase. This rare old specimen of art has a most remarkable history. Signor Alessandro Francois found the vase in October, 1844. It was inside a vault located within an apartment belonging to the Grand Duke of Tuscany, at Forte Rotelli, near Chiusi, or, to be strictly accurate, he found only two-thirds of the body of the vase, with only one of the handles, in the first place. A year later he came across some other remarkable pieces, among which was the second handle. Years afterward another fragment came to light, and was handed over as a gift to the museum in 1896 by Marquis Charles Strozzi, when the parts previously found were put together and so firmly fixed that the vase remained undisturbed until smashed into fragments by the blow received three years ago.

## TYPES OF PHILIPPINE HEAD HUNTERS.

A private letter to a gentleman in New York who recently returned from the Philippines gives an account of a curious discovery just made a few miles from the town of Baguio, in the Province of Benguet, in the northern part of Luzon, the principal island of the archipelago. Native miners, working with pick and shovel, found in a gravel hill, a stone-built coffin about four feet and a half long, two feet and a half wide and two feet and a half deep. It had no other bottom than gravel, the sides being built of several stones and the cover being one entire

stone. The body was not lying at full length, as by the size of the bones, it appeared to have been about six feet long. They were found among the bones three fine stones, the largest of which is about nine inches long, resembling the point of a battle, the edges and point sharp like a spear, and the other end round, as if fitted for a handle; another of a circular form and sharp in the edges, about three inches in diameter. There was likewise found a kind of a ring, neatly carved, about three-fourths of an

inch thick, in which were two small holes, by which it seemed to be hung by a string. It admitted a man's finger, being two inches and a half in diameter. It is the opinion of those who have viewed the discovery that the stone coffin was the resting-place of an Igorrote chief. At certain seasons of the year the Igorrotes rouse themselves from their lethargy and go out on what are called head-hunting expeditions. The warrior bringing in the largest number of heads of enemies slain is declared chief until the occasion of the next expedition.

## Eyesight And Electricity.

Hitherto it has been supposed that electric light is more injurious to the eyesight than any other artificial light, but Russian oculists who have been closely studying the subject now maintain that, on the contrary, it is less injurious than the light either of gas or candles or any other material. As a reason for this statement they point out that diseases of the eyes are in proportion to the number of times the eyes blink or wink when subjected to artificial light, and that after numerous tests had been made it was found that the eyes blink about seven times a minute when exposed to candle light, about three times when exposed to gas, twice when exposed to the sun and only once when exposed to electric light.

## Mechanical Novelty.

A new form of Noah's ark, one of the latest mechanical toys, The animals are attached to arms on a rotating shaft; a turn of the crank sets the shaft spinning, and the child looks through the doorway to catch a glimpse of the animal, which it cannot see properly till the shaft stops. Only one animal can be seen at a time at each stoppage, and the chance against the same animal stopping opposite the doorway twice in any given time are very small. Thus the child is always wondering how many animals are in the box.

In London each day 400 children are born and 250 enter school for the first time.

## His Remedy.

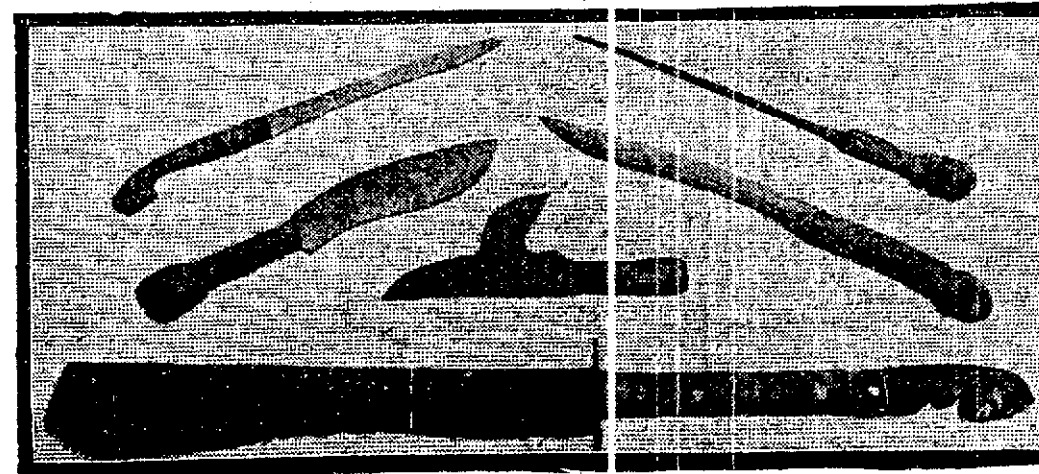

Recently a hotelkeeper of Nyitra, in Hungary, was informed by his guests that it was impossible for them to sleep on account of the concerts which were kept up in the lower part of the building until a very late hour, and that they would be much obliged to him if he would provide them with some remedy. A few days later every guest found in his bedroom a small package containing a night cap, some cotton wadding and a printed notice which read as follows: "If the musicians make too much noise all you have to do is to stuff your ears with the cotton and draw the night cap down over your face, for then you will fall asleep very quickly."

## KNIVES OF THE CHINESE HEADSMAN.

For centuries the murderous-looking weapons shown in the accompanying pictures have been used in China for the purpose of putting criminals to death, and as no country is more conservative than China the outlook is that for a long time they will continue to be used for this purpose.

Every headsmen or executioner is provided with a full supply of such weapons, and he takes pride in keeping them bright and sharp. Each weapon is designed for a particular purpose, and at least two or three weapons come into play whenever an execution takes place. Many harrowing stories have been told about the manner in which criminals are put to death in China, and viewed from a Western standpoint, such executions are not a very pleasant sight. It

is generally admitted, however, that in almost every case the executioner does his work skilfully, and that it is not his fault if the sufferings of the victims are unduly prolonged. He knows how to deal blows which will kill swiftly or slowly, and if he does not always kill swiftly and mercifully it is because he has received instructions to the contrary.

## Modern Sun Worshippers.

In Europe several persons now sedulously pay homage to the sun, and in a learned journal, entitled "L'Ecole Nouvelle," one of them maintains that the sun should be especially honored at Christmas.

"Christmas should be regarded as a festival for the benefit of humanity," he says. "In this way we can once more become united with the Aryans, our ancestors who worshipped the sun and who celebrated the birth of the divine constellation, who is the father of light, of heat and of life."

He then suggests that the following prayer be said daily:

"O thou, who causest life to vanish, who drivest away the evil influence of prodigies, of malignant predictions, of dreams and of wicked apparitions; O thou, who bringest to naught the plots of the wicked, to thee we pray, Lord Sun, since thou art the light of the world."

## His Own Grandfather.

Beppo Bruzoni, a Neapolitan sailor, is a living proof of the fact that a man can be his own grandfather.

"I married," he said, "a widow, and she had by her first husband a handsome girl named Silvieta, with whom my father fell in love and who became his second wife. Thus my father became my son-in-law and my stepdaughter became my mother, since she had married my father. Soon afterward my wife gave birth to a son, who became my father's stepbrother and at the same time my uncle, since he was my stepmother's brother."

"But that was not all, for in due time my father's wife also gave birth to a boy, who was my brother and also my stepson, since he was the son of my daughter. My wife was also my grandmother, for she was the mother of my mother, and thus I was the mother of my mother, and at the same time her grandson. Finally, the husband of a person's grandmother is naturally that person's grandfather, I am my own grandfather."

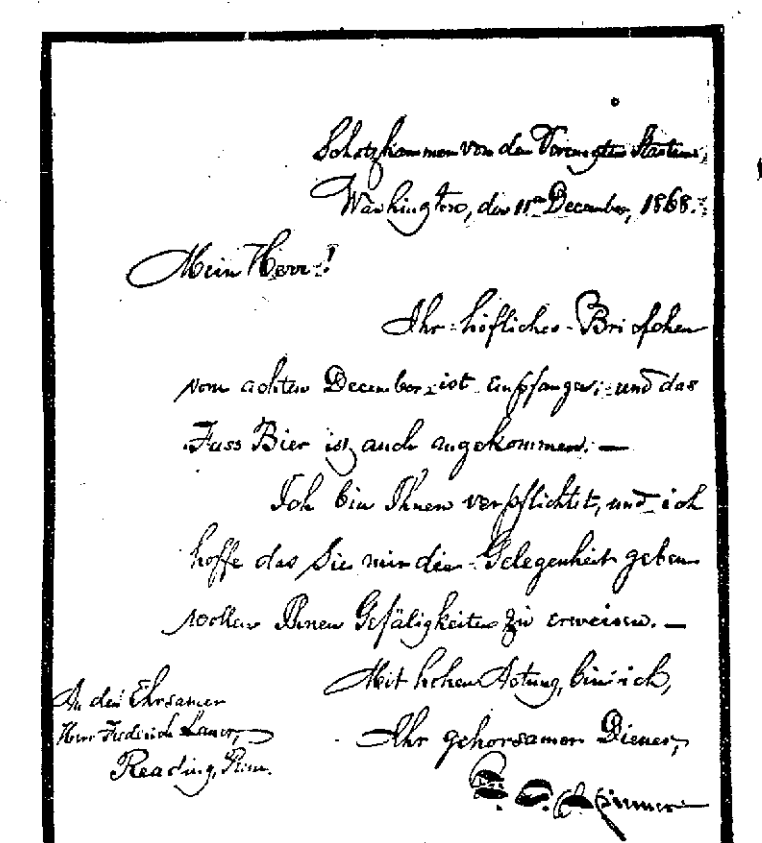

## Man-Like Root.

The remarkable resemblance to the human figure which this root bears has caused the Chinese to regard it with a superstitious reverence. They believe it is a panacea for all the ills to which human flesh is heir.

The root was photographed just as it was dug from the ground in a garden near Cuba, N. Y. As will be noted, its resemblance to the human form is wonderful, for it has a waist, head and neck, arms and legs. It is one of the most valuable products which grows from the soil, and a large quantity of it is used in America for medicinal purposes.

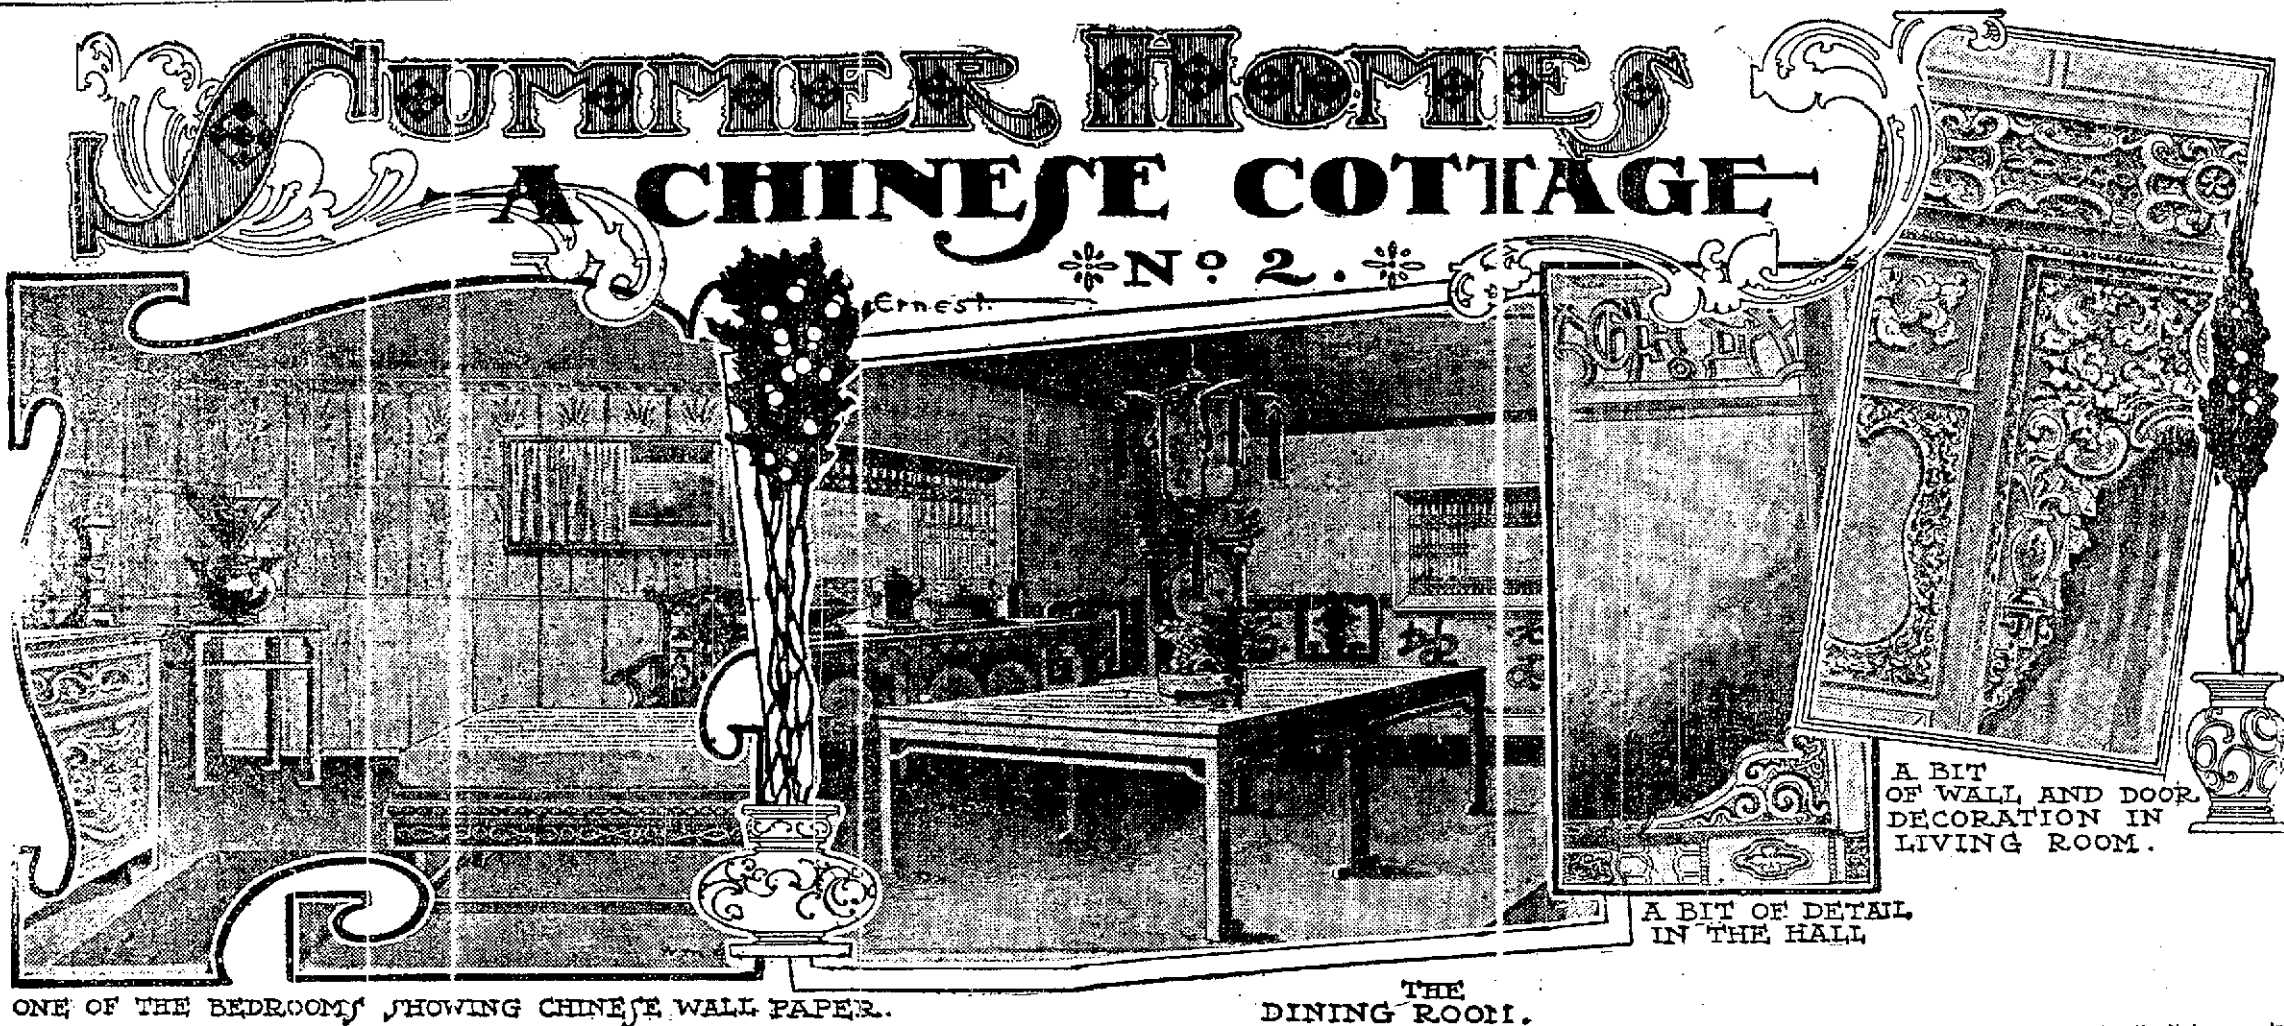

## MR. SPINNER APPRECIATED BEER.

The name of Spinner has appeared upon millions of dollars of United States banknotes, and the signature is one of the most precious among the collections of numismatical enthusiasts. This Treasury official, it is told, could write his signature with amazing speed, and encompassed so great a number during a day that a like amount of work would cripple the fingers of an ordinary man or make them fruitful in corns. The letter given herewith shows that Mr. Spinner wrote a fine German text, and was keenly appreciative of good beer, which never at any time caused his hand to defect a hair's breadth in the certainty of his curious signature.

# A Page of Interest to All

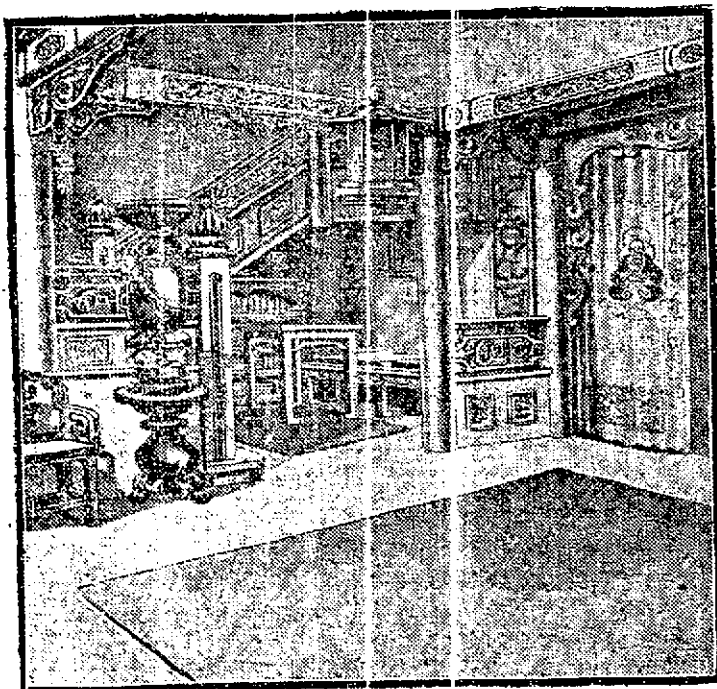

Copyright, 1907, by W. M. Butterfield.

After the talk with Jones about his Chinese cottage, Jenkins went home and read up on China, so that when they took up the subject again he had a lot to say about the philosophy and religion of the Chinese as well as their art and architecture.

"I like your cottage," he said, "because it embodies one of the most admirable of Chinese principles. You know they have a religion of home life which, although somewhat fanciful, is entirely followed. Almost every Chinese house has either a 'hall of ancestors' or at least a closer shrine than that. The family altar is kept. We have our altars and family Bibles, but it cannot be said that we show a reverence for our ancestors in any way comparable to that of the Chinese. Our creeds and general ideas are far from having any connection with religion. Reverence for the aged and for the dead as it is known in China has an influence upon their political and social life. It influences the habits, the architecture and the adornment of the home as well as of the public edifice. Your cottage, therefore, is more than interesting. It is, as the architect says, 'significant of a thought.'"

## Chinese Have Religion of the Home.

"Yes," assented Jones, "the Chinese have carried their religion into the home, and if we have not a religion of the home, we can at least cultivate a love for the home. More than half of our lives is spent there, and our habits and feelings should stimulate our ambitions and as far as possible aid our pursuits. The physician often recommends a certain housing of the patient, a particular exposure or furnishing of a room. If these things are vital to the reviving of health it is no less important for us to live in a house properly constructed when we are well. Architects high in their profession are aware of all this, but unfortunately such talent is beyond the purse of the ordinary home builder. Although it is recognized that style is influenced to a great degree by location and climate, yet, this fact eliminated,

The Hall and Din.

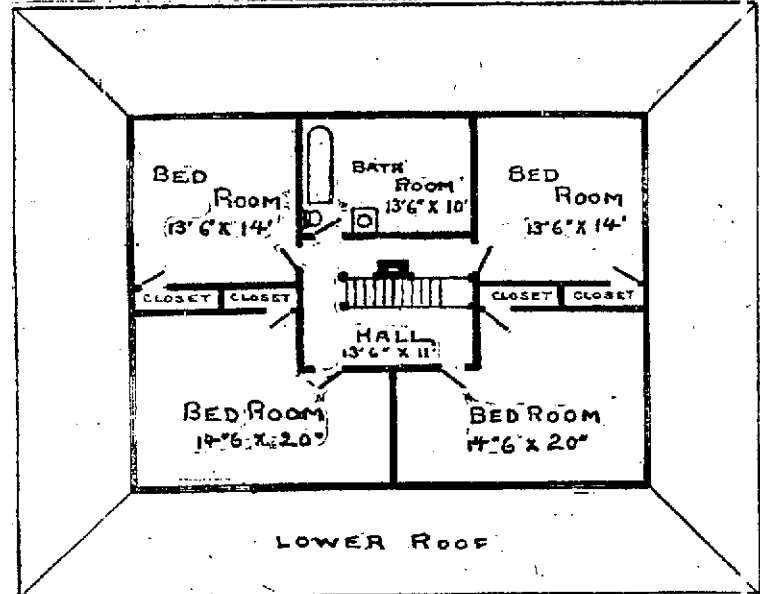

one can regulate the shape and period of a house as well as the size and cost. It is to be regretted that the difference between the builder and architect is not more generally known, for there is, unfortunately for those who are the possessors of or who want to build a low-cost house, a vast difference. One can construct a building, but has little or no knowledge of style or true architecture. It is unsafe to undertake the erection of a house unless, first, one is sure that the style chosen is suitable to one's tastes and requirements, and, second, the four neces-

sary features—drainage, ventilation, lighting and heating—are positively present in the arrangement for building. One can become familiar with style by reading up, as you have done with my cottage. It may be better, perhaps, but upon the choice of style my depend the happiness and contentment of a family; the sanitary features may insure its health."

"I never thought of the home in that way," said Jenkins, "but it seems reasonable to suppose that the home surroundings which the hours of rest, contemplation and pleasure are spent in, to a degree, influence one's habits as well as one's character. It is a vital question, not only to the family, but to the government, and one is ready to join hands with the Municipal Art League for the preservation and adaptation of suitable forms in building and decoration. Although a question of that worthy society has gone so deeply into the matter as to assume that their reforms should start in the homes of the citizens. But we have had a serious talk over to trivial a matter as a summer home. I had no idea of leading you on like this when I referred to my Chinese researches."

"Nothing is trivial that pertains to the making of a home—well, settled, but here are the drawings I promised to show you last week. This sketch of the dining-room, you will notice, is plain and simple as compared with the living-room or even the hall. This is partly intentional and partly it is caused by a desire to use such furniture as I have been able to collect. In the corner is shown a simple drum, of which I am quite proud, and which is said to be very old. It once occupied a Shintoist temple. You will recall that Buddhism supplanted Shintoism in Japan in 552 A. D. It is quite likely that if genuine it may have considerable age. The windows are copies of those shown in a Chinese interior—a wood cut impression made in 1830. They are easily made and will cost but little."

**Furnishings Collected Gradually.**  
"The lantern was obtained for \$2, the Bon-

Second Floor Plan.

signs of various kinds in plaster. Sometimes it is done directly upon the wall or object to be succeeded, again the designs are succeeded upon burlap and then nailed or glued in position. The frieze and panels upon the wall in the "living room" will be done upon burlap. The room when ready for this work will be carefully measured and outlines of the widths and heights of frieze and panels marked upon the wall that opening and proportions may be correct and from these measurements the moulds for the designs will be made. Afterward the stuccoed frieze in sections and the panels will be glued in position upon the wall. In these designs of the panels, frieze and a portion of the grill in the doorway a good idea of the designs and their appearance upon the wall can be had. The grill will not be stuccoed, but made of plaster, glue and hair, and it will be modelled and finished before putting in place. The designs upon the brackets and posts in the hall will also be of stucco, while the Chinese characters, which take the place of splashes in the hand rails, will be made of three thin pieces of wood, glued together to insure them against splitting and then cut into form with a file. The center rails and design are all in one piece. Here shown is a sketch of the arrangement of the hall, and now we

## Elaborate Gowns That Weigh Less Than A Pound.

French women may surpass others in the frugality of their dress, English women in business, but the American woman has gone beyond them all in extravagance. The summer girl will expend an immense amount of money for what, in weight, is practically nothing.

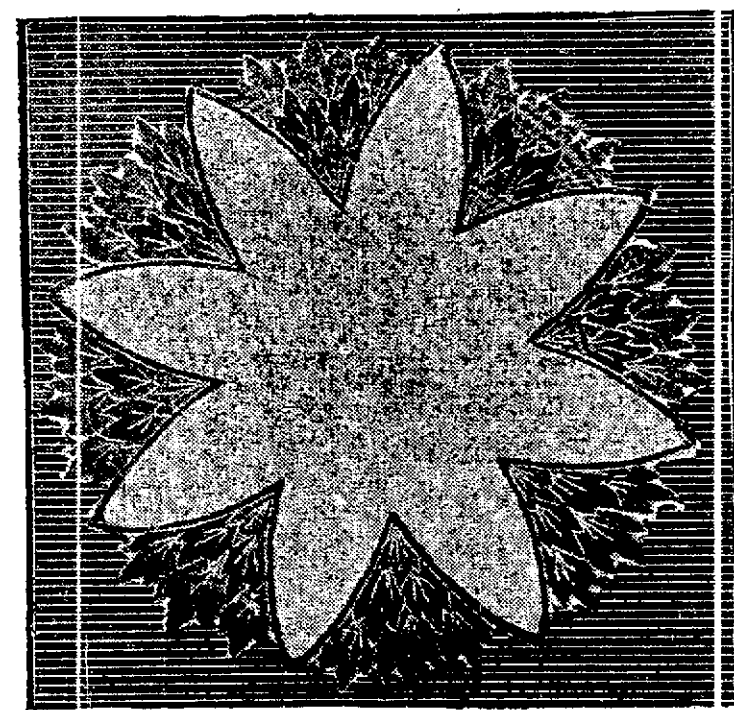

Seven ounces is the least her summer gown can weigh; 14, and be quite correct, is the most, says one authority; but what she may pay for these few ounces is another matter. Her modiste's bills will run along the clouds and hundreds for even the seven ounce gown.

You cannot put a gown through a wedding

ring as you could the proverbial white mullet of your grandmother's time, but you can hardly feel its weight as you pick up a rail and skirt of a chiffon texture, made over chiffon skirts and worn with a chiffon expression.

The object of the ten ounce gown is, first, comfort. In hot weather the less you wear the more comfortable you are—that is a fact; but the texture this gown is made of determines its expense, and the under skirts play a great part in the appearance as well as in the expense of the gown.

A pretty gown in one of the closets of a Parisian modiste is made of cream lace and

A Doyile Worked in Rich Colors.

may say with the good Christian, "We are done here below and are ready to go above."

A floor plan always reminds me of a rebus or a particularly intricate hieroglyphic. Nevertheless I make out that there are to be four bedrooms and a bath and a bathroom. The lower floor is the one covering the porch, I presume. I also discover that there is a closet for each room, and that each room has two windows—a proof that consideration has been given to ventilation correctly.

"You have read the curriculum correctly. Here is a sketch less difficult to decipher, a suggestion for one of the bedrooms. In front of the altar in the Buddhist temple upon which are placed the vessels of ashes in which the incense sticks are placed, and beside which is a shallow dish filled with pebbles and water, holding a growing narcissus, is a sort of carved bureau—you will see one of these affairs in the sketch. It is to be used as a bureau. In front of the altar in the temple is placed a large table, on which five bronze vases are placed—the end ones for flowers, the center one for the symbols of the three Buddhas and the

as one as a spider web, and is embossed in the lightest gloss, with a dainty Chinese pattern. This is a decorative and nothing to the weight of the gown and gives just the touch of trimming necessary.

Then there are the pineapple gauzes that look so simple and are really elaborate and expensive in regard to labor. They weigh scarcely more than a feather, but their cost would make the scales dip heavily.

White pineapple gauze and chiffon, a combination of two expensive materials, make a beautiful gown. The undershirts make a sort of a net, weighing scarcely more than the gauze, and are ruffled with a single thread lace, effective and light. There are no laces in the undershirts; they work in the lightest, daintiest and, of course, the most expensive laces are used.

Chiffon takes the place given to lace in the past, and does not buy lace that weighs much. This is prohibited, and only the lightest, daintiest and, of course, the most expensive laces are used.

others for candles. In the dining-room is this large Chinese table, which I shall use as the dining table, while upon the bureau you will see the bronze vases intended for candles.

"The bed is one made in China for an American, and brought here more than 60 years ago. Under the window you will see a chair made in England by Chippendale; it is as valuable a possession as I have. This great work of furniture considered the Chinese ornamentation sufficiently worthy of his attention to make furniture embodying that style. This is one of the Chippendale chairs in Chinese style. The lamp is one of the common Japanese bronze incense burners converted into a lamp, but the shade comes from Kwanan Temple, Tokio, and is to be used as it is shown in the sketch. The wall paper used by the Chinese is designed in panels and put upon the wall with narrow strips of wood dividing them. I shall have the walls smooth finished, then the strips will be placed in position and the design stretched between them. This will give the effect of the Chinese paper, without much trouble or cost."

## Some Novel Ideas.

In Europe there are a few persons who are certainly of an original turn of mind. One of them maintains that all wrinkles can be removed from a face by the constant application of an electric battery which is so small as to be almost invisible; another claims that fish can be utilized for the purpose of towing vessels; a third suggests that while a body is being cremated an orchestra should play funeral airs softly in the distance, this being in his opinion the most efficacious method of assuaging the grief of the mourners; and a fourth desires to have a law passed that every crematory shall be provided with a room in which appropriate depictions shall be recited by salaried poets while bodies are being burned.

The average duration of life in towns is 35 years; in the country, 55 years.

An Eight-Ounce Chiffon Frock.

## SUGGESTIONS FOR "THE FOURTH."

With cooks going out to celebrate, the children of the family too busy with their fireworks to lend a helping hand or scarcely stop it out of the ground, and a host of outside issues for the mother of a family to look after, the cold Fourth of July luncheon or dinner, which may be prepared in the early morning of the day previous, will be found to save much waste of "gray matter."

The wide semi-covered piazza is the ideal place for the Fourth of July luncheon; but if this is impossible, the dining room, decorated in the morning of the day, and shaded, will be all right. If the table is polished have it bare save for the pretty doilies and centerpiece. The flowers should be red, white and blue. All sorts of pretty favors and bouton boxes, sent to the occasion, running the gamut from the dainty stationery to a dozen toffeen bags and Uncle Sam hats at a dollar, may be purchased to add to the festive appearance of the board. The menu may be simple or elaborate, one something like this being suitable for a rather pretentious occasion:

iced Currants.  
Toad Boudin.  
Sautéed Almonds.  
Cold Salmon.  
Tongue in Aspic.  
Fruit Salad.  
Ice Cream.  
Cross Sandwiches.  
Ripe Olives.  
Sauce Tartare.  
Coffee.  
Rolls and Butter.  
Cheese Cake.  
Coke.

To prepare the tongue in aspic boil the tongue, smoked or fresh, on Thursday. On Friday make a good aspic jelly, using a pint of the liquor in which the tongue was boiled; one small cupful of beef or veal gravy, two tablespoonsful of vinegar, one of kitchen onions of gelatin in a cup of cold water, pour a pint of boiling water over it and stir until the gelatin is thoroughly dissolved. Add it to the other ingredients and strain through a funnel bag. As it begins to cool and set place a large mold in cold water in a pan of broken ice. Sprinkle a few capers or mustard seeds in the bottom and cover with a thin layer of jelly. As it begins to harden put thin rings of hard-boiled eggs around the edge of the mold and fasten with the jelly. When firm lay in the tongue whole, carved round and skewered into shape, or a layer of the aspic. If the slices are used pour the jelly over the first layer, wait for it to set, add more slices and more jelly until the mold is full, having the jelly at the top. Cover and set where it will be as cold as possible. When ready to serve remove from the mold on to a platter and garnish with scurlet and white geraniums. In serving cut in slices, and put on to each plate with the tongue and jelly a spoonful of sauce tartare.

## Ginger Beer.

Two and one-half pounds loaf sugar, one and one-half ounces whole ginger, bruised slightly, one ounce cream of tartar, two sliced lemons. Put into an earthenware vessel and pour over three gallons of boiling water. Let it stand until lukewarm, then add one-half pennyworth of Geyman yeast (about as much as a walnut, dissolved in a little warm water); mix well and let it stand overnight to work.

In the morning strain through muslin, bottle and cork very tightly, tying the corks down. It will be ready for use in two or three days.

## Strawberry Preserves.

Strawberry preserves are liked by almost everyone, but they are the despair of most housekeepers, because it is almost impossible to cook the berries and retain the lovely color, it almost always being either a dark or light cannot color. The following recipe is used by a Southern woman famous for the flavor and the coloring of her strawberry preserves:

Select nice strawberries, not too ripe. The first of the season are better for preserving than those later on. Wash and allow one pound of sugar to one and a quarter pounds of fruit. Put the sugar in an earthen pot and thoroughly moisten with cold water. Boil until it thickens, then put in the berries carefully to avoid breaking. Boil slowly 20 minutes. Take from the fire, cover the pan carefully, and put in a cool dark place. Let them stand overnight. In the morning, strain out the jars to be used with hot water and put the berries in the cold; then pour the syrup over them. Have the syrup fill the jar to overflowing. Seal airtight. They should be put into small jars or tumbler.

LEGAL  
OFFICE OF THE

**NOTICE TO TAXPAYERS**

Oakland, February 28th, 1903.

All Persons, Firms, Companies, Corporations and Associations, are required to deliver at the Assessor's office, at the Court House, City of Oakland, County of Alameda, California, on or before April 1st, 1903, a statement, under oath, of all the property, both real and personal, owned or claimed by him, her or them, or in their possession or held in trust for others, at 12 o'clock meridian on the

**FIRST MONDAY OF MARCH 1903**

In accordance with Sec. 3622, Political Code.

Every person who refuses or neglects to furnish the statement as provided for in Section 3629, Political Code, becomes liable to a fine of one hundred dollars and the value fixed by the Assessor, but the property must not be reduced by the Board of Equalization.

All persons owning real estate that has been assessed in the wrong name, or errors have appeared on their tax bills, are requested to call at the Assessor's office or notify the Assessor by letter on or before April 1st, 1903, so that the proper corrections may be made on the assessment roll for the year 1903.

Notice of Appeal to the Board may be obtained at the Assessor's office, room one, Court House, or from city Deputy Assessor.

**HENRY P. DALTON**  
Assessor of Alameda County,  
Oakland, California.

**OFFICE OF THE**  
**Assessor of Alameda County**

**POLL TAX NOTICE**

Oakland, February 28th, 1903.

Notice is hereby given that the Poll Tax of two dollars for the year 1903 is now due and payable at my office, room one, Court House, or to a Deputy Assessor.

Sec. 3639 of the Political Code reads as

Every male inhabitant of the State over twenty-one and under sixty years of age, excepted from the military and naval service, shall annually pay a Poll Tax of two dollars, provided the same be paid before the first Monday in March and the first Monday in July.

Then it shall be three dollars.

Sec. 440 of the Polition Code makes it the duty of the Assessor to "demand Poll Tax of every person liable therefor, and to receive the same, and to certify to the county clerk the names of such persons, and to pay, he must collect by seizure and sale of such person's personal property owned by said person."

Under Sections 428 to 435 every person who refuses to pay the name of such person of any person in his employ, or who in any manner obstructs the Assessor or his agent in the performance of his duty, the State Poll Tax, is guilty of a misdemeanor and liable to a fine of \$500 or imprisonment in the County Jail, or both such fine and imprisonment.

Only those persons under twenty-one or over sixty years of age who demand Poll Tax must be paid on demand.

**HENRY P. DALTON**

Assessor of Alameda County.  
Oakland, California.

---

NOTICE TO  
CONTRACTORS

The Board of Education of the Vallejo Public Schools, at an adjourned session held June 10, 1903, adopted the following resolution and ordered the same published in Vallejo, San Francisco and Oakland daily papers for three consecutive days:

Resolved, That the Board of Education

of the Vallego Public Schools, who are authorized by the board of trustees to submit plans, specifications and estimates for two for-room school buildings, taking as a basis for said plans, specifications and estimates, ground plan and profile that may be found in the office of J. J. Tinnell at 4 Sacramento street, Vallego. The maximum amount allowed for the erection of each of these buildings is \$3800.00. The contractor who is the successful bidder for the erection of these buildings is to submit his plans and specifications,

the same are adopted by the Board, the plans and specifications of some other than the successful bidder adopted by the Board, the party submitting

ing said plans and specifications and estimate are to be delivered to the Board of Education on or before June 23, 1903, at 8 o'clock P. M.

J. J. RIPPETON,  
Secretary pro tem, Board of Education,  
Vallejo Public Schools.

---

## BOND REDEMPTION.

---

PUBLIC NOTICE IS HEREBY GIVEN by the Treasurer of the City of Alameda, County of Alameda, State of California, that there is now on this 7th day of May, A. D. 1903, the sum of ten thousand (\$10,000) dollars in the Sinking Fund

provided in an Act of the Legislature of the State of California, entitled, "An Act to Prevent the Incurring of Debt by Floating Indebtedness of the City of Oakland to Prevent the Incurring of Debt by the City of Oakland," approved March 30th, 1874, which said Act may be found on page 10 of the Statutes of the State of California for the year 1873-74. The said fund is set apart to pay and discharge the following numbered bonds issued in accordance with the said Act, to-wit: the said cited numbered in the order their issuance, to-wit: Bonds numbered 40 to 44, of the denomination of \$1000 each. Also bonds numbered 45 to 49, of the said denomination of \$500 each. And if such bonds so numbered, either of them, shall not be paid, or payment and cancellation are not made by the Treasurer of the City of Oakland, in the City Hall of said City of Oakland, County of Alameda, State of California, within ten (10) days after the expiration of the term of maturity of the same, that is to say, within ten (10) days after the 17th day of August, A. D. 1874, then said fund shall remain in the Treasury of the City of Oakland, County of Alameda, State of California, for the use of the City of Oakland, to be applied to the payment of the same, as provided in the said Act.

charge said Bonds whenever presented  
and such bonds of either of them shall  
not draw interest after ten (10)  
from and after the said 7th day of  
gust, 1923.

No. Ninth street, Oakland, California,  
July 1, 1923, at 11 o'clock A. M. A  
Board of Directors will be elected  
other important business will come  
before the stockholders. By order of  
Directors.

**M. C. BENSON, Secretary**

# Berkeley and the State University

## GIVEN CHARGE OF LARGE EASTERN PASTORATE.

### University Graduate to Occupy the Pulpit of Brooklyn's Hanson Methodist Church.

BERKELEY, June 25.—The entire charge of one of the largest churches in the East has been given to William M. Martin, a young graduate of the University of California. Although he has been out of college for only two years, Martin has been placed in charge of Hanson Methodist Church of Brooklyn, New York, the largest Methodist church of that city. He will assume the entire responsibility of the church, with its congregation numbering 3600, for the month of July, August and September. Last Monday Martin left for New York, and today he left there for New York.

While at the University of California, William Martin was one of the most prominent men in the student body, and as a scholar he had a great record. In '99 and '00 he made both the Carnot and Intercollegiate debating teams, and in the following year he won the coveted Carnot medal and was again a member of the Intercollegiate. He was considered one of the best debaters that California ever had. He was graduated with the class of '02.

After graduating he became assistant pastor in one of the Methodist churches of Oakland. Later he went to the Divinity School in New York, where he has been for the past year. After leaving his charge at Brooklyn he will return to California and enter the Methodist ministry here permanently. He is engaged to be married to Miss Muriel Eastman, a graduate of the University with the class of '02.

#### BOTH ASSOCIATIONS WILL BE ACTIVE DURING SESSION.

BERKELEY, June 25.—Weekly meetings of the Young Women's Christian Association and the Young Men's Christian Association will be held jointly in the lecture room of Stiles Hall at 6 o'clock Tuesday afternoon during the present session of the summer school of the University of California. At these meetings speakers will be given by different speakers from the two associations, and the lay and members of the faculty.

From Monday to Friday of each week the secretary will hold office hours from 11 to 12 o'clock. During the first week of the session the information bureau will be kept open for the use of the students. An employment bureau has also been established, such as is maintained regularly to assist students who wish to derive the expenses of the course.

Tomorrow evening, at 8 o'clock, both

## INFORMATION FOR VISITORS.

### QUESTIONS FORESTALLED AND ANSWERED IN ADVANCE.

BERKELEY, June 24.—It is almost as difficult to handle the large number of more mature students who have invaded the campus of the University for the summer session as it is to take care of the Freshmen, who swarm the classic slopes in August. It is impossible to go up the main path without seeing some wondering school teacher adjusting her glasses that she may more clearly see the inscription on the football statue. And it is equally impossible to pass by on the other side without being stopped to point out the different buildings and to answer a dozen questions. Up in South Hall Recorder Sutton and his deputies are kept busy getting the thousand students properly oriented, though there are no wily Sophomores to lead the unsophisticated visitors astray, yet they have their troubles and many of them in getting their courses arranged and other matters connected with matriculation settled. To avoid answering the same questions a hundred times the authorities have had printed the following comprehensive paragraphs of gratuitous information:

The chemical laboratory is open to visitors on week days from 9 a. m. to 4 p. m.; Saturdays, 9 a. m. to 12 p. m.; and the chemical museum from 2 p. m. to 3 p. m., except Saturdays.

The Alaskan museum of ethnology and natural history, at the ferry building, San Francisco, is open to the public on Monday, Wednesday and Saturday, from 9 a. m. to 5 p. m.

The Mark Hopkins Institute of Art, corner of California and Mason streets, San Francisco, admits visitors free of charge on the first Friday of each month; on other days a fee of 25 cents is charged. Extra hours for Sunday work, excepting one Sunday in each month. The agreement, for one year, dates from June 15.

#### WAGES INCREASED.

CHICAGO, June 25.—The wages of the 1000 members of the Railway Express Drivers and Conductors' Union will be increased on an average of 10 per cent under the decision of the Chicago Board of Arbitration, just made public. The union made a demand for a uniform wage for all men, by which the highest paid would receive \$75 a month. In the agreement, which covers the seven express companies in Chicago, they agree not to discriminate against union men, to grant drivers extra pay for Sunday work, excepting one Sunday in each month. The agreement, for one year, dates from June 15.

#### VETERAN WRITER DYING.

NEW YORK, June 25.—Franklin Fyles, the veteran dramatic writer and playwright, is dying at his home in this city. He is suffering from leucemia, and, according to his physicians, can live but a short time. He was taken with the disease four years ago but it became serious only recently. Mr. Fyles is 55 years of age. He has been prominent in dramatic circles more than a quarter of a century.

## TO CLIMB GRIZZLY ONCE MORE.

### PROF. PALACHE WILL TAKE STUDENTS UP HILL HE KNOWS WELL.

BERKELEY, June 25.—After having been away from Berkeley for nearly ten years Professor Charles Palache of Harvard will again climb old Grizzly and take a tramp over the hills, every foot of which he knows as a student of the University of California. He is to take a party of summer school students of geology for a trip up the peak and down into Wild Cat canyon. In his chosen study of mineralogy Professor Palache, in his undergraduate days, and even before he went to college, used to tramp almost daily over the hills back of the college buildings. When, a decade ago, he was studying in the East and abroad, he was engaged as a professor at Harvard. His first visit to the old haunts will be on Saturday, when, with the students, he will again climb Grizzly. The party will leave the library at 9 o'clock Saturday morning. During the trip all the students will be under the geological aspect of the region.

#### LOTS OF MONEY SPENT.

ST. LOUIS, June 25.—The World's Fair Company has expended in actual cash \$8,000,000 up to the first of the present month, as shown by the report of the auditing committee of the national commission at work here.

The commission has been informally notified by the Exposition Company that a request will be made upon the Secretary of the United States Treasury to be authorized to draw on the fund of \$5,000,000 appropriated by Congress for the fair between now and September, probably in August.

Contracts have been let by the exposition company that will amount to nearly complete the expenditure of the \$10,000,000 required by the act of Congress before any of the Government funds are available.

The report of the Auditing Committee will be forwarded to Washington and when the Government fund is available the money will be paid out under rules and regulations prescribed by the Secretary of the Treasury.

#### AUTOMOBILE WAS TIRED AND STOPPED.

BERKELEY, June 25.—In honor of his return to town after his summer vacation, William Cavalier, the well-known student and advertising manager for the Golden State, took a young lady for an automobile ride yesterday. As a side trip was a failure, though it was plenty eventful enough to celebrate almost any occasion. When about ten miles out of town the auto got tired and refused to go further. Had a farmer not taken pity upon the young people they would be walking home along the country road now. But as it is they are dodging the remains of their friends and thinking of the uncertainty of things in general.

#### THE INNOCENT SUFFERED.

NEW YORK, June 25.—While chasing an alleged thief in West Twentieth street, a revolver in the hand of a city detective sergeant was discharged and James Kearns, a laborer at work near by, was shot and probably fatally wounded.

A moment later the fugitive stopped running and surrendered. The detective asserts that the shooting of Kearns was an accident; that he drew his revolver, fearing it would fall from his pocket. The foreman who had charge of Kearns and his fellow-workmen, says the revolver was drawn and aimed at the alleged thief and that the shot missed its mark.

## FROM MANY STATES THEY ARE POURING IN.

### University Summer Session Opens With Largest Attendance Ever Known.

BERKELEY, June 24.—In the neighborhood of 1000 students will have enrolled for work in the summer session of the University of California before the Recorder's office closes at 5 o'clock this afternoon. All along since the application for admission began to come in the number has kept in advance of the registration of corresponding dates of a year ago, and for the last few days the enrollment has been over 100. In all, little over 800 enrolled last year. This year the figure may exceed 1000. But already the record has been broken. Not only will the attendance at this summer school be larger than any previously held at California, but it will be the largest ever held in any university in the country. Chicago alone is an exception, and with her the summer session is a part of the regular college work.

This afternoon the first meeting of the session is being held at Hearst Hall. The original intention of holding this initial mass meeting in the amphitheater had to be abandoned on account of that structure being still incomplete. The meeting this afternoon is of the nature of the regular university meeting held during the year in the gymnasium. The speakers are Professor H. Morse Stephens of the University of California and Associate Professor James R. Angell of the University of Chicago.

#### WILL ISSUE CALENDARS FOR SUMMER SESSION.

BERKELEY, June 25.—The University of California today issued a calendar for the remainder of the week. Every Monday, from now on until the close of the summer session, one of these weekly schedules of events will be published. Today's bulletin reads as follows:

Thursday, June 25.—Registration of Summer Session students, offices of the recorder and secretary, South Hall, 8 a. m. to 5 p. m.; attendance on classes begins in all courses; University meeting, Hearst Hall, 4 p. m. Speakers—Professor H. Morse Stephens of the University of California and Associate Professor James R. Angell of the University of Chicago. All other university exercises will be suspended during this hour.

Friday, June 26.—Y. M. C. A. and Y. W. C. A. reception to Summer Session students, Stiles' Hall, 3 p. m. All students are cordially invited.

## YOUNG PEOPLE TO HOLD MEETING.

### Association of Alameda County will hold a quarterly meeting tomorrow evening at the Plymouth Avenue Church at the corner of Thirty-fourth and Blin streets.

The Association of Alameda County will hold a quarterly meeting tomorrow evening at the Plymouth Avenue Church at the corner of Thirty-fourth and Blin streets. This association was organized a little over two years ago for the purpose of uniting Congregational societies in this county in missionary work. The organization has grown to be a strong missionary body since its formation. It took upon itself as a special work the paying of the salary of Miss Wilson, a missionary in Micronesia.

Miss Wilson herself who recently returned to San Francisco for a short stay, will be present and address the young people. Other interesting speakers upon missionary work will be present and give of their knowledge and experience.

A basket supper will be partaken of at 6 o'clock after which will come the regular meeting.

#### ENDORSED CHAMBERLAIN.

HALIFAX, N. S., June 25.—The Sydney, C. E. Board of Trade has adopted a resolution which "heartily endorses" the recent commercial proposals of Joseph Chamberlain, Colonial Secretary, in so far as they have for their object the betterment of the existing conditions and the placing of two trade relations of component parts of the empire upon an enduring basis of mutual preferential treatment.

#### WOMAN'S AID SOCIETY OF PLEASANTON.

PLEASANTON, June 24.—The Pleasanton band boys are busy getting ready for their social dance, which takes place Saturday evening at Novis' Pavilion. The band is made up of twelve members and their parties are always well attended and looked forward to with much pleasure.

WOMAN'S AID.

The Woman's Aid Society held its regular meeting in the church parlors Tuesday afternoon. A large number of the members were present and much business was transacted. It was with much regret to the members of the society that their much-loved president, Mrs. S. K. Treffer, resigned on account of ill health. A new president will be elected at their next meeting.

PERSONAL MENTION.

Mrs. Hattie Hay went to San Francisco Wednesday, where she will be the guest of Mrs. Charles H. Meese.

Mrs. Gus Harms and little daughter, Lucy, will go to Camp Capitola Friday for a camping trip.

Mrs. J. Coffey was in the bay cities Tuesday.

Mrs. C. F. Morse is visiting in San Francisco this week.

Mrs. Cutler will join the camping party at Rose Dale this week.

Mrs. J. A. Mendonhall is spending the week in the bay cities.

Mrs. Alderson and daughter, Miss Fern, will accompany to Oakland where Mrs. Fern will attend High School.

A large number of people from Pleasanton will attend the Oakland Street Fair and Carnival during the month.

Robert Ellis was in the bay cities Thursday.

There was a young man from Woonsocket whose picture was worn in a jacket. He married the belle. And one long it befall That they took out the jacket to rock it.

# HAYWARDS, SAN LEANDRO, EMERYVILLE, FRUITVALE, GOLDEN GATE

## PRETTY WEDDING SOLEMNIZED.

### MISS MARY DEITZ IS MARRIED TO ROBERT J. BOYER AT GOLDEN GATE.

GOLDEN GATE, June 25.—The home of Mr. and Mrs. Deitz, at 5403 San Pablo avenue, was the scene of a pretty wedding on Tuesday evening, when their eldest daughter, Miss Mary Deitz, became the bride of Robert J. Boyer of Oakland. The ceremony took place at eight o'clock in the evening, and was witnessed by a large number of relatives and intimate friends of the contracting parties.

The house and grounds were beautifully decorated for the occasion. Within the spacious parlor was a bower of flowers and evergreens, while the garden was made as bright as day by countless Japanese lanterns which diffused their soft light into every nook and corner.

The bride was plainly and simply attired and was attended by her sister. After the ceremony the newly married couple, and the numerous guests repaired to the dining room where they partook of a wedding repast and immediately afterwards Mr. and Mrs. Boyer left on the night train for Catalina Island, in the southern portion of the State, where they will spend a month's honeymoon. On their return they will reside at 1331 Alice street, Oakland, where Mr. Boyer has just had a new cottage erected.

The bride has lived in Golden Gate for a number of years and was well known in social circles, both here and in Oakland. The groom is in the cigar and tobacco business in Oakland and was at one time a member of the City Council.

#### CAMPING TRIP.

C. Lundquist of Fifty-fourth street, has gone to El Campo, where he expects to spend several weeks on a camping trip. He is accompanied by his wife and children.

St. Louis  
**A.B.C. BEERS**  
The Highest Priced but the Best Quality.  
SOLD EVERYWHERE.

## WOMAN CAUSES A DISTURBANCE.

### ELMHURST WOMAN OBJECTS TO BARTENDER SELLING BROTHER WHISKY.

ELMHURST, June 25.—Considerable excitement was created on Fourteenth street late Tuesday afternoon. Mrs. Lyons threw a seltzer bottle at Charles Province, and narrowly missed breaking it on his head.

Mr. Province was tending bar for Joseph Pomes for a few minutes while the proprietor was out. A short time before the episode, old Frank Anglin met a former friend from East Oakland and went into the saloon, where they had two or three drinks "for old times' sake." Then he got his customary whisky bottle filled and went home. He lives next door to the saloon in his sister's lodging house.

The old man had not been gone long before Mrs. Lyons appeared at the door of the saloon with vengeance in her looks. She called Province all kinds of names for selling her brother whisky, and then hurled a seltzer-water bottle at his head, which failed to lodge.

Joseph Pomes, the proprietor of the saloon, vows he will have the woman arrested for disturbing the peace. He says that Anglin comes to the saloon every day to get a little whisky in a flask, and that Mrs. Lyons' actions were entirely unwarranted.

Mr. Anglin was in the place again yesterday as usual, swapping stories with another old cronie, entirely oblivious of all the trouble he had caused.

HAS 116 SIGNERS.

I. N. Batt, the new proprietor of the saloon on Fourteenth street and Bay Avenue, feels confident that he will be granted a liquor license by the Board of Supervisors at its meeting next Monday. He has secured the names of 116 taxpayers to his application for a license, while there are only 185 names attached to the protest. His petition for a license was presented to the Board at the last meeting and was referred to the license committee. At that time it had fewer signatures than the protest, but he has been doing considerable hustling since with much success.

#### ENTERTAINMENT TONIGHT.

The musical and literary entertainment for the benefit of the Presbyterian Church, will take place this evening in Red Men's Hall. The affair promises to be very successful. Excellent talent, both local and outside, has been secured to render a pleasing and variable program. Mr. and Mrs. Charles Alvord are in charge of the entertainment.

PERSONAL.

Mrs. N. Abrahams, the Misses Mylender and Ruth Abrahams, of San Francisco, were the guests of Mr. and Mrs. I. N. Batt, of Fourteenth street, yesterday.

Henry Klempfer, of Sunnydale street, has returned from a four years' trip to Brazil and Los Angeles.

## LAUNCHED ON SEA OF MATRIMONY.

### POPULAR YOUNG COUPLE OF SAN LEANDRO MARRIED YESTERDAY.

SAN LEANDRO, June 25.—A pretty little wedding was celebrated here yesterday, when Miss Lillian Rogers and F. G. Gonsalves were united in marriage at St. Leander's Catholic Church. The ceremony was performed at high noon by Rev. W. O'Mahony, pastor of the church. The bride was attended by Miss Marie E. Williams, of San Francisco, while Joseph Gonsalves, brother of the groom, was best man. The bride was becomingly gowned in tan silk crepe de chine over white silk, trimmed with cotton and Persian lace. She carried a bouquet of white carnations. The bridesmaid wore tan tulle over pink and carried a bouquet of pink carnations. The ceremony was witnessed by only the relatives and intimate friends of the contracting parties.

After the service at the church, the bride party repaired to the home of the bride's parents, Mr. and Mrs. J. P. Rogers, on Callan street, where a wedding breakfast was served. The happy couple left on the afternoon train to enjoy a two week's honeymoon in Los Angeles and vicinity. On their return they will reside in San Francisco, where Mr. Gonsalves is in the employ of A. Merle & Company.

Those who sat down to the nuptial feast were: Mr. and Mrs. J. C. Gonsalves, Mr. and Mrs. J. C. Schmitt, San Francisco; Mr. and Mrs. J. F. Rogers, Miss Marie E. Williams, San Francisco; Joseph Gonsalves, the Misses Belle and Belinda Roberts, Miss Mayme Roberts, Centerville; Miss Maggie Galvin, Los Angeles; Miss Alice Roberts, Oakland; George Williams, San Francisco; Mrs. William Silva, Miss A. Williams, San Francisco; Miss A. Rogers, George Rogers, Joseph Rogers, Charles Tinos, Frank Rogers and William Rogers.

NOTES AND PERSONALS.

Herscher and D. McCarthy have been appointed appraisers of the estate of Joaquin Leboe, deceased.

Judge Hall has appointed L. Godchaux receiver to take charge of the Bodwell fruit evaporating plant at this place pending the foreclosure action brought by the Inter Nos Building and Loan Association against Harry W. Bodwell and others. The mortgage is for \$3,000.

A number of important improvements are being made at St. Mary's Convent. The buildings are being renovated and a number of minor changes made. The work will be completed before the opening of the next school term.

#### A STORMY PASSAGE.

VICTORIA, B. C., June 25.—The steamer Cottage City which arrived last night with 100 Klondike passengers, encountered a severe south gale in Queen Charlotte Sound on Tuesday, with high seas.

## DISCUSS FINANCE TWO CANDIDATES FOR TRUSTEE.

### HAYWARDS BOARD OF TRADE AVERSE TO PAYING HIGH RENT.

HAYWARDS, June 25.—A special meeting of the Board of Trade has been called for Saturday evening to discuss the financial affairs of the organization. The board has been occupying quarters on Castro street, using the building jointly with the Haywards Creamery Company. For this they paid \$6 a month rent. The creamery company has now abolished its office there, so if the board should remain, it will have to pay a rental of \$9 a month for the building. This the members believe the organization cannot afford to pay.

When the board secured the present quarters, it was intended to fill the room with exhibits of the products of the surrounding country. Tourists and excursionists could then visit the rooms and learn considerable about the advantages of living at Haywards. The fine exhibits would be proof of the fertility of the soil.

The quarters were renovated and decorated in the style of a first class apartment house. Tourists and excursionists have not been forthcoming, and the room is consequently a little bare. As the board only needs twice a month, some of the members feel that it is no worth while to pay for the privilege. Formerly the meetings were held in the town hall, at a very slight cost.

It is the opinion of a number of the members that the money can be more profitably spent in some other way. Even though \$150 has been expended in fitting up the quarters, they believe it would be a wise policy to let it go for naught rather than throw good money after bad.

The association is at present endeavoring to get together an exhibit to send to the St. Louis exposition. It is the opinion of many that money can be more advantageously expended in preparing this exhibit than in keeping up a useless office.

NATIVE SONS INITIATE.

Eden Parlor of Native Sons initiated thirteen candidates last evening. I was one of the largest classes ever taken in at one time. After the degree work was finished, the members enjoyed themselves at a banquet.

PORTUGUESE FIGHT.

In Justice Prowse's court yesterday, Jacintho Correia and his 15-year-old son Frank pleaded guilty to a charge of battery, preferred by John Pinto. The former was fined \$15 and the latter let off on account of his youth.

Pinto alleged that some one threw some stones through his window Tuesday evening. He got up and found the defendants in front of the house. He told them they would have to pay for any damage, whereupon they commenced beating him.

The other two aver that they were

## LIVING CONTEST FOR PLACE MADE VACANT BY DEATH AT FRUITVALE.

### THE POWER HOUSE AT EMERYVILLE IS FINISHED—NUMEROUS IMPROVEMENTS.

FRUITVALE, June 25.—There are two candidates in the field for the position of school trustee in the Bray district, made vacant by the death of the late Walter Axtell. Richard Reinartz, of Merrill avenue, an old soldier, formerly leader of the Presidio band, is one of the candidates, and J. C. Schaffner of Basset street, employed in San Francisco, is the other. Both gentlemen are out with petitions which they are getting their friends to sign. The circulars will be presented to County Superintendent of Schools Crawford. He will probably make the appointment some time next month.

Trustee Axtell died a few days before the June election. There was not enough time to prepare for the choosing of his successor on the regular election day, however, so the matter had to be left to the County Superintendent. Mr. Axtell had only served one year of his term of three. Superintendent Crawford's appointee will hold office for another year, or until July 1, 1904. Next June, at the annual election, the voters will have an opportunity of retaining the appointee for another year, or of turning him down for some other aspirant for office.

A PROTEST.

A protest was filed with the Board of Supervisors against the granting of a saloon license to Fred C. Schmitt, at the corner of Hopkins street and Fruitvale avenue. It was based on the ground that there are two licensed saloons in Diamond at the present time and that the application involves the re-opening of the place formerly known as "The Heritage." The protestants declare that it is not good for the property or good order of that section to have the application granted. The protestants included M. F. Yale, F. G. Yale, R. F. Yale and about fifty others.

PERSONAL.

The Misses Hattie and Katherine Dunker, of San Francisco, who have been the guests of friends in Upper Fruitvale, have returned home.

ROUTED OUT OF BED BY A COMOTION IN FRONT OF PINTO'S HOUSE. He accused them of breaking his windows. A quarrel followed, resulting in a fight.

DISTURBING THE PEACE.

Joseph Maciel yesterday pleaded guilty to disturbing the peace of Maria Farro on last Tuesday evening. Justice Prowse fined him \$15. The trouble was a neighborhood row. It occurred in the same vicinity as the Correia-Pinto episode.

"I'd hate to be a hen," said 4-year-old Bobby, who was visiting in the country. "Why, dear?" asked his grandma. "Cause," replied the little fellow, "I'd have to lay eggs and I don't know how."

## LAYING CONCRETE BAND WILL GIVE FAST.

### THE POWER HOUSE AT EMERYVILLE IS FINISHED—NUMEROUS IMPROVEMENTS.

EMERYVILLE, June 25.—The center of labor at the big subway, being built by the Oakland Transit Company, at the present time, is the laying of the concrete foundation which is being done with a very large force of men, equally divided at the two ends. With the present force and the progress that is being made, it is only a matter of a few days when the subway will be completed and ready for the track layers. The grading has been completed and the concrete is being put on at a very rapid rate. The work of constructing the concrete retaining walls has been commenced and is following close behind the flooring.

THE POWER HOUSE.

The new power house is practically finished, and the work in that vicinity is now confined to the tall brick chimney, which is nearly finished, and the installing of the machinery. The new building is strictly fire-proof, being constructed of brick and has metal roofing. It is a handsome piece of workmanship and presents an imposing sight. The work of putting in the machinery is progressing very rapidly and a large force is engaged in that work.

REPAIRING STREETS.

All of the streets constructed by the Hutchinson, Ransome Company are being thoroughly repaired and put in order. Many loads of gravel has been distributed over the streets and all low places filled and raised to the regulation grade. It is then watered and rolled with a large steam roller which leaves it hard and smooth. Emeryville can lay claim to having the finest streets in Alameda county.

WIRE FENCE.

The Town Hall property is being surrounded by a handsome wire lattice fence which will guarantee the property against trespassing. As soon as the fence is completed it will be painted and the property will be very attractive in appearance.

WORK BEGUN.

Now that the franchise has been granted to them the Santa Fe Company has recommenced work on the line into Emeryville. Yesterday teams were kept busy hauling gravel on to that portion of their right of way east of San Pablo avenue, which was graded a short time ago.

## WOMAN'S AID SOCIETY OF PLEASANTON. ANTON LOSES ITS PRESIDENT.

### PLEASANTON, June 24.—The Pleasanton band boys are busy getting ready for their social dance, which takes place Saturday evening at Novis' Pavilion.

PLEASANTON, June 24.—The Pleasanton band boys are busy getting ready for their social dance, which takes place Saturday evening at Novis' Pavilion. The band is made up of twelve members and their parties are always well attended and looked forward to with much pleasure.

WOMAN'S AID.

The Woman's Aid Society held its regular meeting in the church parlors Tuesday afternoon. A large number of the members were present and much business was transacted. It was with much regret to the members of the society that their much-loved president, Mrs. S. K. Treffer, resigned on account of ill health. A new president will be elected at their next meeting.

PERSONAL MENTION.

Mrs. Hattie Hay went to San Francisco Wednesday, where she will be the guest of Mrs. Charles H. Meese.
